

# Thundridge Primary School

## *Sharing positivity through plants*

---

Thundridge Primary School have been spreading the power of plants across their neighbourhood. Pupils have sown seeds and hidden the seedlings around their local area to be discovered by members of their community.

‘Each seedling was given a number and accompanied by a poem, as well as a drawing, joke or positive message. When found we could then share the positive impression it had made on someone’s day with the children and school.’

**Sallie Walker,**  
***School Gardening Lead***

‘Just to let you know we were lucky enough to find plant 26! We are new to gardening. Thank you very much, you really made our day.’

**Seedling recipient**
