Table of late flowering daylilies which are less susceptible to Hemerocallis gall midge

This list was compiled from observations made on the extensive *Hemerocallis* collection at RHS Garden Wisley. The list is of late-flowering cultivars that partly or wholly miss the egg-laying period of the gall midge. This is not an exhaustive list and there are may be other late flowering cultivars on which observations have not been made.

Cultivars with a 🏆 symbol have received the RHS Award of Garden Merit
Cultivar names in **BOLD** are available from nurseries listed in the RHS Plant Finder 2010-2011 (http://www.rhs.org.uk/RHSPlantFinder/plantfinder.asp)
