

Habitats and Adaptation

Key stage 2 whole day visit

Links with QCA Units:

4B Habitats, **5B** Life cycles,
6A Interdependence and adaptation

What is a habitat?

What different types of habitat are there?

Challenge

Does Hyde Hall provide a good habitat for birds and other creatures?

Explore the garden to find out if it has the essential ingredients for a good habitat.

Activities

1. Bird spotting: use binoculars to identify birds in the garden.
2. Tall trees for safety - measure trees using a simple method.
3. Food - find examples: worms, seeds, bugs
4. Water - locate water sources
5. Home - collect materials to make a nest
6. Plant a seed to provide a future food source or home.
