Pop Barfield	<i>Odcdm. Big Mac x Oncda. Charlesworthii</i>	Okika

¹ *Paphiopedilum* Handbell accepted for registration 21st June 1978 but omitted from list by error.

² *Paphiopedilum* Hermans' Find (no date) and *Paph.* Past Century (29th Nov. 1907), are both previously un-named and unregistered grexes which are known only from paintings of awarded plants kept in the archives of the RHS Orchid Committee Room, Vincent Square. These painting are included on the new CD-ROM of RHS awarded orchids along with a database of awards details and references compiled by Johan and Clare Hermans. It was felt that these two grexes should be added to the orchid hybrid register for the sake of completeness, although no details are available and the registered names are of modern origin.

³ *Gastrophaius* Malala is the correct name for plants distributed from Hans Christiansen, Denmark under the name *Phaius* Queen Margrethe. See note below.

Natural genera new to registration.

Although not yet used as a grex parent the Registration Authority has been asked to provide an abbreviation for the monotypic genus *Haraella* Kudo (Hal.) which is endemic to Taiwan.

¶ Species appearing for the first time as parents in registration: *Cirrhopetalum pingtungensis* (Ying & Chen) Garay, Hamer & Siegerist [see note below]; *Cymbidium nanulum* Y.S. Wu & S.C. Chen; *Encyclia microbulbon* (Hooker) Schltr. (as *Epidendrum microbulbon* Hooker); *Laelia aurea* Navaro ex Halbinger & Salazar [already used as a grex parent but registered as *L. rubescens* 'Flava', see note below]; *Masdevallia titan* C. A. Luer.

Please note: In order to facilitate easier referencing of the New Orchid Hybrids list, the name has been changed to "Supplement of New Orchid Hybrids" and will be referred to as *Orch. Rev. Suppl.*, followed by the volume number, page number and date. Page numbers in the Supplement will now be consecutive with each issue for each year.

CORRECTIONS

Brassolaeliocattleya DiCiommo Regina Celia was erroneously entered as Diciommo Regina Celia in New Orchid Hybrids list with the *Orchid Review*, January-February 2002 p. 3.

Brassolaeliocattleya Gold Sprite was registered in 1969 (SLOH Addendum 1961 -1970 p. 44) with the seed parent as *Laelia flava* var. *gloedeniana* which is now accepted as a species for registration. Please change the seed parent to read *Laelia gloedeniana* Hoehne.

Doritaenopsis Fred's Redlip. Please note that there is an error in the parentage as listed in New Orchid Hybrids list with the *Orchid Review*, January-February 2002 p. 6. The pollen parent should read *Dtps.* Isle of Beauty, not Island of Beauty.

Laeliocattleya Loddscens (1979). In SLOH 1976-1980 Addendum p.217, the pollen parent is listed as *L. rubescens* 'Flava'. Please change this to read *L. aurea*.

Laeliocattleya Meadow Bright (1984). In SLOH 1981-1985 Addendum p.371, the pollen parent is listed as *L. rubescens* 'Flava'. Please change this to read *L. aurea*.

Odontioda J. Eversfield (1923) Please change the seed parent of this grex to read *Cda.* Noezl Volcano. See note below.

Paphiopedilum Lorrandra (1982), was originally registered (SLOH Addendum 1981-1985 p. 517) as *Paph.* Lorrandro in error.

Pescatorea Marv Ragan appeared in *Orch. Rev. Suppl.* 110: 24 (March 2002). Please correct the pollen parent to read *Pes. lehmannii*, and delete the symbol ¶. Also the inclusion of "*Pescatorea lehmannii* Rchb.f." as a species new to registration on p. 27 should be deleted.

Phalaenopsis DiCiommo Brazilian Primos was erroneously entered as Diciommo Brazilian Primos in New Orchid Hybrids list with the *Orchid Review*, January-February 2002 p. 8.

The Orchid Hybrid data base is searchable on-line at www.rhs.org.uk/research/registration_orchids.asp

REGISTRAR'S NOTES

Cirrhopetalum pingtungensis (Ying & Chen) Garay, Hamer & Siegerist .

Recently this taxon, endemic to Taiwan, has been registered as a grex parent for the first time and is illustrated in Siegerist, *Bulbophyllums and their allies* p. 178, pl. 58, (2001) as the clone 'Memoria Kokie Millard', which was the cultivar used to produce the cross. However in Huang, *Flora of Taiwan* (2nd ed.) 5: 776, colour photo. 90 (2001), it is treated as a synonym of *Bulbophyllum wightii* Reichb.f., (syn. *Cirrh. grandiflorum* Wight) which also occurs on Sri Lanka and is described and illustrated in Dassanayake & Fosberg, *A revised handbook to the Flora of Ceylon* 11: 105-107, fig. 49 (1981).

Cochlioda miniata Linden.

Following the review of *Cochlioda* by Christenson in *Orchids* (AOS) 71(2): 110-121 (Feb. 2002), the status of *Cda. miniata* has been changed from a natural hybrid to a species. This requires that the name of the artificial grex *Cda. noezliana* x *Cda. vulcanica*, which until now has been registered as *Cda. Miniata*, be changed as it becomes a homonym. Accordingly this grex is renamed *Cda. Noezl Volcano*.

Gastrophaius Malala is the correct name for plants distributed from Hans Christiansen, Denmark under the name *Phaius* Queen Margrethe. Following the award of a Certificate of Preliminary Recommendation to the clone 'Hans', (*Orch. Rev.* 109(1240): 196, 203 (2001)), investigations have revealed that the parentage was apparently not as originally registered. Therefore the grex name Queen Margrethe has been regarded as misapplied and the plants involved have been re-registered using the correct parentage by Johan Hermans. Please note that the grex name Queen Margrethe is available for use with plants of the cross *Phaius tankervilleae* x *Phaius schlechteri* (*Gastrochis schlechteri* H. Perrier). The name *Gastrochis pulcher* which appears in *Orch. Rev.* 109: 203 should be corrected to read *Gastrochis pulchra*. See Du Puy, Cribb, Bosser, Hermans & Hermans, *Orchid of Madagascar* p. 146 (1999).

***Laelia rubescens* 'Flava' replaced by *Laelia aurea*.**

For many years a yellow flowered *Laelia* from Mexico has been in cultivation in California as *L. rubescens* 'Flava'. It was described as a distinct species, *L. aurea*, by Halbinger & Salazar in *Orquídea (México)* 12(1): 41-46 (1990) and is now recognised as a grex parent. For illustrations and description see Halbinger, F. & Soto, M. (1997) *Laelias of Mexico* p. 76-81, published by Herbario AMO, as *Orquídea (México)* 15. Interestingly, the type collection *Hagsater 4050*, is mentioned as "a yellow-flowered form presumably of [*L. rubescens*]" by McVaugh in *Flora Novo-Galiciana* 16: 179 (1985). Carl Withner in his book *The Cattleyas and their relatives* vol. 2: The Laelias (1990), illustrates this taxon on p.120, 121 under the provisional name *L. rubescens* var. *aurea* ined. Two registered grexes appear to have been bred using *L. aurea* as a pollen parent; *Lc. Loddscens* (1979), and *Lc. Meadow Bright* (1984). Halbinger & Soto (p.80) report that an unregistered hybrid between *L. aurea* and *L. speciosa* has been raised by Río Verde Nursery, Temascaltepec, México. Sandro Cusi, the proprietor, reports that the cross was actually produced by Gerardo Salazar, who gave the seed to Río Verde. Señor Cusi intends to register this grex in due course.

Please note that *L. rubescens* 'Flava' (= *L. aurea*) should not be confused with *Laelia flava* Lindley from Brazil which is better regarded as a *Sophranitis*. The cultivar name 'Flava' is not acceptable under the ICNCP.

***Paphiopedilum x ang-thong* Fowlie and *Paph. Grayi*.**

Plants originally found on the Ang-thong Islands have a controversial history of identification, being variously ascribed to *Paph. godefroyae* or a natural hybrid *Paph. godefroyae* x *Paph. niveum*. Unfortunately, they have usually been entered in the orchid hybrid register as the artificial grex *Paph. Grayi*, which is inappropriate even if they are of hybrid derivation as they are of wild, not cultivated, origin. Until shown to be otherwise, plants known as *Paph. x ang-thong* will be accorded cultivar status in the register as *Paph. godefroyae* 'Ang-thong' rather than listed as *Paph. Grayi*, which apparently is not a nomenclatural or biological equivalent.

A search of all grexes registered with *Paph. Grayi* as a parent has revealed that the following grexes are derived from *Paph. godefroyae* 'Ang-thong'.

'Ang-thong' as a pollen parent.

Beau Geste (1986)
Caddiana Song (2002)
Green Tea Cream (1999)
Mike Roccaforte (1979)
Mount Tsukuba (1985)
Nimit (1995)
Oberhausen's Angel (1999)
Pink Powder Puff (1998)
Ruby Charles (1980)
Sally Berndt (1979)

'Ang-thong' as a seed parent.

Aiea Heights (1996)
Birth of Saya (2001)
Hiro Magic (2002)
New Pioneer (1998)
Nino (1978)
Snow White's Favorite (1994)
Toot's Gift (1996)

Further changes involving *Ludisia*

Following the acceptance of *Ludisia* A. Richard in preference to *Haemaria* Lindl. as announced in the November-December *Orchid Review* 2001, the following amendments which involve recognition of nothogenera previously published by Garay and Sweet in *Botanical Museum Leaflets (Harvard Univ.)* 21(6): 159, 167 (1966) have been made to the registration data base. The abbreviation for *Ludisia* is Lus.

Haemaria discolor (Ker-Gawl.) A. Richard becomes a synonym of *Ludisia discolor* (Ker-Gawl.) Lindl.

Anoectomaria Dominyi (1865) becomes a synonym of *Ludochilus Dominyi*.

Anoectomaria Veitchii (18??) was already listed as a synonym of *Macomaria Veitchii* (1862). In turn *Macomaria* (1887), (= *Haemaria* x *Macodes* (Blume) Lindl.) is replaced by *Macodisia* Garay & Sweet (1966), (Mcd.) = *Ludisia* x *Macodes*. Thus *Macomaria Veitchii* becomes a synonym of *Macodisia Veitchii*.

Dosinimaria Dominyi (1861) becomes a synonym of *Dossisia Dominyi*. The genus *Dosinimaria* (1887), (Dsma.) = *Dossinia* C. Morren x *Haemaria*, is replaced by *Dossisia* Garay & Sweet (1966), (Dsi.) = *Dossinia* x *Ludisia*.

Hybrids originated by Charles Maron (1852-1926)

Pierre Jacquet has published a list of all the orchid hybrids recorded in the literature that were originated by Charles Maron at his nursery in France. He lists 235 names with parentage in *L'Orchidophile* no. 149: 233-240 (Dec. 2001). With hybrid names from this period it is not always apparent whether they refer to grexes or cultivars (clones), nevertheless they have been added to the orchid grex database for the sake of completeness. The list enumerates some names which are new to registration although these are mostly synonyms of existing registered grexes, as well as providing details of parentage for some which were previously known as names only.

Julian M. H. Shaw, RHS International Orchid Registrar
