

RHS GARDEN HARLOW CARR is working hard to reduce landfill waste. Please take all rubbish home with you. We would, however, like you to encourage your children to reduce their landfill waste. You can do this by taking part in :

The RHS Lunchbox Challenge

The Challenge

- Encourage your children to bring a healthy packed lunch. (This will result in little or no landfill waste.)
- Wrap sandwiches/fruit etc in some thing that can be re- used or is biodegradable such as kitchen roll.
- Bring drinks in re-usable bottles (not cartons as these are difficult and costly to recycle.)
- Take home items that can be re-used or recycled. Don't forget to compost any fruit/vegetable peelings or cores.

The Reward

- A healthier, less polluted environment!
- A class certificate to congratulate your children on their efforts.
