¹ Following consultation with Prof. Mark Chase it has been decided not to recognise the genus *Mexicoa* Garay for registration. Although this genus is accepted in some floristic literature, the morphological grounds for separation from *Oncidium* are questionable, see McVaugh, *Flora Novo-Galiciana* 16: 212 (1985); Hagsater, *Orquidea* (Mexico) 4: 328 (1975); Zelenko & Chase, *Orchids, Pict. Encyc.Oncidium*: 54–55, 114–115 (2002). Molecular evidence nests it within *Oncidium*, and the single species will be treated under *Oncidium* in a forthcoming volume of *Genera Orchidacearum*.

² A new combination for *Schomburgkia wallisii* in *Laelia* is validated below.

*New hybrid genera, with standard abbreviation in brackets.

x Christendoritis [Cdt.] = *Christensonia* Haager x *Doritis* Lindl.

x Cyrollaria [Clr.] J.Portilla = *Cyrtorchilum* Kunth x *Maxillaria* Ruiz & Pav. An interesting hybrid combination linking Breeding Group 6 (subtribes *Zygopetalinae*, *Lycastinae*, and *Maxillariinae*) with Breeding Group 8 (subtribe *Oncidiinae*). Since both Groups

are within the tribe *Maxillariae* (Dressler, 1993) and there are very convincing photographs supplied by Ecuagenera, this hybrid has been accepted.

x Duckittara [Duk.] Duckitt = *Broughtonia* R.Br. x *Caularthron* Raf. x *Guarianthe* Dressler & W.E.Higgins.

x Lambeauara [Lam.] J.M.H.Shaw = *Brassavola* R.Br. x *Broughtonia* R.Br. x *Encyclia* Hook. x *Guarianthe* Dressler & W.E.Higgins, named for Fermin Lambeau, fl. 1902–1935.

¶ Species new to registration: *Bulbophyllum elevatopunctatum* J.J.Sm.; *Bulb. erythrostictum* Omerod (replacement name for *Bulb. polystictum* Schltr.); *Coelogyne corymbosa* Rchb.f.; *Coelogyne salmonicolor* Lindl.; *Dendrobium candidum* Wall. ex Lindl., (syn. *Den. officinale* Kimura & Migo); *Epidendrum jatunsachanum* Dodson & Hágsater; *Epi. porphyreum* Lindl.; *Lockhartia parthenocomos* (Rchb.f.) Rchb.f. (syn. *Lockhartia longifolia* Schltr., this frequently used name is based on a *nom. nud.*); *Masdevallia teaguei* Luer; *Masd. theleura* Luer; *Maxillaria arbuscula* Rchb.f.; *Max. elatior* (Rchb.f.) Rchb.f.; *Max. irrorata* Rchb.f.; *Max. platypetala* Ruiz & Pav.; *Oncidium harlingii* Stacey; *Oncidium trulliferum* Lindl.; *Odontoglossum astranthum* Linden & Rchb.f.; *Odm. portmannii* Bockemühl.; *Pleione saxicola* Tang & F.T.Wang ex S.C.Chen; *Polystachya campyloglossa* Rolfe; *Sophronitis pygmaea* (Pabst) Withner.

CORRECTIONS TO GREX REGISTRATIONS

Dendrobium Savannah Raka appears in *Orch. Rev. Suppl.* 116(1280): 5 (Mar 2008). Unfortunately this application bore the wrong parentage. Instead of *Den. williamsianum* the pollen parent should have been *Den. williamsonii*. However, as this then makes the hybrid a synonym of *Den. Doitung* Dawn, the application has been withdrawn.

x *Doritaenopsis* Tiannong Bravo appeared in *Orch. Rev. Suppl.* 113(1265): 9 (Sep 2005) as Tainnong Bravo by error.

In *Orch. Rev. Suppl.* 116(1280): 18 (Mar 2008) two greges, South Monarque and Yamada Yuriko, appear under x *Rolfeara*. They should both be transferred to x *Rhynchosoprocattleya*. The parentage should be corrected as follows: South Monarque = Rlc. [Bc.] Grande Monarque x Sc. [Lc.] South Esk; Yamada Yuriko = Rsc. [Blc.] South Monarque x Sc. [Lc.] Irene Finney.

CORRECTIONS TO NEW HYBRID GENERA

Due to a typographic error the hybrid generic name published in *Orch. Rev. Suppl.* 116(1280): 22 (Mar 2008) as x *Comstanciaara* should be amended to x *Constanciaara*, as it is named for Constância, wife of J. Barbosa Rodrigues.

The abbreviation for x *Caulrianitis* is Cut., and not Cul., as appears in *Orch. Rev. Suppl.* 116(1280): 22 (Mar 2008).

x *Guartonichea* [Gtc.] is invalid as it appears in *Orch. Rev. Suppl.* 116(1280): 22 (Mar 2008), since it is listed with the wrong component genera. The correct components are: *Broughtonia* R.Br. x *Guarianthe* Dressler & W.E.Higgins x *Prosthechea* Knowles & Westc.

A component genus was omitted from x *Tunstillara* [Tna.] as published in *Orch. Rev. Suppl.* 115(1278): 23 (Nov. 2007). The correct version appears in *Orch. Rev. Suppl.* 116(1280): 23 (Mar 2008), as *Cattleya* x *Guarianthe* x *Laelia* x *Myrmecophila* x *Rhynchoaelia* x *Sophronitis*.

The entry for x *Caulronleya* [Cuy.] in *Orch. Rev. Suppl.* 116(1280): 22 (Mar 2008) should be deleted. This hybrid genus is superfluous to x *Sophracathron* [Scr.] in *Orch. Rev. Suppl.* 115(1277): 26 (5 Sep 2007).

x *Appletonara* [Aea.] appeared in *Orch. Rev. Suppl.* 115(1278): 21 (Nov. 2007) with a component genus omitted. It is *Cattleya* x *Encyclia* x *Laelia* x *Rhynchoaelia*.

REGISTRAR'S NOTES

New combinations in *Laelia* for *Schomburgkia schultzei* and *Schom. wallisii*

To enable registrations to be accepted involving the plants known as *Schomburgkia schultzei* and *Schom. wallisii*, new combinations in *Laelia* are required since *Schomburgkia* is no longer upheld as a genus in *Genera Orchidacearum* 4.

Schomburgkia schultzei

Notes on this taxon together with colour photographs can be found in Withner, C. (1993) *The Cattleyas and their relatives*. 3: 42, t.22, 23. It is unplaced in the Kew World Monocots Checklist. ***Laelia schultzei*** (Schltr.) J.M.H.Shaw comb. nov. Basionym: *Schomburgkia schultzei* Schltr. in *Fedde Repert. Spec. Nov. Regnum Veg. Beih.* 27: 139 (1924). Syn. *Schomburgkia rosea* var. *schultzei* (Schltr.) H.G.Jones, *Caldasia* 10(50): 493 (1970).

Schomburgkia wallisii

Little is known about the plant in cultivation under this name, and the World Monocots Checklist leaves it as unplaced. Authors that comment on this taxon point to similarities with other former *Schomburgkia* species now placed in *Laelia*, rather than those now placed in *Myrmecophila*. A summary of what is known may be found in Withner, C. (1993) *The Cattleyas and their relatives*. 3: 55–56. A plant is illustrated under this name in *Orquideas nativas de Colombia* 5: photo 599. Since the name *Laelia wallisii* Linden, in *Ann. Hort. Belge Étrangère* 15: 102 (1865), already exists (it is a synonym of *Cattleya wallisii* (Linden) Linden ex Rchb.f.,

Gard. Chron., n.s., 17: 557 (1882)), a replacement name is here provided in *Laelia*, with reference to the origin of the plant. ***Laelia colombiana*** J.M.H.Shaw, comb. et nom. nov. Replaced basionym: *Schomburgkia wallisii* Rchb.f. in *Linnaea* 41: 115–116 (1877).

A further new hybrid genus

The transfer of *x Sophronitella violacea* to *Isabelia* was overlooked during GO4 implementation. This requires one new hybrid genus: ***x Isadendrum*** [Isd.] = *Epidendrum* L. *x Isabelia* Barb.Rodr.

Replacement name for *x Singaporeara*

Singaporeara [Si.] was proposed for the intergeneric hybrid *Ascocentrum x Papilionanthe x Vanda* by L. Garay and H.R. Sweet in Withner, *The Orchids, Scientific Studies*: 542 (1974). According to ICBN Art. H6.3 this name is invalid since it is not based upon the name of a person. Consequently the following replacement name is provided: ***Ascovandanthe*** [Adv.] nothogen. nov. = *Ascocentrum* Schltr. ex J.J.Sm. *x Papilionanthe* Schltr. *x Vanda* Jones ex R.Br.

A question of orthography: *Cattleya trianae* or *trianaei*?

In *Orchids* (AOS) 77(2): 98 (Feb. 2008) the question of the orthography of *Cattleya trianae* / *trianaei* is mentioned yet again. Reference is made to Withner, *The Cattleyas* 1: 118 (1988) which claims, in part, support for the spelling *trianaei* from the Addendum to *Sander's List of Orchid Hybrids 1961–1970*. However, it should be noted that the Register of Orchid Hybrids no longer supports that view. In order to be valid the name must comply with the International Code of Botanical Nomenclature (ICBN), which contains specific directions on forming epithets from the name of Dr. José Jerónimo Triana (1834–1890). ICBN Art. 60.11 & Rec. 60C.1.(a). (2006) state that if the personal name ends with -a, adding -e (singular) or -um (plural) is appropriate, regardless of the gender of the person commemorated, "(e.g. *trianae*-e for Triana (m), *pojarkova*-e for Pojarkova (f), *orlovskaja*-e for Orlovskaja (f))." Consequently the spelling *trianae* has been used in the register.

Establishment of Cultivars and Groups

Dendrobium Kousai grex **Lanna Star Group**.

Registered and made by Dr. Nuttha Potapohn of the Dept. of Horticulture, Chiang Mai University, Thailand. Made 7 Jan 2003; f.fl. 6 Aug 2006. Derived from *Den. Ise 'Pearl'* *x Den. unicum*. Description: Flower colour varies from white to light orange with red veins on lip.

x Rhynchosoprocattleya [Blc.] Memoria Crispin Rosales grex **Delfin Dolly Bruce Group**.

Registered by G. Oliver-Prefasi, Puerto Rico. Made 12 April 1998; f. fl. March 2006. Derived from Sc. Bonanza 'Behold' *x* Rsc. Norman's Bay 'Victory'. Description: Inflorescence of 3 flowers with a natural spread of 10cm. Flower fragrant, substance soft, texture sparkling. Sepals and petals purple with brighter purple veins. Lip purple and yellow in centre, and dark purple at the bottom. Column white and purple.

List of hybrid genera available

A complete list of orchid hybrid genera with components as currently used in registration and reproduced in the newly published *Sander's List of Orchid Hybrids Addendum 2005–2007* (May 2008) is now available as a free downloadable document from RHS Online (http://www.rhs.org.uk/plants/registration_orchids.asp).

Scroll down the page to find the links:

- **Abbreviations for orchid genera** (http://www.rhs.org.uk/plants/plant_groups/orchidabbrev.pdf) – an alphabetical list of abbreviations for orchid genera, as used in *Sander's List* (Adobe Acrobat PDF 49KB).
- **List of genera with components** (http://www.rhs.org.uk/plants/plant_groups/orchidgenus.pdf) – this list includes the new hybrid genera used in registration following the classification proposed in *Genera Orchidacearum* volume 4 (2005). (Adobe Acrobat PDF 208KB).
