## REGISTRAR'S NOTES ON NAMES IN THIS SUPPLEMENT

<sup>1</sup> *Catasetum* sp. *Misericordia*. This new undescribed taxon was found in the Pacaas Novos reserve, an area of Rondônia state, Brazil, bordering Bolivia. See *Orchid Review* 128(1330): 74 (June 2020).

<sup>2</sup> Listed on application as *Oncidesa* 'Honey Angel', also known as *Onc.* 'Honey Dollp' which is an anthocyanin-deficient somatoclone of *Oncsa*. Gower Ramsey grex.

<sup>3</sup> *Dendrobium* Oliver-Jack Freckles. In *The Orchadian* 19(12): 568 (June 2020), Callyn Farrell of Down Under Australian Orchids (DUNO) notes:

"*Dendrobium* Oliver Jack (*Den.* Jiggi x *Den.* *striolatum*) was registered on 16 Jan 2004 by DUNO and seedlings sold under that name. However, one of the parents of the *Den.* Jiggi (which is *Den.* *schoeninum* x *Den.* *teretifolium*) used by DUNO was incorrectly identified. *Den.* *teretifolium* 'Black Pam' was subsequently identified as *Den.* *fuliginosum*. Therefore, the parent *Den.* Jiggi was actually *Den.* Australian Freckles (*Den.* *schoeninum* x *Den.* *fuliginosum*).

"A new hybrid *Den.* Oliver-Jack (note the hyphen) with parentage *Den.* Australian Freckles x *Den.* *striolatum* was therefore registered with the RHS on 15 Apr 2020. This registration was made as it caused the least amount of disruption to orchid growers internationally, as *Den.* Oliver-Jack [*i.e.* Oliver-Jack Freckles] 'Gerard' FCC/AOC is one of the most sought-after and grown section *Rhizobium* hybrids."

Firstly, it should be noted that the above represents a personal initiative by the author of the note and was enacted without consulting the RHS registrar. Unfortunately, this action runs contrary to the ICNCP.

The epithets Oliver Jack and Oliver-Jack differ only by addition or omission of a hyphen. Because this will inevitably lead to confusion at some point ICNCP Art.21.23 prohibits establishment of a confusingly similar epithet, hence the publication of the name in *The Orchadian* note quoted above is invalid. Therefore, to permit nomenclatural establishment the proposed epithet has been modified to Oliver-Jack Freckles, and its establishment dates from the publication of this supplement rather than the June issue of *The Orchadian*.

For reference, our preferred solution in the case of a mistaken parentage is to correct the parentage of the original registration rather than register a new hybrid. This is in accordance with the provisions of ICNCP Art. 4.4. A new registration would only become necessary if it was known for a certainty that both parentages had been used to create two different hybrids.

<sup>4</sup> *Dendrobium* Memoria Leticia Martin and *Den.* Erlinda Gamueda. These two registrations provide replacement names for two withdrawn entries, Saigon Zodiac and Saigon Uranus respectively, following the originator of the hybrids exercising his rights under ICNCP Art. 31.4.
