

The RHS Lunchbox Challenge

We encourage schools to bring a healthy packed lunch that results in little or no landfill waste and ask that **any snack and lunch rubbish be taken away with you**. Storage for lunchboxes is provided.

Encourage waste free lunches by cutting down on food packaging, single use and disposable items, and so on.

You can make a difference by...

- **Avoiding** packaging that **can't be recycled**.
 - Carrying your lunch in a **reusable bag**.
 - Using a **biodegradable or reusable wrap** for sandwiches/ fruit etc.
 - Bringing drinks in **reusable non-glass containers**.
- 

During the visit to Hyde Hall we discuss with the children **how many plants they have in their lunchbox?** Encourage them to consider this on their way here!
