FRUIT LIST 2011-2012

Updated: 23rd September 2011

We offer our largest range of plants in containers from September. This is the best time to plant due to the soil being warm and generally moist which allows the new roots to establish quickly and easily before the colder winter months. Our bare-root range is available in December and is very limited so be sure to reserve your requirements in advance.
There is a handy guide to rootstocks, pollination groups etc. on the back page, but please do not hesitate to contact us for any additional advice you may require. We recommend using Rootgrow (mycorrhyzal fungi) when planting your fruit for successful establishment, and don't forget tree stakes and ties to keep trees stable in the first few years.
All plants must be collected from The Wisley Plant Centre

RESERVATIONS

1. Please fill in your details (right).

2. Clearly mark the plants you require, including the quantities.

3. Either post it back to us, or hand it in at our information desk.

...OR call or email – addresses as above.
When we have taken delivery of your plants and put them aside, we will let you know. Please indicate which method you prefer: telephone, post or email.

TREE FRUIT

APPLES: Container-Grown

AGM indicates that the plant has received an award in RHS Trials. Figures such as M27, MM106 etc. are rootstocks and this, together with tree forms and pollination groups, are explained on the back page. There are 2 **NEW** varieties (to us): 'Christmas Pippin' is an improved Cox-type and 'Rosette' has red flesh. A 'T' in the pollination column indicates that the variety needs **two** other pollinators (see back page). 'SF' is self-fertile: no pollinator needed.

	AGM	Eating or Cooking	Pollination Group	Picking Month	Bush M27 £40.00	Bush M26 £35.00	Bush MM106 £35.00	Cordon M9 £38.00	Espalier MM106 £58.00	Step-Over M27 £38.00	Half-Std MM106 £40.00

APPLES: Family Trees

These feature three varieties grafted onto one rootstock, giving a range of flavours and uses in the minimum space, and solving any pollination issues as well. Although the MM106 rootstock is used, the tree will not reach the height shown in the table on the back page, as the vigour is spread across all 3 varieties.

	Bush MM106 £50.00
Bramley 20 / Cox's Orange Pippin / Worcester Pearmain	☑
Cox's Orange Pippin / James Grieve / Katy	☑

APPLES: Bare-Root

An excellent selection this year, with several new varieties (to us) and two cider apples. These are mostly one-year old 'maidens' or 'whips', but particularly ornate double-U cordons are also available. When you buy bare-root trees, make sure you at least heel the roots in on the day of purchase, and plant in their final position as soon as possible.

APPLES: SPECIALLY GRAFTED TREES

NEW! Take home both a local apple variety, and a tree directly propagated from the trees in the Wisley orchard. These ten specially grafted varieties are available as one-year old maidens (they were only propagated in January 2011!), in a three-litre pot. They should be available in September.

	AGM	Eating or Cooking	Origin	Pollination Group	Picking Month	Maiden M26 £40.00
Cellini		E&C	Raised at Vauxhall, London. 'Nonesuch' seedling. Introduced 1828.	2	Sep	☑
Claygate Pearmain	🏆	E	Found in a hedge near Claygate, Surrey, by John Braddick, about 1820.	2	Oct	☑
Cockle Pippin		E	Raised by Mr Cockle of Godstone, Surrey, about 1800.	2	Oct	☑
Colonel Yate		C	Probably raised at Surbiton, Surrey. 'Lane's Prince Albert' x 'Peasgood's Nonsuch'.	3	Oct	☑
Duchess's Favourite		E	Raised at Addleston, Surrey, in the early 19th century.	3	Sep	☑
George Carpenter		E	Raised by George Carpenter, Byfleet, Surrey, 1902.	4	Sep	☑
Joybells		E	Raised by W. Taylor of Godalming, Surrey before 1914.	4	Sep	☑
Pixie	🏆	E	Raised in 1947 at Wisley. Probably 'Cox's Orange Pippin' or 'Sunset' seedling.	4	Oct	☑
Scarlet Nonpareil		E	Probably raised at Esher, Surrey around 1773, from a seed of 'Old Nonpareil'.	3	Oct	☑
Shoesmith		C	Raised by George Carpenter, Byfleet, Surrey. First exhibited in 1930.	4	Oct	☑

SOFT FRUIT

BLACKBERRIES, HYBRID BERRIES & KIWI FRUIT

BLACKBERRY	AGM	Price
Adrienne		£10.99
Bedford Giant		£10.99
Black Butte		£12.99
Black Satin		£12.99
Chester		£12.99
Karaka Black		£12.99
Loch Maree		£12.99
Loch Ness	🏆	£12.99
Loch Tay		£12.99
Oregon Thornless		£10.99
Thornfree		£10.99

HYBRID BERRIES	AGM	Price
Boysenberry		£9.99
Loganberry LY654	🏆	£10.99
Tayberry Buckingham		£10.99
Tayberry Medana		£10.99
Tummelberry		£12.99

- Boysenberry = raspberry x blackberry x loganberry
- Loganberry = raspberry x blackberry
- Tayberry = loganberry x black raspberry
- Tummelberry = tayberry x (another blackberry-raspberry hybrid)

KIWI FRUIT (Actinidia)	AGM	Price
arguta Issai (SF)		£14.99
arguta Purpurna Sadowa (f)		£30.00
arguta Weika (male)		£30.00
deliciosa Hayward (female)		£14.99
deliciosa Jenny (SF)		£14.99
del. Solissimo Renact (SF)		£14.99
deliciosa Solo (SF)		£14.99
deliciosa Tomuri (male)		£14.99

Blackberries: Loch Maree has attractive pink flowers. Adrienne, Loch Ness, Oregon Thornless and Thornfree are thornless.
Kiwi Fruit: deliciosa varieties are the well-known ‘hairy’ kiwis. Jenny, Solissimo Renact and Solo are self-fertile. Hayward is the source of most commercial kiwi fruit, but is female and needs a male pollinator, e.g. Tomuri. Actinidia arguta is hardier, with smaller smooth fruits that can be eaten whole. Issai is self-fertile, Purpurna Sadowa is female and would need a male such as Weika for pollination.

GOOSEBERRIES, CURRANTS ETC.

GOOSEBERRY	AGM	Price
Captivator		£9.99
Careless	🏆	£9.99
Hinnonmaki Green		£9.99
Hinnonmaki Red		£9.99
Hinnonmaki Yellow		£9.99
Invicta	🏆	£9.99
Invicta (1/4 Standard)	🏆	£30.00
Pax		£9.99
Rokula (1/4 Standard)		£30.00
Whinham's Industry	🏆	£9.99

BLACKCURRANT	AGM	Price
Baldwin		£9.99
Ben Alder		£9.99
Ben Connan	🏆	£9.99
Ben Sarek	🏆	£9.99
Ben Tirran		£9.99
Ebony		£9.99
Titania (1/4 Standard)		£30.00

REDCURRANT	AGM	Price
Jonkheer van Tets	🏆	£9.99
Jonkheer v. Tets (1/4 Std)	🏆	£30.00
Junifer		£9.99
Laxton's Number One		£9.99
Rovada		£9.99

WHITECURRANT	AGM	Price
Versailles Blanche		£9.99

Gooseberries: Captivator, Hinnonmaki Red, Pax, Rokula and Whinham's Industry have red fruit; Careless, Hinnonmaki Green and Invicta are green; and Hinnonmaki Yellow is (!) yellow. Captivator and Pax are (virtually) thornless.

GRAPES – FOR WINE AND EATING

Dessert indicates grapes that are good for eating, as well as for wine. Picking season can be approximately equated to: Early = mid- to end-September, Mid = October, Late = November.

	AGM	Outdoor or Indoor	Dessert ?	Colour	Comments	Picking Season	3 Litre Pot £14.99
Bacchus		Outdoor		White	Good quality wine. Reliable cropping.	Mid	☑
Black Hamburgh		Indoor	D	Black	Excellent flavour. Robust and sets fruit well. V. popular.	Early	☑
Brant		Outdoor	D	Black	Small black grapes liked by children. KEPT IN SHRUBS.	Late	☑
Buckland Sweetwater		Indoor		White	Ripens early. Good pot-grown. Feed well.	Early	☑
Cabernet Sauvignon		Outdoor		Black	Needs heat & shelter. Vigorous.	Late	☑
Chardonnay		Outdoor		White	Wine & champagne. Chalky soil best. Moderate cropper.	Late	☑
Chasselas		In & Out		White	If outside, best against a wall.	Early	☑
Fragola (Strawberry Grape)		Outdoor	D	Red	Fruity-flavoured. Best against a wall.	Late	☑
Gewurtztraminer		Outdoor	D	Red	Good for wine and eating.	Late	☑
Lakemont		Outdoor	D	White	Seedless.Slight honey flavour. Big bunches.	Mid	☑
Madeleine Angevine		Outdoor	D	White	Vigorous, heavy cropper. Wine quality fair.	Mid	☑
Madeleine Silvaner		Outdoor	D	White	Good crop. Very hardy. Disease-resistant.	Early	☑
Merlot		Indoor		Black	Plummy flavour. Classic wine grape.	Late	☑
Muller-Thurgau		Outdoor	D	White	Delicate flavour. Needs good weather at pollination time.	Mid	☑
Muscat Bleu		Outdoor		Black	Excellent flavour but large seeds. Best on a wall.	Mid	☑

	AGM	Outdoor or Indoor	Dessert ?	Colour	Comments	Picking Season	3 Litre Pot £14.99
Muscat Hamburg		Indoor	D	Black	Early ripening. Heat and hand-pollination for best crop.	Late	☑
Muscat of Alexandria		Indoor	D	White	Excellent flavour. Heat and hand-pollination for best crop.	Late	☑
Orion		Outdoor		White	Used in Wisley vineyard. Good crop. Resists disease.	Mid	☑
Phoenix		Outdoor	D	White	Used in Wisley vineyard. Good crop. Resists disease.	Mid	☑
Pinot Blanc		Outdoor		White	Good flavour. Used for champagne. Best on a wall.	Mid	☑
Regent		Outdoor	D	Black	Good cropper. Disease-resistant.	Mid	☑
Riesling		In & Out		White	Classic wine grape. If outside, best against a warm wall.	Late	☑
Sauvignon Blanc		Outdoor		White	Classic wine grape. Becoming popular in the UK.	Late	☑
Seibel 13053 (Cascade)		Outdoor	D	Black	Vigorous. Disease-resistant.	Mid	☑
Semillon		Outdoor		White	Easy to grow. Relatively disease-resistant.	Late	☑
Seyve Villard		Outdoor		White	Heavy cropper. Easy to grow.	Mid	☑
Siegerrebe		Outdoor	D	White	Good flavour. Medium vigour.	Early	☑

THE BACK PAGE

KEY TO ROOTSTOCKS

APPLES	
M27	Height 1.5 to 1.8m (5-6ft)
M9	Height 1.8 to 3m (6-10ft)
M26	Height 2.4 to 3.9m (8-12ft)
MM106	Height 3.9 to 5.4m (12-18ft)
CHERRIES	
Gisela 5	Height 2.4 to 3m (8-10ft)
Colt	Height 4.5 to 5.4m (15-18ft)

PEARS & QUINCES	
Quince C (QC)	Height 2.4 to 5.4m (8-18ft)
Quince A (QA)	Height 3 to 6m (10-20ft)
APRICOTS, PLUMS, NECTARINES & PEACHES	
Pixy	Height 2.4 to 3m (8-10ft)
St Julien A	Height 3.9 to 4.5m (12-15ft)
Torinel	Height 3.9 to 4.5m (12-15ft)

TREE FORMS

Maiden: One-year old tree.

Bush: Usual untrained free-standing 'tree-shape'.

Standard: Longer clear stem below the branches than bush.

*** Cordon:** Stem with short laterals, usually grown at 45°.

*** Espalier:** Trained with a number of horizontal branches.

*** Fan:** Trained with branches in a fan shape.

*** Double U Cordon:** Four vertical branches.

Stepover: One horizontal branch, trained at low level.

***** Require training against a wall or fence

POLLINATION GROUPS

For a tree with a certain pollination group number (e.g. 3), a variety with a pollination group of the same number or one either side would be needed (in this case 2, 3 or 4).

NOTES

1. Stocks may be limited so please place a reservation
2. Bare-root trees usually arrive in late November
3. Maidens can be trained to form cordons, fans or espaliers
4. Container trees can be planted year-round, as long as the ground is not frozen.

Please pick up our advice leaflets at the Plant Centre information desk, or find advisory profiles on the website at:
http://www.rhs.org.uk/Gardening/Grow-Your-Own
