

RHS Garden Harlow Carr

Self Guided Activity Ideas for Schools

**Foundation &
Key Stage 1**

Leaf Bags

Curricular Links: Science

How long will it take?

30 minutes

What do we need to bring?

Leaf bags made from the PDF template. Children can colour them before they are made up. Don't forget these can be composted or recycled afterwards if natural string is used.

How do we do it?

Explore the woodland to find leaves that match the description on the bags.

Where can we do it?

Anywhere in the garden, the woodland is the best place.

When can we do it?

Any time of the year.

Remember...

If it's on a plant, the plant still needs it!

Helpful Facts

- Leaves can have waxy coats to help keep water in.
- Hairs help trap warm air around the leaf.
- Spiky leaves will help protect them from munchers!
