

Free fruit identification days 2012

Jim Arbury, the RHS Fruit Specialist, will travel to all four RHS Gardens and to the RHS Horticultural Halls to hold Fruit Identification Days on selected days this summer and autumn. Members and non-members alike are invited to bring along their fruit to be identified by Jim on these specific days. This service is provided free of charge.

Please bring three fruits of each cultivar/variety that you would like to be identified. These should be mature and typical fruits complete with stalks.

The dates of the Fruit Identification Days for 2012 are as follows:
