

RHS GARDEN ROSEMOOR

Self Guided Activity Ideas for Schools

Key Stage 1

COLOUR CRAZY

How long will it take?

30 minutes to 1 hour

What do we need to bring?

Card, double sided sticky tape and colour chart from DIY store.

How do we do it?

Put one strip of double sided sticky tape on the card and next to this the colours you want the children to collect.

The children need to match colours they can find with the colour chart. Challenge them with different shades of the same colour.

Discuss with children about caring for plants and what they can pick up during their scavenger hunt.

Please pick only things on the floor which are NOT growing.

Where can we do it?

All round the garden.

When can we do it?

All year round though spring and summer months will have more variety.

Follow up ideas at School

- Get children to mix different shades of green using paint.
- Give names to their shades and tints like colour charts.
- Discuss how the seasons might effect colour and what they can find.
- Paint a garden picture using the colours they found in the garden.
