¹ ***Dendrobium Tuanku Fauziah*** is named in honour of Her Highness The Queen of Malaysia.

² ***Sarcochilus Goyju-Talawah*** grex epithet derived from the Aboriginal words *goyju* meaning greetings and *talawah* meaning rain forest.

A new feature introduced with this list is the appearance of a synonym or its abbreviation in square brackets after the name which has replaced it, e.g. [Clx.] for *Colax*, now replaced by *Pabstia*. This is to aid recognition of unfamiliar names, as it is appreciated that name changes are often unpopular, although necessary.

*New or new to registration, intergeneric hybrid genus with abbreviation (in square brackets after the genus name) for the following combinations. These new hybrid genera do not necessarily appear in the above list. The botanical authority follows each component genus.

Alantuckerara [Atc.] Ross Tucker, J.M.H.Shaw & Griffiths **nothogen. nov.** = *Promenaea* Lindl. x *Neogardneria* Schltr. ex Garay x *Zygopetalum* Hook. (br-gp 6), named for Alan Tucker of New Zealand, the father of Ross Tucker

Ascoparanthera [Apn.] J.M.H.Shaw **nothogen. nov.** = *Ascoglossum* Schltr. x *Paraphalaenopsis* A.D.Hawkes x *Renanthera* Lour. (br-gp 9);

Ascorhynopsis [Arp.] J.M.H.Shaw **nothogen. nov.** = *Ascocentrum* Schltr. ex J.J.Sm. x *Paraphalaenopsis* A.D.Hawkes x *Rhynchostylis* Bl. (br-gp 9);

Sweetara [Sw.] G.W.Dillon in *Am. Orch. Soc. Bull.* 38: 676 (1969) = *Paraphalaenopsis* A.D.Hawkes x *Rhynchostylis* Bl. x *Vanda* Jones ex R.Br. (br-gp 9);

Valinara [Val.] J.M.H.Shaw **nothogen. nov.** = *Aerides* Lour. x *Ascocentrum* Schltr. ex J.J.Sm. x *Paraphalaenopsis* A.D.Hawkes x *Rhynchostylis* Bl. x *Vanda* Jones ex R.Br. (br-gp 9) named for John Valin of EYOF;

Ypsilactyle [Ypt.] J.M.H.Shaw **nothogen. nov.** = *Tridactyle* Schltr. x *Ypsilopus* Summerh. (br-gp 9), reported as a natural hybrid in *Flora Zambesiaca* 11(2): 456 (1998).

€Natural genera new to registration: **Brachtia** [Bra.] Rchb.f. (br-gp 8); **Scelochilus** [Scel.] Klotzsch. (br-gp 8)

¶ Species appearing for the first time as parents in registration: **Brachtia andina** Rchb.f.; **Bulbophyllum falcatum** (Lindl.) Rchb.f.; **Bulb. purpureorachis** (De Wild.) Schltr.; **Bulb. tollenoniferum** J.J.Sm.; **Cischweinfia pusilla** (C.Schweinf.) Dressler & N.H. Williams; **Cymbidium tortisepalum** Fukuyama [previously included as *Cym. goeringii* var. *tortisepalum*, but accepted as distinct as it may represent the natural hybrid *Cym. goeringii* x *Cym. ensifolium*. It is also the only *Cym. goeringii* variety with a multiple flowered inflorescence.]; **Dracula berthae** Luer & R.Escobar; **Epidendrum pollardianum** Withner, syn: *Encyclia pollardiana* (Withner) Dressler & Pollard; **Gongora gratulabunda** Rchb.f.; **Gga. leucochila** Lem; **Gga. tracyana** Rolfe; **Gga. portentosa** Linden & Rchb.f.; **Luisia recurva** Seidenf.; **Poroglossum dalstroemii** Luer; **Scelochilus latipetalus** C.Schweinf.; **Stanhopea posadae** Jenny & Braem; **Stan. tricornis** Lindl.;

CORRECTIONS

Brassolaeliocattleya Rincón Melódico. This grex epithet appeared by error as Rincón Melódica in *Orch. Rev. Suppl.* 110(1246): 52 (July 2002).

Coryhoepa Off the Wall. This grex name replaces that previously registered for *Coryhoepa macrantha* x *Stanhopea wardii* as Butler's Balzak, at the request of the originator, Marilyn M. LeDoux.

Miltonia Taye Diggs. This grex name appeared in *Orch. Rev. Suppl.* 110(1246): 57 (July 2002), as Tave Diggs by error

Phalaenopsis Erika Liedtke appeared in *Orch. Rev. Suppl.* 110: 43 (May 2002) as Erika Lieoltke. Please correct this error.

REGISTRAR'S NOTES

***Colax* Lindl. (1843) replaced by *Pabstia* Garay**

Unfortunately the name *Colax* [Clx.] was used twice by John Lindley to refer to different genera of orchids. After the first use in 1825 became a synonym, he recycled the name in 1843 applying it to a group of plants related to *Zygopetalum*. This second usage is proscribed under the ICBN as an illegitimate homonym, hence Garay replaced it with *Pabstia* [Pab.] in 1973. The generic name *Pabstia* was not taken up by the then Registrar and has been neglected until a recent registration prompted a re-examination of the situation. Under the current policy of striving to bring nomenclature used in RHS registers in to line with the ICBN and ICNCP the generic name *Colax* has to be rejected in favour of *Pabstia*. However, this has the knock on effect of requiring changes of name for 16 hybrid genera. To avoid too many changes at once, which may have to be altered again after *Genera Orchidacearum*, the following three amendments have been effected for the present.

1. *Colax jugosus* Lindl. has been replaced by *Pabstia jugosa* (Lindl.) Garay as a grex parent in each occurrence.
 2. All 30 grexes registered under *Zygocolax* [Zcx.] Rolfe in *Gard. Chron.* ser.3, 1: 765 (1887) have been transferred to *Zygopabstia* [Zba.] Garay in *Bradea* 1(27): 308 (1973).
 3. The single grex in *Otocolax* [Otcx.] G.Black & M.Wreford in *Orch. Rev.* 78(927), New Orchid Hybrids [2, 3], (Sept. 1970) has been transferred to *Otopabstia* [Ot.] Garay in *Bradea* 1(27): 308 (1973) as *Ot.* Pat Duruty, 1970.
- The remaining nothogenera will be changed as need arises.

***Dendrobium* - species names reviewed.**

The registration database holds details on 265 species names in *Dendrobium* that have been used as grex parents. For the most part the synonymy given in Lavarack, Harris and Stocker (2000) *Dendrobium and its relatives*, Kangaroo Press, Australia, has been accepted, with the exception of genera such as *Dockrillia* which is retained within *Dendrobium* for the time being. The combination *Den. fuliginosum* (M.A.Clements & D.L.Jones) De Vogel & A.Schuiteman *ined.*, (basionym: *Dockrillia fuliginosa* M.A.Clements & D.L.Jones in *Lasianthera* 1(1): 13 (1996)), has been accepted for registration since validating publication is in preparation to appear in a future issue of *Blumea*. This will include the transfer of all the New Guinean *Dockrillia* and *Grastidium* taxa described by Clements and Jones to *Dendrobium*. The *Den. phalaenopsis* group remains to be investigated, and is not included in the list below. The following list gives the species synonyms as they affect the hybrid registration data base. Where a grex has become synonym as a result of a change in parental name, and is itself a grex parent, the grexes so affected have also had their parentage amended.

***Paphiopedilum platyphyllum* T.Yukawa - again.**

Following a reappraisal of the available information, initiated by Robert-Jan W. Quene of Orchids Limited, Phillip Cribb at the Kew Herbarium has agreed to the recognition of *Paph. platyphyllum* for registration. Therefore the note appearing in *Orch. Rev. Suppl.* 110: 64 (July 2002), should be disregarded. Robert's article on *Paph. platyphyllum* will be submitted to *Orchid Digest* in due course.

Paph. platyphyllum is known from a small population near the summit of Bukit Kana, an isolated mountain in the Third Division of Sarawak, whereas all collections of *Paph. stonei* are from the First Division. Geographical isolation along with differences in morphology and breeding behaviour have led to the conclusion that this taxon is worthy of recognition at specific rank. Consequently all the registrations of grexes with *Paph. platyphyllum* as a parent, that had been registered under *Paph. stonei* have been amended. A list is given below. The registrar apologises for the inconvenience and confusion so caused.

In order to avoid further name changes and confusion, please note that acceptance of the grex epithets listed below is final and will not be supplanted by re-applications for registration of the same grex parentage under a different name that may have been submitted and rejected in the past at an earlier date than that given below.

Paph. Hsingying Pariplaty (2001)
Paph. Lawless Platyvoo (2001)
Paph. Oso Stone (1993)
Paph. Taieri Pride (2001)
Paph. Yellow Tiger (1984)

Phalaenopsis Doris Thornton* transferred to *Phalphalaenopsis

Doris Thornton (1977) is currently the only known grex that represents a direct cross between a *Phalaenopsis* and a *Paraphalaenopsis* (Christenson, *Amer. Orch. Soc. Bull.* 64(10):1108, Oct. 1995). Acceptance of *Paraphalaenopsis* for registration requires the recognition of a new nothogenus, *Phalphalaenopsis* to accommodate this grex.

***Phalaenopsis Sunny* becomes a synonym of *Paraphalaenopsis x thortonii*.**

Because they represent co-extensive taxa, the grex name *Phal.* Sunny (1964) must be replaced with the name of the corresponding natural hybrid *Pps. thortonii* (Holttum) A.D.Hawkes.

Further changes in *Pleione*.

The name *Pln. pricei* has been replaced by *Pln. formosana*, which results in *Pln.* Ruth (31st Aug. 1979) becoming a synonym of *Pln.* Eiger (31st July 1979), and *Pln.* Yu Shan (21st Nov. 1983) becoming a synonym of *Pln.* Tolima (22nd Aug. 1979).

***Rodriguezia secunda* Kunth replaced by *Rdza. lanceolata* Ruíz & Pav.**

Some 40 registered grexes have been listed in Sander's with *Rdza. secunda* as a parent. As this name is a synonym of *Rdza. lanceolata* it has been replaced in the data base. See Brako, L. & Zarucchi, J.L. (1993) *Catalogue of the flowering plants and gymnosperms of Peru*. Monographs in Systematic Botany from the Missouri Botanical Garden 45: 850.

***Sarcochilus pallidus* Blume replaced by *Pteroceras pallidum* (Blume) Holttum.**

Recognition of the genus *Pteroceras* requires that the grex previously registered as *Sarcothera* Kona be transferred to *Renanthoceras* [Rena.], as *Sarcochilus pallidus* becomes *Pteroceras pallidum*. See Holttum, R.E. (1960) The genera *Sarcochilus* R.Br. and *Pteroceras* Hassk. (*Orchidaceae*) with notes on other genera which have been included in

Sarcochilus. *Kew Bulletin* 14: 263-276 (1960).

Julian M. H. Shaw, RHS International Orchid Registrar.
