

Designer's biography

I have been working within the landscaping industry for over 18 years and in this time, we have obtained extensive experience and knowledge. I am proud to have founded my own business specialising in delivering exceptional, contemporary garden designs and landscaping services throughout Leicestershire and the East Midlands. We strive to design and build gardens that are unique to each client.

We offer a range of high-end services from design and consultancy, materials and product supply, planting schemes, landscape construction and full garden project management.
