Upon acceptance to the MHort programme, candidates must inform the MHort team which option they intend to pay via. Candidates are able to switch between payment options at the discretion of the MHort team.

Payment is made via invoice and BACS transfer for all of the payment options. Invoices may be issued in someone else's name in the event that your employer is funding your programme, or you have received funding from an organisation or individual.

Please note that fees are reviewed each year and are non-refundable, and so no fees will be reimbursed if the paid for Units are not completed. If you defer a Unit or Year, you will incur increased charges payable in the year that you re-join the programme.
