\* New hybrid genera (with abbreviation in brackets):

**x *Bleitzara*** [*Btz*.] M.Bleitz = *Galeottia* Lour. x *Pabstia* Garay x *Zygosepalum* Rchb.f.

**x *Caulaeliokeria*** [*Clk*.] P.Storm = *Barkeria* Knowles & Westc. x *Caularthron* Raf. x *Laelia* Lindl.

**x *Maxillyca*** [*Mxy*.] J.M.H.Shaw = *Maxillaria* Ruiz & Pav. x *Mormolyca* Fenzl.

**x *Paradisania*** [*Pds*.] G.Schmidt & J.M.H.Shaw = *Aganisia* Lindl. x *Paradisanthus* Rchb.f.

**x *Stormara*** [*Strm*.] P.Storm = *Cattleya* Lindl. x *Guarianthe* Dressler & Higgins x *Myrmecophila* Rolfe x *Rhynchoaelia* Schltr.

New or little-known genera in the register:

*Paradisanthus* [*Pdsnth*.]

New botanical authors for IPNI:

M.Bleitz = Michael Bleitz, Hawaii

P.Storm = Paul Storm, Florida, USA.

#### ¶ Species new to registration

*Dendrobium hamiferum* P.Cribb;

*Oncidium tigroides* (C.Schweinf.) M.W.Chase & N.H.Williams, (syns. *Odontoglossum tigroides* C.Schweinf.);

*Solenidiopsis tigroides* (C.Schweinf.) Senghas);

*Polystachya galeata* (Sw.) Rchb.f.;

*Sarcoglottis portillae* Christenson;

*Sarcoglottis sceptrodes* (Rchb.f.) Schltr.

#### REGISTRAR'S NOTES

##### Corrections to registrations

x *Doritaenopsis* Giannijessica Baby appeared in *Orch. Rev. Suppl.* 118(1289): 10 (March 2010) with the seed parent as *Phal*.

Brother Lawrence; this should be corrected to *Phal*. Lawrence of Arabia

##### Corrections

It has been shown that the plant used in orchid breeding under the name *Oncidium ornithorhynchum* was an undescribed species that has now been named *Oncidium sotoanum* R.Jiménez & Hágsater. Accordingly, the register has been amended so that the name *Oncidium sotoanum* is now used in place of *Oncidium ornithorhynchum*. See Jiménez Machorro, R & Hágsater, E 2010.

*Oncidium ornithorhynchum*, una especie mal interpretada y un nombre para una vieja especie: *Oncidium sotoanum* (*Orchidaceae*). *Lankesteriana* 9(3):411–422.

Following the realisation that *Benzingia* as originally published was invalid, it has been validated in *Lankesteriana* 9(3): 527 (Jan 2010). However, this requires that the nothogenera and their combinations based on *Benzingia* also be validated. They are validated below:

*Benzingia* Dodson, *Lankesteriana* 9(3): 527 (Jan 2010) [*Icon. Pl. Trop.*, II, 5: t. 406 (1989), nom. inval.].

**x *Bensteinia*** [*Bns*.] Christenson, nothogen. nov. = *Benzingia* Dodson x *Kefersteinia* Rchb.f. [in *Richardiana* 6(3): 137 (30 June 2006), nom. inval.].

**x *Bensteinia dodsonii*** (Neudecker) Christenson, comb. nov. Basionym: x *Ackersteinia dodsonii* Neudecker, *Orquideologia* 19: 26 (1994). [in *Richardiana* 6: 137 (2006), comb. inval.].

**'x *Bensteinia ramonensis*** Pupulin, nothosp. nov. Herba epiphytica caule abbreviato foliis conduplicatis petiolatis anguste elliptico-oblongatis acuminatis ad 15 cm longis, floribus intermediis inter Kefersteiniam excentricam Dressler et Mora-Ret., et Benzingiam reichenbachianum (Schltr.) Dressler, sepalis lateralibus patentibus, labello excentrico albo maculis purpureis notato, columnae facie abaxialis carina humilis instructa, pollinarium stipite lanceolato-elliptico abbreviato viscidoque subquadrato parvo munito (atque K. excentricam), floris amplitudine, labello integro, callo humili labelli pars media attingens, columna elongata (atque B. reichenbachianum). Typus: Costa Rica, D. Bogarin 1923 (holotypus, CR-Spirit). [in *Selbyana* 28: 113 (2007, publ. 2008), nom. inval.].

**x *Goldnerara*** [*Gld*.] J.A.Dunkelberger, nothogen. nov. = *Benzingia* Dodson x *Cochleanthes* Raf. x *Kefersteinia* Rchb.f. [in *Orch. Rev. Suppl.* 117(1285): 20 (Mar. 2009), nom. inval.].

***Mormolyca vanillosma*** (Christenson) J.M.H. Shaw comb. nov. Basionym: *Maxillaria vanillosma* Christenson, *Richardiana* 10(2): 95 (Mar 2010).

#### GENUS ABBREVIATIONS AND LIST OF HYBRID GENERA AVAILABLE

A list of abbreviations for orchid genera and a list of orchid hybrid genera with components (as currently used in registration\*) are now available as free downloadable documents from RHS Online, as are the quarterly supplements of new orchid hybrids; visit: [www.rhs.org.uk/Plants/Plant-science/Plant-registration/Orchids](http://www.rhs.org.uk/Plants/Plant-science/Plant-registration/Orchids)

Scroll down the page to find the links:

• **Abbreviations for orchid genera**

[www.rhs.org.uk/Plants/Plant-science/Plant-registration-forms/orchidabbrev](http://www.rhs.org.uk/Plants/Plant-science/Plant-registration-forms/orchidabbrev)

– an alphabetical list of abbreviations for orchid genera, as used in *Sander's List* (Adobe Acrobat PDF 52kB).

• **List of genera with components**

[www.rhs.org.uk/Plants/Plant-science/Plant-registration-forms/orchidgenus](http://www.rhs.org.uk/Plants/Plant-science/Plant-registration-forms/orchidgenus)

– this list includes the new hybrid genera used in registration following the classification proposed in *Genera Orchidacearum* volume 4 (2005). (Adobe Acrobat PDF 208kB).

• **Orchid hybrid lists**

[www.rhs.org.uk/Plants/RHS-Publications/Orchid-hybrid-lists](http://www.rhs.org.uk/Plants/RHS-Publications/Orchid-hybrid-lists)

– a list of supplements available as PDFs to download.

\* As in the current *Sander's List of Orchid Hybrids Addendum 2005–2007* (published May 2008).

#### REGISTERING OF NEW ORCHID HYBRIDS AND SEARCHING THE ONLINE REGISTER

The Registration application form may be downloaded for use, and the Register may be searched online at:

[www.rhs.org.uk/Plants/Plant-science/Plant-registration/Orchids](http://www.rhs.org.uk/Plants/Plant-science/Plant-registration/Orchids)

A Japanese-language version of the application form is available at:

[www.rhs.org.uk/Plants/Plant-science/Plant-registration-forms/orchidform\\_japan](http://www.rhs.org.uk/Plants/Plant-science/Plant-registration-forms/orchidform_japan)

• PLEASE NOTE THE FOLLOWING CHANGES TO REGISTRATION:

• Postal address is now:

International Orchid Registration, 83 Victoria Road, Selston, Nottinghamshire, NG16 6AR, UK.

Tel. +44(0) 1773 511814.

Fax and e-mail are unchanged: fax: +44(0) 115 876 7963. Email: [orcreg@rhs.org.uk](mailto:orcreg@rhs.org.uk)

• From 1 January 2010 the fee has increased to £10.00 (US\$16.50) per registration.

Due to the bank changes for a dollar cheque now exceeding the registration fee, the RHS can no longer accept dollar cheques for single applications. Please use a credit card where possible or send a single cheque for several applications together.

© Copyright reserved by the Royal Horticultural Society 2010 as the International Cultivar Registration Authority for Orchid Hybrids. General permission to publish reprints of this list is limited to the reproduction of the entire list as printed, including all corrigenda, footnotes and notices, if any, with citation of source and date. It excludes published collation or integration of one issue's part or part thereof with another except by express permission from the Authority. The Authority accepts no responsibility for the accuracy of any reprints.

# NEWSLETTER

OF THE ADVISORY SUB-COMMITTEE ON ORCHID HYBRID REGISTRATION (ASCOHR)  
No.1, JUNE 2010

## ASCOHR – why and who?

The purpose of this sub-committee is to advise the Royal Horticultural Society in matters relating to orchid nomenclature and taxonomy and their application to the International Register of Orchid Hybrids (Sander's List), for which the RHS is the International Cultivar Registration Authority (ICRA) appointed by the International Society for Horticultural Science (ISHS). The sub-committee reports to ACONAT (Advisory Committee on Nomenclature and Taxonomy). ACONAT advises the RHS on all aspects of plant nomenclature and taxonomy, particularly the names used in *The Plant Finder*, an annual index of plants available through horticulture in the UK, which has come to be regarded as setting the standard for horticultural plant names.

The membership of ASCOHR is drawn from around the globe from RHS members, botanists, professional growers and hobbyists with a particular interest in orchids. The sub-committee meets twice yearly in London, UK, usually in May during the RHS Chelsea Flower Show week and in the late autumn.

Currently the members are :

Mr Johan Hermans, UK (Chairman),

Prof Mark Chase, UK (Vice Chairman),

Mr Ian Chalmers, Australia;

Dr Phillip Cribb, UK;

Mr Munekazu Ejiri, Japan (JOGA);

Dr John Elliott, Singapore (OSSEA);

Mr Peter Furniss, USA;

Dr Robert Griesbach, USA;

Mr Peter Hunt, UK;

Mrs Liz Johnson, UK (McBean's Orchids);

Dr Ron McHatton, USA (AOS);

Mr Chris Purver, Jersey (Eric Young Orchid Foundation);

Mr Frank Röhlke, Germany (Roellkeorchideenzucht);

Mrs Joyce Stewart, UK (WOC Trust).

Dr Janet Cubey, UK, Chairman of the Commission for Nomenclature and Cultivar Registration of the International Society for Horticultural Science (ISHS), Secretary to the Editorial Committee for the *International Code of Nomenclature for Cultivated Plants* (ICNCP), and the RHS Chief Horticultural Data Development Manager, who has oversight of all RHS ICRA registers and horticultural databases, also attends the meetings. Other RHS staff attending are Richard Sanford as the meticulous minute secretary, and the International Orchid Hybrid Registrar.

## Registration fee increase

From 1 January 2010 the registration fee increased to £10.00 per application. This is the first price increase for 20 years, necessitated by the economic downturn and rising costs. The RHS subsidises plant-name registration as part of its charitable purpose. However, there is a limit to the extent that it can subsidise any one item when it is such a large organisation with diverse interests in the world of horticulture. Those involved in financial planning and budgeting have set a target of a 75% cost recovery rate for orchid registration and the price increase is a step towards that goal. It is likely there will be a further modest fee increase in 2011.

The dollar equivalent price is reviewed annually based on the average daily exchange rate over the previous six months. It is currently set at \$16.50 per application.

• **Dollar payments:** Due to increasing bank charges the cost to the RHS to cash a US dollar cheque now well exceeds the value of a single registration fee. Consequently, the RHS is unable to accept dollar cheques for single applications. Payment of the fee by credit card is the preferred form of remittance. It also avoids the need to issue credit notes.

Later in 2010 the RHS is switching to an improved, more secure software system for processing credit-card payments to meet new UK Government financial-industry standards. This means that cards will be charged the same day that the registration is made, rather than at the end of the calendar month as at present.

## Generic boundaries in the *Oncidiinae*

With the publication last autumn of *Genera Orchidacearum* volume 5, the May 2010 meeting of ACOHR will be the time to review the changes in generic boundaries and make a decision on their implementation in the Register. A short summary of the anticipated changes is provided below.

*Ada* includes *Brassiopsis* and *Brassia glumacea*.

*Baptistonia* included in *Gomesa*.

*Caucaea* expanded to include some *Oncidium*.

*Cischweinfia* retained.

*Cochlioda* included in *Oncidium*.

*Comparettia* retained.

*Cuilauzina*, including *Osmoglossum*, removed from *Odontoglossum*.

*Cyrtochilum* expanded by transfer from *Odontoglossum* subgenus *Serratolaminata*, and subgenus *Unguisepala*.

*Erycina*: include *Psygmorchis*.

*Gomesa*: expanded to include *Baptistonia*, *Binotia*, *Rodrigueziella*, *Rodrigueziopsis* and many Brazilian *Oncidium* species.

*Hofmeisterella* retained.

*Ida* replaced by *Sudamerlycaste*. Final transfers made by Archila M., F. 2009. *Sudamerlycaste* Archila, Addendum et corrigendum, 3. *Richardiana* 10(1):21–28.

*Ionopsis* retained.

*Leochilus* retained.

*Macradenia* retained.

*Maxillaria* splits into *Maxillaria sensu stricto*, *Brasiliorchis*, *Camaridium*, *Christensonella*, *Inti*, *Mapinguari*, *Maxillariella*, *Nitidobulbon*, *Ornithidium*, *Rhetinanthe*.

*Miltonia*: include *Phymatochilum*, exclude *Miltoniopsis*.

*Miltoniopsis*: separated from *Miltonia*.

*Odontoglossum*: no longer used, genus split between *Cuilauzinia*, *Cyrtochilum*, *Oncidium*, *Rhynchostele*, *Rossioglossum*.

*Oncidium* expanded to include most of *Odontoglossum*, *Sigmatostalix*, *Symphyglossum*, *Mexicoa*, *Miltonioides*, *Collare-stuartense*.

*Otoglossum*: include *Onc. globuliferum*, *Onc. arminii* etc.

*Psychopsis*: include *Psychopsiella*, and transfers from *Oncidium*.

*Rhynchostele*: include *Amparoa*, *Cymbiglossum*, *Lemboglossum*, *Mesoglossum*.

*Rodriguezia* retained.

*Rossioglossum*: include *Ticoglossum*, *Chelyorchis*.

*Tolumnia* transfers from *Oncidium*.

*Trichocentrum* transfers from *Oncidium*.

*Trichopilia* retained.

*Vitekorchis*: include *Onc. excavatum*.

*Zelenkoa*: transfer from *Oncidium*.

## Significant developments in the history of orchid hybrids and their registration

To mark the 50th anniversary in 2010 of the RHS operation of the register of orchid hybrids, the following list of noteworthy events is included. A short history of orchid registration was published in *Orchids* (American Orchid Society Magazine) 71(6): 540–543 (June 2002) and in *The Orchid Review* 118 (1290): 80–87 (June 2010).

### 1847

William Herbert reported that he obtained pods from his cross-pollination of *Orchis* x *Ophrys*, but failed to collect and sow the seeds as he was away (*Journ. Hort. Soc.* 2: 104).

### 1853

John Dominy, who worked for James Veitch, began to artificially cross-pollinate orchids, deliberately attempting to produce new hybrids.

### 28 Oct 1856

James Veitch showed hybrid *Calanthe* flower to John Lindley (*Gard. Chron.* 1858: 4).

### Aug 1859

Five *Cattleya* hybrid plants exhibited at Horticultural Society meeting.

### Dec 1859

First Class Certificate awarded by Horticultural Society for *Cattleya* x *Veitchii*.

### 24 Aug 1865

First recorded flowering of an orchid hybrid in France, *Cattleya* Auguste Rivière (*J. Soc. Imp. Cent. Hort.* 12: 268–291, May 1866).

### 1871

First known list of orchid hybrids published by F.W. Burbidge (1847–1905) listing 17 hybrids. From 1871 onwards, *Gardeners' Chronicle* begins to list all new orchid hybrids.

### 1872

Maxwell T. Masters (then editor of *Gardeners' Chronicle*) introduced first hybrid formula name for bigeneric hybrid (x *Phalageria* for *Lapageria* x *Philesia*, a non-orchid). This was taken up by E.F. André in 1875, and is now the standard method for forming botanical hybrid generic names.

### 1891

Kew botanist Robert Rolfe began to publish *The Orchid Review*, and commenced listing new orchid hybrids with the first issue.

### 1897

x *Sophrolaeliocattleya* named, the first trigenic hybrid formula name in orchids.

### 1906

First Sander's list of orchid hybrids appeared. (Sander's had been publishing Orchid Guides for some time. These gradually contained more and more hybrids, until the 1906 list.)

### 1910

E.A. Bowles proposed use of *-ara* suffix for quadrigeneric names. (It was officially adopted into the *International Code of Botanical Nomenclature* in 1950; for example, x *Potinara* instead of x *Brassolaeliocattlionitis*.)

### 1911

Rolfe & Hurst's *The Orchid Stud-Book* appeared. It listed all known orchid hybrids to 1907.

### 1946

"Complete" list published by Frederick Sander. (He was actually somewhat selective and declined to include a number of foreign hybrids, particularly from Germany.)

### 1953

First *International Code of Nomenclature for Cultivated Plants*, by W.T. Stearn, published. The term 'grex' was introduced.

### 1957

Sander's introduced an application form and a registration fee of 5 shillings (25p)

### 1960

Two-volume list of hybrids issued by David Sander who estimated it took him and his assistant Marjorie Wreford 50,000 hours from 1952 to compile.

### 1960

RHS hosted 3rd World Orchid Conference in London. Negotiations then resulted in transfer of orchid list compilation to the RHS, which also took on Marjorie Wreford as staff.

### 1961

RHS commenced orchid registration work. ORAC (Orchid Registration Advisory Committee) formed – now called ASCOHR (Advisory Sub-Committee on Orchid Hybrid Registration).

### 1969

With Marjorie Wreford's health failing, RHS took on Doreen Hunt temporarily to compile register.

### 1970

Marjorie Wreford retired. RHS employed Jack Greatwood as registrar.

### Feb 1990

Greatwood retired. Doreen Hunt took over as registrar, inheriting a backlog of about six months' applications. Computerisation of register commenced.

### 31 Mar 1992

Peter Hunt took early retirement and joined Doreen as list compiler.

### 7 Nov 1992

Backlog of registrations cleared. Computerisation completed.

### Jan/Feb 2001

Peter and Doreen Hunt retired. Present registrar and assistant took up posts.

### Oct 2009

Eighth edition of *International Code of Nomenclature for Cultivated Plants* published, introducing new taxonomic rank for grex, formally providing for naming of Groups within a grex.

### 2010

Fiftieth Anniversary of RHS operation of International Register of Orchid Hybrids.

## The register on RHS Online ([www.rhs.org.uk](http://www.rhs.org.uk))

The register may be searched online at

<http://apps.rhs.org.uk/horticulturaldatabase/orchidregister/orchidregister.asp>

Additional new information on registering orchid hybrids, and the rules governing grex names can now be found at <http://www.rhs.org.uk/Plants/Plant-science/Plant-registration/Orchids>

Application forms can be downloaded from this site in English, Japanese and Portuguese.

During the last year there have been some adjustments to the data displayed on the online version of the register. A generic synonym is now displayed, so that hybrids previously listed as, for example, *x Brassolaeliocattleya* show this name as a synonym under the current generic placement, usually *x Rhyncholaeliocattleya*. There is also an indication if a grex name is accepted or regarded as a synonym. This is particularly useful in situations where there has been a duplicate registration, or in the past several names have been used for the same hybrid. Also, the name of the registrant or originator is now shown in full, rather than an abbreviated form. Natural hybrid names are also indicated as such. It should be noted that the hybrid register is not designed to provide information on species names. Consequently, entering a species name in the grex name search will result in an erroneous message that it is a natural hybrid. Information on species names should be sought from the International Plant Names Index (IPNI) [www.ipni.org](http://www.ipni.org) or the Kew World Monocots checklist <http://apps.kew.org/wcsp/home.do>

One of the problems with the implementation of new generic boundaries is the creation of numerous homonyms, that is, cases where the same name is used for several different hybrids. As these come to light the year of registration or publication is added after the grex epithet in parentheses to help distinguish them. In cases where homonyms have the same date they are numbered (1), (2) etc.

It is planned to make more data and new searches available, hopefully by the end of 2011, pending continued software development. This is expected to include the notes field, which contains literature references and information on the grex name. A further much-needed innovation will be to make the register searchable by synonyms. This will enable users to search for a hybrid by its old name such as *x Sophrolaeliocattleya*, *x Brassolaeliocattleya* or the soon-to-disappear favourite *Odontoglossum*. This search facility will have the obvious advantage of enabling names in older literature to be found easily, and will avoid using the new names for anyone who prefers traditional nomenclature, or may have doubts about molecular taxonomy and cladistics.

Any queries and comments should be directed to [orcereg@rhs.org.uk](mailto:orcereg@rhs.org.uk)
