

# Art from the garden

## What do we need to bring?

Camera

## Activity

- Make temporary art in the woodland using found objects like leaves, seeds, sticks and stones. Try creating 2D designs and 3D sculptures.
- Set challenges to collect and arrange objects according to colour, tone, shape and size.
- Try working in small groups on large-scale pieces. Could you create repeating patterns and think about symmetry in your design?

## Where can we do it?

Anywhere in the garden but particularly in the woodland

## What is the best time of year?

Any time

## Follow up activity

- Use any found objects or photographs of woodland artwork to develop your next art project in school.
- Use what you have gathered in the garden and the shapes and textures of your temporary works of art as inspiration to create a piece of music or dance.
