REGISTRAR'S NOTES

***Oncidioda* Crowborough**

This grex has been confused with *Odontocidium* Crowborough and probably as a result was edited out of Sander's List. However the two grexes are distinct and have both been awarded by the RHS Orchid Committee. Consequently, colour paintings are available of both grexes which is a useful adjunct to identification. *Oncidioda* Crowborough was originally registered in 1950 by Stuart Low & Co. as *Oncidioda* Cooksoniae x *Oncidium* Auriferum. The awarded cultivar 'Chelsea' is illustrated in *The Orchid Review* 63(745): 97 (July 1955) & 63(746): 119 (Aug. 1955). This raises the question of parentage for the grex *Wilsonara* Rocksley (1975), originally registered with *Oncidioda* Crowborough as a parent, which was later changed in 1977 to *Odontocidium* Crowborough. This investigation also brought to light the omission of *Onc. Auriferum* (*Onc. McBeanianum* x *Onc. macranthum*) from the register. Thanks to John Woodward of Troweena Orchids, Australia, who has clones of both Crowborough grexes, for bringing this to the registrar's attention.
