

### Foundation & Key Stage 1

## Leaf Bags

.....  
*Curricular Links: Science*

**How long will it take?**

30 minutes

### **What do we need to bring?**

Leaf bags made from the PDF template. Children can colour them before they are made up. Don't forget these can be composted or recycled afterwards if natural string is used.

### **How do we do it?**

Explore the woodland to find leaves that match the description on the bags.

### **Where can we do it?**

Anywhere in the garden, the woodland is the best place.

### **When can we do it?**

Any time of the year.

### **Remember...**

If it's on a plant, the plant still needs it!

### **Helpful Facts**

- Leaves can have waxy coats to help keep water in.
- Hairs help trap warm air around the leaf.
- Spiky leaves will help protect them from munchers!
