The International
Daffodil Register
& Classified List
(2008)

Nineteenth Supplement

NINETEENTH SUPPLEMENT (2025–2026) to the INTERNATIONAL DAFFODIL REGISTER AND CLASSIFIED LIST (2008)

The daffodil names listed here are supplementary to the *International Daffodil Register* (2008) and were registered between **1st July 2025 and 30th June 2026**.

Registrations are followed by a list of some other recent additions and amendments to the Register & Supplements.

REGISTRATION

Hybridisers, raisers and other introducers of daffodils are urged to ensure that the names of new plants are registered and are reminded that registration should preferably take place before plants are released or catalogued. Registration is conducted by The Royal Horticultural Society, International Cultivar Registration Authority for the genus *Narcissus*. Application forms are available from:

- The International Daffodil Registrar: Melanie Underwood
RHS Wisley, Woking, Surrey GU23 6QB, UK
Email [**daffodil@rhs.org.uk**](mailto:daffodil@rhs.org.uk)
- The National Daffodil Registrar (the Netherlands): Saskia Bodegom
KAVB, Postbus 175, 2180 AD Hillegom, the Netherlands
Fax (31) 2525 369 51
Email [**bodegom@kavb.nl**](mailto:bodegom@kavb.nl)
- The National Daffodil Registrar (USA): Nancy Tackett
Email [**nancy@tackettblade.com**](mailto:nancy@tackettblade.com)
- The National Daffodil Registrar (Australia): Graeme Davis
Email [**graemecdavis@hotmail.com**](mailto:graemecdavis@hotmail.com)

Once registered, names and classifications may be changed only with the agreement of the International Cultivar Registration Authority, upon application to the International Registrar.

NOTES ON CLASSIFICATION AND DESCRIPTION

Note 1 – on classification

The combination of division and colour code assigned here (or as amended in any future Supplement) is the registered classification, to be observed, for example, when schedules require cultivars to be shown “as registered”. The registered classification is not altered by any note of variable measurement or colour.

Note 2 – on colour coding

Guidelines on colour coding, including those on distinguishing between Yellow and Orange and between Orange and Red, appear in the Register and on registration forms. It is at the registrant’s discretion to distinguish White from Yellow or Green, Yellow from Green, or Pink from the paler tones of Orange or Red.

In addition:

- Green at corona base
The green at the base of a corona, whether in the tube or in the corona itself, may be included in the colour code if it is prominent and plain to see. Registrants are advised to include it only if it is consistent from year to year.
- Non-concentric colours
When coding colours in perianth or corona that appear in radial rather than concentric bands, or in a flare from the base, or in flecks or splashes: start with a letter for the predominant colour; proceed with an oblique line; follow with the letter(s) (in any order) for the non-predominant colour(s).

For example, a yellow flower with a white streak along the midrib of the perianth segments would be Y/W-Y; a white flower with radial bands of orange and yellow on the corona segments would be W-W/OY.

Note 3 – on colour terms

Colour Chart numbers in registered descriptions, e.g. 13A in ‘Alicat’ are from the RHS Colour Chart (1966, 1986, 1995, 2001, 2007, 2015). Colour names followed by Chart numbers without brackets are equivalents adopted by the RHS for all its international registers. They are taken from the Universal Colour Language in the Inter-Society Color Council-National Bureau of Standards colour-name system. Colour names followed by Chart numbers with brackets or by no numbers at all are those supplied by the registrant.

Note 4 – on description

Registered descriptions are drawn up from application forms and, whenever possible, from photographs and specimens. The Registrar would welcome readers’ comments on the accuracy of all descriptions. Illustrations of descriptive terms appear on page 30.

Note 5 – on height

Stem heights in registered descriptions may be taken to be Standard (325–675mm) unless otherwise stated, when they will be described as Dwarf (less than 325mm) or Tall (more than 675mm).

Note 6 – on Nomenclatural Standards

The Standard noted at the end of some descriptions is the designated herbarium specimen or illustration forming a permanent record of the distinguishing characteristics of the cultivar and fixing the cultivar name. These are maintained at the RHS Herbarium, Wisley.

Note 7 – on unregistered names

Names listed as ‘unregistered’ are those post-1955 that have not been accepted by the RHS or have not yet been submitted for registration. They are included as part of the Check List and they gain no registered status by being listed. They are included in order to prevent confusion between daffodils of the same name and to help prevent further duplication.

REGISTRATIONS 2025–2026

The following cultivar names were registered between **1st July 2025 and 30th June 2026** by The Royal Horticultural Society, International Cultivar Registration Authority for the genus *Narcissus*. Entries follow the style of those in the *International Daffodil Register and Classified List (2008)* and may be interpreted accordingly (see p10 in the Register).

The seed parent is given before the pollen parent.

‘Alicat’ 12 Y-Y

(Mrs Anne Wright, 2023) Mrs Anne Wright, 2026
N. cuatrecasii × *N. albimarginatus*; sdlg no. 4966-A-1
Fls 1–2 per stem, forming a double triangle, 30mm wide, facing slightly upwards, yellow 13A; perianth segments 7mm long, obovate, rounded, mucronate, reflexed, plane, with margins slightly incurved, with midrib showing, of heavy substance, overlapping half; the inner segments narrower; corona 6mm long, cup-shaped, smooth, mouth straight and even, with rim entire. Dwarf. Early. Sunproof. Richly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0160395)

‘Anthony Harney’ w2 Y-O

(Brian S. Duncan, 2015) RHSL, 2025
‘All Rounder’ × ‘Bouzouki’; sdlg no. 4675
Fl. rounded, 98mm wide; perianth segments 38mm long, roundish, very broad, truncate, mucronate, deep golden yellow, a little reflexed, plane or with margins narrowly incurved, smooth and of heavy substance, overlapping more than half; the inner segments narrower, more nearly spreading, blunt; corona 15mm long, cup-shaped, smooth, deep orange, mouth expanded and even, with rim narrowly flanged and crenate. Mid-season. Sunproof. Nomenclatural Standard: colour print supplied by registrant (WSY0160121)
Etymology: named in honour of Anthony Harney, gardener at Russborough House for over 40 years

‘Artist’s Palette’ 8 W-W

Sara L.van Beck, 2026
Parentage unknown
Fls c.12 per stem, forming a double triangle, 38mm wide; perianth segments ovate, blunt, mucronate, spreading, plane, midrib showing, of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 4mm long, bowl-shaped, ribbed, mouth expanded and wavy, with rim entire. Tall. Very early.
Nomenclatural Standard: colour print supplied by registrant (WSY0160351)

‘Arundel Castle’ 2 W-YYP

(Brian S.Duncan, 2017) Martin Duncan, 2025
‘Alto’ × ‘Extempore’; sdlg no. 4932
Fl. forming a double triangle, 100mm wide; perianth segments 36mm long, roundish, very broad, slightly mucronate, white, with a slight pink flush, spreading, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower,

shouldered at base; corona 34mm long, cylindrical, angled, mid-yellow, blending to pink at rim, mouth very slightly expanded, somewhat broadly ribbed, with rim minutely crenate. Mid-season. Sunproof. Nomenclatural Standard: colour print supplied by registrant (WSY0160096)

‘Astrid’s Little Comets’ 8 W-Y

Sara L.van Beck, 2026
Parentage unknown
Fls 9–16 per stem, star-shaped, 35mm wide; perianth segments ovate, acute, white, spreading or slightly reflexed, plane, with margins incurving, with midrib showing, of membranaceous substance, overlapping one-third; the inner segments narrower, scarcely mucronate; corona 4.5mm long, shallow bowl-shaped, ribbed, bright yellow, mouth straight and wavy, with rim entire. Very early. Sunproof. Lightly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0160352)

‘Astrid’s Little Sister’ 8 W-Y

Sara L.van Beck, 2026
Parentage unknown
Fls 8–9 per stem, star-shaped, 37mm wide; perianth segments ovate, blunt, spreading or slightly reflexed, plane, with margins narrowly incurving, with midrib showing, of membranaceous substance, overlapping one-third; the inner segments narrower, somewhat shouldered at base; corona 5mm long, cup-shaped, ribbed, mouth straight and even, with rim entire. Very early. Sunproof. Slightly sweetly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0160353)

‘Astrid’s Rose Water’ 8 W-Y

Sara L.van Beck, 2026
Parentage unknown
Fls 9–14 flowers per stem, star-shaped, 40mm long; perianth segments broadly ovate, blunt, prominently mucronate, white, spreading, plane or with margins slightly incurved, with midrib showing, of membranaceous substance, overlapping one-third; the inner segments narrower, scarcely mucronate; corona 3.5mm long, bowl-shaped, ribbed, citron yellow, mouth straight and wavy, with rim entire. Very early. Sweetly rose scented. Nomenclatural Standard: colour print supplied by registrant (WSY0160354)
Etymology: named for its rose fragrance

'Aten' 1 W-W

(Michael Berrigan, 2013) Michael Berrigan, 2026
 'At Dawning' × 'Magic Lantern'; sdlg no. 08-RCADML4
 Fl. rounded, 103mm wide; perianth segments
 34mm long, ovate, rounded, spreading, plane,
 smooth and of heavy substance, overlapping half or
 more; corona 37mm long, cylindrical, smooth,
 mouth even and slightly expanded, with rim entire.
 When grown in shade the corona becomes touched
 orange. Mid-season. Sunproof.
 Etymology: 'False sun god'

'Atum' 2 Y-O

(Michael Berrigan) Michael Berrigan, 2026
 'Monal' × 'Banker'; sdlg no. 08-05-1B
 Fl. forming a double triangle, 114mm wide; perianth
 segments 42mm long, roundish, spreading, plane,
 smooth and of heavy substance, overlapping half or
 more; corona 28mm long, cylindrical, smooth,
 mouth straight and even, with rim flanged and
 dentate. Very early. Sunproof.
 Etymology: Setting Sun God (Egyptian)

'Baker Place' 2 W-Y

(C.Higgins, 2021) C.Higgins, 2026
 Sdlg no. 21-42
 Parentage unknown
 Fl. forming a double triangle, 82mm wide, facing
 upwards; perianth segments 34mm long, ovate,
 blunt, prominently mucronate, spreading, plane, with
 margins slightly incurling, with midrib showing, of
 heavy substance, overlapping one-third; the inner
 segments narrower; corona 26mm long, funnel-
 shaped, smooth, mouth straight and even, with rim
 flanged or somewhat rolled, crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by
 registrant (WSY0160284)
 Etymology: place in Drew County, Arkansas, where
 the registrant spent his teenage years on a farm

'Baker Store' 2 Y-Y

(C.Higgins, 2014) C.Higgins, 2026
 'Gold Convention' open-pollinated; sdlg no. 14-302
 Fl. forming a double triangle, 80mm wide; perianth
 segments 38mm long, roundish, very broad, blunt,
 scarcely mucronate, yellow, spreading, plane or with
 margins slightly incurved, with midrib showing, of
 heavy substance, overlapping half or more; the inner
 segments shouldered at base; corona 25mm long,
 funnel-shaped, smooth, orange-yellow, mouth flared
 and even, with rim minutely crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by
 registrant (WSY0160286)
 Etymology: the store that was the centre of the
 registrant's universe as a teenager

'Bandena' 3 W-YWP

(Brian S.Duncan, 2018) Brian S.Duncan, 2025
 'Dena' × Pearson sdlg; sdlg no. 5036
 Fl. forming a double triangle, 96mm wide; perianth
 segments 49mm long, very broadly ovate, blunt,

scarcely mucronate, white, spreading, shallowly
 concave, with midrib showing, of membranaceous
 substance, overlapping half; the inner segments
 narrower, somewhat truncate, shouldered at base;
 corona 14mm long, bowl-shaped, smooth, opening
 pink, becoming white at maturity with a broad band
 of reddish-pink at rim and yellow at base, mouth
 expanded, ribbed, frilled and lobed, with rim
 crenate. Mid-season.

Nomenclatural Standard: colour print supplied by
 registrant (WSY0160067)

'Bandmaster' 2 Y-YYO

(Brian S.Duncan, 2018) Brian S.Duncan, 2025
 'Burning Ring' open-pollinated; sdlg no. 5033
 Fl. 105mm wide; perianth segments 45mm long,
 deep yellow; corona 17mm long, deep yellow with
 rich orange at rim. Mid-season

'Bas-relief' 8 W-W

Sara L.van Beck, 2026
 Parentage unknown
 Fls c.9 per stem, forming a double triangle, 37mm
 wide; perianth segments broadly ovate, blunt,
 mucronate, white, spreading, plane, with margins
 incurling, smooth and of heavy substance, overlapping
 half; the inner segments narrower, scarcely mucronate,
 shouldered at base; corona 4mm long, bowl-shaped,
 smooth, opening pale citron yellow, becoming white
 at maturity, mouth straight, even or a little wavy, with
 rim entire. Tall. Very early. Sunproof.
 Nomenclatural Standard: colour print supplied by
 registrant (WSY0160355)
 Etymology: sculptural term referring to the form of
 the corona

'Beautiful Lady' 2 W-P

(Brian S.Duncan) C.van der Veek, 2026
 'Ben Aligin' × 'Chanson'; sdlg no. 3629
 Fl. forming a double triangle, 100mm wide; perianth
 segments 41mm long, roundish, very broad, truncate,
 mucronate, slightly reflexed, plane, with margins
 incurved at apex, smooth and of heavy substance,
 overlapping half or more; the inner segments
 narrower, more nearly spreading, scarcely mucronate,
 somewhat shouldered at base, with margins a little
 wavy; corona 35mm long, cylindrical, angled, mouth
 widely flared, ribbed, lightly frilled, shallowly lobed,
 with rim crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by
 registrant (WSY0160240)

'Beauty Call' 2 W-Y

(Brian S.Duncan) C.van der Veek, 2026
 'Silkwood' × 'Limpopo'; sdlg no. 3633
 Fl. rounded, 76mm wide; perianth segments 31mm
 long, roundish, very broad, blunt or truncate,
 prominently mucronate, white, slightly reflexed,
 plane, with margins incurved towards apex, smooth
 and of heavy substance, overlapping half or more; the
 inner segments scarcely mucronate, more nearly

spreading; corona 12mm long, bowl-shaped, smooth, yellow, becoming slightly paler at maturity, mouth slightly expanded, lightly ribbed, wavy and shallowly lobed, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160170)

‘Belleza’ 5 W-W

(Theo Sanders) C.van der Veek, 2026

‘Silver Bells’ × (‘Perpetuation’ × ‘Limequilla’); sdlg no. TS1504

Fls up to 5 per stem, 66mm wide; perianth segments 32mm long, roundish, broadly ovate, truncate, mucronate, reflexed, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate, more nearly spreading; corona 17mm long, cup-shaped, smooth, mouth expanded and even, with rim minutely crenate. Dwarf. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160232)

‘Beltane Joy’ 2 Y-O

(J.A.Delaney, 2012) J.A.Delaney, 2026

Syn. ‘Pipo’

‘Arrowhead’ × ‘Magic Lantern’; sdlg no. DEL 05-046-1
Fl. rounded, 71mm wide, facing upwards; perianth segments 31mm long, opening creamy yellow, becoming paler whitish yellow at maturity, roundish, very broad, blunt, mucronate, spreading, plane, with margins incurved, smooth and of heavy substance, overlapping one third; the inner segments narrower, shouldered at base; corona 30mm long, funnel-shaped, opening light lemon yellow, maturing to golden orange, mouth flared and wavy, with rim crenate. Early to Mid-season. Sunproof. Lightly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0160297)

Etymology: named for the Celtic holiday marking the peak of spring on the Celtic Wheel of the Year

‘Bernadette Jones’ 4 W-P

(Brian S.Duncan, 2017) Colin Jones, 2025

‘Coral Dance’ × ‘Hyperbole’; sdlg no. 5245

Mid-season. Sunproof.

Etymology: named for registrant’s wife

‘Bernie’s Blossom’ 2 W-P

(Brian S.Duncan, 2017) Withheld, 2025

‘Amazing Grace’ × Sdlg (‘Chanson’ × ‘Edenderry’); sdlg no. 5269

Fl. 110mm wide; perianth segments 42mm long, white; corona 30mm long, pink, sometimes with rim paling to white. Mid-season. Sunproof.

Etymology: Named for the registrant’s late mother

‘Betty O’Brien’ 4 W-P

(Brian S.Duncan, 2017) Withheld, 2025

‘Coral Dance’ × ‘Hyperbole’; sdlg no. 5246

Fl. 90mm wide; perianth and other petaloid segments in several whorls, 36mm long, roundish, very broad,

blunt, smooth and of heavy substance, overlapping half or more; the inner whorls strongly inflexed, with margins deeply incurved or folded along midrib; corona segments shorter than and interspersed among the inner perianth segments. Mid-season. Sunproof.
Etymology: in honour of the registrant’s grandmother

‘Bill Pannill’ 1 W-P

(Michael Berrigan, 2013) Alice Pannill, 2026

‘At Dawning’ × ‘Magic Lantern’; sdlg no. 08-ADML1

Fl. forming a double triangle, 105mm wide; perianth segments 37mm long, broadly ovate, blunt, white, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments slightly narrower, shouldered at base; corona 39mm long, cylindrical, angled, pink, paler towards base, mouth straight and a little wavy, with rim entire. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160269)

Etymology: named by Bill Pannill’s wife

‘Bonnie-Boo’ 1 W-O

(Brian S.Duncan, 2018) Colin Jones, 2025

‘Astute’ × ‘Garden Beacon’; sdlg no. 5262

Fl. forming a double triangle; perianths broadly ovate, blunt, scarcely mucronate, spreading, plane or with margins very slightly incurved, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, shouldered at base; corona funnel-shaped, angled, mouth flared and wavy, with rim crenate. Early to mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0160110)

Etymology: named for registrant’s daughter, Bonnie Jones

‘Bootstrap’ 1 W-WPP

(Michael Berrigan, 2013) Michael Berrigan, 2026

‘Lawless’ × ‘Flash Point’; sdlg no. 07-72-4

Fl. rounded, 114mm wide; perianth segments 43mm long, broadly ovate, rounded, white, slightly reflexed, plane, smooth and of heavy substance, overlapping two-thirds; the inner segments narrower, spreading, shouldered at base; corona 44mm long, funnel-shaped, smooth, light pink, paler towards base, mouth flared, wavy and lightly ribbed, with rim crenate. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0160272)

‘Burnt Tavern Road’ 2 Y-Y

(C.Higgins, 2013) C.Higgins, 2026

‘Chilmark’ × ‘Celtic Gold’; sdlg no. 13-31

Fl. forming a double triangle, 90mm wide; perianth segments 32mm long, broadly ovate, blunt or slightly truncate, scarcely mucronate, spreading, plane, with margins narrowly incurving, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, somewhat shouldered at base; corona 29mm long, funnel-shaped, smooth, mouth straight and wavy, with rim

flanged and crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160287)

Etymology: name of road and the old burnt tavern in Brick, NJ

‘Candlewood’ 2 W-Y

(C.Higgins, 2014) C.Higgins, 2026

‘Glenfarclass’ open-pollinated; sdlg no. 14-145

Fl. forming a double triangle, 86mm wide; perianth segments 38mm long, broadly ovate, blunt, white, prominently mucronate, spreading, plane or with margins slightly incurved, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base, scarcely mucronate; corona 23mm long, cup-shaped, angled, yellow, paler towards base, even and slightly expanded, with rim flanged and crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0160288)

Etymology: a large development in Monmouth County, New Jersey

‘Caretta’ 6 W-W

(Mrs Anne Wright, 2016) Mrs Anne Wright, 2026
(‘Candlepower’ × Sdlg KB/M/1/98) open-pollinated; sdlg no. 3723-1-17

Fl. star-shaped, 39mm wide; perianth segments 15mm long, ovate, blunt, white 155A, slightly reflexed, plane, with midrib showing, of heavy substance, overlapping at base only; the inner segments narrower; corona 16mm long, cylindrical, slightly ribbed, opening yellow 2D, becoming white 155A at maturity, mouth flared, ribbed and frilled, with rim dentate. Dwarf. Early. Lightly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0160399)

Etymology: Italian for ‘sweet girl’

‘Carol Jones’ 2 W-P

(Brian S.Duncan, 2017) Colin Jones, 2025

‘Amazing Grace’ × Sdlg (‘Chanson’ × ‘Edenderry’); sdlg no. 5248

Fl. 98mm wide; perianth segments 38mm long; corona 28mm long. Mid-season. Sunproof.

Etymology: named for registrant’s mother

‘Ceti’ 10 W-W

(Mrs Anne Wright, 2019) Mrs Anne Wright, 2026
N. cantabricus subsp. *tananicus* open-pollinated; sdlg no. 3337-1

Fl. star-shaped, 28mm wide, facing upwards, white 155C; perianth segments 9mm long, lanceolate, acute, spreading, plane, with midrib showing, of membranaceous substance, separated; corona 8mm long, bowl-shaped, ribbed, mouth straight and wavy, with rim crenate. Dwarf. Very early. Sunproof. Nomenclatural Standard: colour print supplied by registrant (WSY0160397)

Etymology: part of the constellation Cetus

‘Chateau Ohia’ 2 Y/O-R

(Brian S.Duncan, 2016) William Duncan, 2026

Sdlg DT99/20 × ‘Bionic’; sdlg no. 4667

Fl. 100mm wide; perianth segments 38mm long, yellow, flushed orange; corona 15mm long, deep orange-red. Mid-season

‘Cluain Turnáin’ 1 W-O

(Brian S.Duncan) Margie Phillips, 2025

‘Summation’ × ‘Abstruse’; sdlg no. 5238

Fl. 105mm wide; perianth segments 40mm long; corona 42mm long. Early to mid-season. Sunproof. Etymology: named for the registrant’s home townland

‘Color Me Impressed’ 2 W-P/O

(J.A.Delaney, 2012) J.A.Delaney, 2026

Niswonger sdlg 36-9 × ‘Spring Bouquet’; sdlg no. DEL 05-048

Fl. forming a double triangle, 90mm wide; perianth segments 44mm long, ovate, blunt, prominently mucronate, white (flushed pink in cooler weather), spreading, plane, with margins incurved, with midrib showing, of heavy substance, overlapping a third to half; the inner segments narrower; corona 43mm long, funnel-shaped, smooth, deep salmon pink with orange undertones, mouth flared, ribbed, frilled and somewhat shallowly lobed, with rim crenate. Mid-season to late. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160300)

‘Corina Post’ 6 W-Y

(R.van der Salm) C.van der Veek, 2025

‘Jack Snipe’ open-pollinated

Fl. forming a double triangle, 52mm wide; perianth segments 22mm long, roundish, truncate, mucronate, slightly reflexed, smooth and of heavy substance, overlapping half; the inner segments narrower, ovate, blunt, scarcely mucronate, spreading; corona 13mm long, funnel-shaped, smooth, mouth straight and even, with rim entire and very narrowly flanged. Dwarf. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0160055)

‘Daylight Delight’ 2 W-Y

(C.van der Veek) C.van der Veek, 2026

Sdlg no. 28

Parentage unknown

Fl. rounded, 88mm wide; perianth segments 36mm long, roundish, very broad, blunt, scarcely mucronate, spreading, shallowly concave, smooth and of membranaceous substance, overlapping more than half; the inner segments narrower, somewhat shouldered at base, with midrib showing; corona 33mm long, narrow funnel-shaped, smooth, mouth straight, broadly ribbed and lightly frilled, with rim notched and flanged. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160163)

'Dell Glow' 2 Y-YOO

(Michael Berrigan, 2013) Michael Berrigan, 2026
 'Milemcro' × 'Cowboy'; sdlg no. 7-15-2
 Fl. rounded, 115mm wide; perianth segments 47mm long, roundish, very broad, blunt, bright golden yellow, reflexed, plane or with margins slightly incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, somewhat shouldered at base; corona 29mm long, bowl-shaped, ribbed, yellow, with a broad band of orange at the rim, mouth straight and lightly frilled, with rim minutely crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0160275)
 Etymology: homage to Crotty's use of 'Milemcro'

'Dinner at Eight' 8 Y-O

(C.van der Veek) C.van der Veek, 2026
 Parentage unknown
 Fls up to 5 per stem, rounded, 65mm wide; perianth segments 27mm long, broadly ovate, blunt, yellow, with white mucro, spreading, plane, with margins a little incurved or wavy, smooth and of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 11mm long, cup-shaped, smooth, orange, mouth expanded, ribbed and shallowly lobed, with rim minutely crenate. Tall. Late. Nomenclatural Standard: colour print supplied by registrant (WSY0160165)

'Discodip' 7 W-P

(C.van der Veek) C.van der Veek, 2026
 Sdlg no. F755
 Parentage unknown
 Fls up to 3 per stem, forming a double triangle, 85mm wide; perianth segments 37mm long, broadly ovate, blunt, slightly mucronate, spreading, plane or with margins incurved towards apex, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 14mm long, cup-shaped, smooth, mouth straight, frilled and broadly ribbed, with rim crenate. Late. Nomenclatural Standard: colour print supplied by registrant (WSY0160167)

'Double Centannées' 4 Y-O

(H.M.Meeuwissen) J.A.Delaney, 2026
 'Centannées' open-pollinated
 Fl. 100mm wide; perianth and other petaloid segments in two whorls; the outer whorl 40mm long, broadly ovate, blunt, yellow, with pale mucro, reflexed, plane, with margins slight incurved, smooth and of heavy substance, overlapping one-third; the inner whorl shouldered at base; corona segments 80mm long, heavily frilled, clustered at centre, obscurely lobed, crenate. Early to mid-season. Sunproof. Nomenclatural Standard: colour print supplied by registrant (WSY0160302)

'Easter Rose' 4 W-O

(Th.van der Hulst) J.A.Delaney, 2026
 Parentage unknown
 Fl. rounded, 90mm wide; perianth and other petaloid segments in several whorls; the outer two whorls 38mm long, roundish, very broad blunt or slightly truncate, scarcely mucronate, spreading, plane, smooth and of heavy substance, overlapping more than half; the inner whorls becoming successively shorter and more strongly inflexed towards centre, wavy or irregularly folded; corona segments 20mm long, interspersed among the middle and inner perianth whorls, frilled and folded. Mid-season to late. Sunproof. Nomenclatural Standard: colour print supplied by registrant (WSY0160304)

'Edgar Allan Poet' 9 W-OOR

(Gerard Knehans Jr, 2010) Gerard Knehans Jr, 2026
 'Mountain Poet' × 'Onomatopoeia'; sdlg no. 04-48-2
 Fl. rounded, 55mm wide; perianth segments 25mm long, roundish, very broad, truncate, prominently mucronate, reflexed, plane or with margins somewhat incurved, smooth and of heavy substance, overlapping more than half; the inner segments more nearly spreading, scarcely mucronate; corona 5mm long, disc-shaped, smooth, mouth straight, finely ribbed and even, with rim crenate. Mid-season to late. Sweetly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0160285)

'Evie Rose' 1 Y-Y

(Brian S.Duncan, 2014) David McConnell, 2025
 'Goldfinger' × 'Disquiet'; sdlg no. 4657
 Fl. forming a double triangle, 100mm wide, deep golden yellow; perianth segments 40mm long, roundish, very broad, blunt, mucronate, spreading, plane, smooth and of heavy substance, overlapping more than half; the inner segments narrower, shouldered at base; corona 42mm long, funnel-shaped, smooth, mouth straight and even, with rim narrowly flanged. Mid-season. Sunproof. Nomenclatural Standard: colour print supplied by hybridiser (WSY0160095)

'Fenland Beacon' 2 W-Y

(John Gibson, 2001) John Gibson, 2026
 'Holme Fen' × Tarry sdlg J47; sdlg no. 1-17-96
 Fl. rounded, 79mm wide; perianth segments 30mm long, roundish, very broad, blunt, mucronate, white, spreading, plane or a little curved at apex, creased and of heavy substance, overlapping more than half; the inner segments narrower, scarcely mucronate; corona 26mm long, cylindrical, smooth, yellow 5B, mouth flared and even, with rim minutely crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0160254)

'Fenland Fiesta' 2 W-YYO

(John Gibson, 2005) John Gibson, 2026
Sdlg 1-22-92 ('Meldrum' × 'Corbiere') × 'Graduation';
sdlg no. 131-29-99

Fl. forming a double triangle, 113mm wide; perianth segments 46mm long, broadly ovate, blunt, mucronate, white, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 35mm long, funnel-shaped, smooth, yellow 6A, with a narrow band of orange (24A) at rim, mouth straight and wavy, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160255)

'Fireside Friend' 3 Y-YRR

(Brian S. Duncan, 2017) Gerry Wass, 2026

'Hocus Pocus' × 'Carolina Dale'; sdlg no. 4990
Fl. forming a double triangle, 90mm wide; perianth segments 36mm long, roundish, very broad, truncate, very slightly mucronate, deep yellow, reflexed, plane, with margins a little incurved, creased and of heavy substance, overlapping half; the inner segments narrower, more nearly spreading, blunt, scarcely mucronate; corona 11mm long, bowl-shaped, smooth, deep orange-red, with yellow at base, mouth straight, wavy and shallowly lobed, with rim crenate. Mid-season to late. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160127)

Etymology: refers to the comfort of a fire and a thriving daffodil

'Floradora' 2 W-P

(Nial Watson, 2017) Ringhaddy Daffodils, 2026
'Ladymeads' × 'Fashion Model'; sdlg no. 1065

Fl. roundish, 108mm wide; perianth segments 45mm long, roundish, very broad, blunt mucronate, white, spreading, plane, with mid-rib showing and of membranaceous substance, overlapping more than half; the inner segments a little narrower; corona 24mm long, bowl-shaped, angled, pink (35C), mouth expanded, ribbed and shallowly lobed, with rim crenate. Mid-season. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0160245)

'Florilegium' 8 Y-Y

Sara L. van Beck, 2026

Parentage unknown

Fls up to 15 per stem, forming a double triangle, 35mm wide; perianth segments ovate, blunt, mucronate, pale primrose yellow, spreading, plane, with margins slightly incurving, with midrib showing, of membranaceous substance, overlapping one-third; the inner segments narrower, scarcely mucronate; corona 4mm long, bowl-shaped, ribbed, light yellow, mouth straight and wavy, with rim entire. Very early. Lightly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0160356)

'Freewheeler' 5 W-W

(C. van der Veek) C. van der Veek, 2026

Parentage unknown

Fls up to 5 per stem, star-shaped, 62mm wide; perianth segments 25mm long, ovate, blunt, scarcely mucronate, slightly reflexed, plane, with margins a little incurved or wavy, smooth and of heavy substance, overlapping half; the inner segments a little narrower; corona 11mm long, cup-shaped, smooth, mouth straight, even, with rim entire.

Dwarf. Late.

Nomenclatural Standard: colour print supplied by registrant (WSY0160171)

'Gardeners' Corner' 2 W-WWP

(Brian S. Duncan, 2007) David Maxwell, 2025

'Amazing Grace' × 'Cape Point'; sdlg no. 3085

Fl. forming a double triangle, 92mm wide; perianth segments 43mm long, ovate, blunt, slightly mucronate, white, spreading, shallowly concave, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 22mm long, cup-shaped, angled, white with apple blossom pink at rim, mouth expanded, even and finely ribbed, with rim crenate and narrowly flanged. Mid-season.

Nomenclatural Standard: colour print supplied by C. van der Veek (WSY0160159)

Etymology: to celebrate 40 years of the BBC

'Gardeners' Corner' programme

'Garrison' 9 W-YOR

(Michael Berrigan, 2014) Michael Berrigan, 2026

Karnstedt sdlg × 'Miss Bonita'; sdlg no. 05-157-6

Fl. rounded, 88mm wide; perianth segments 25mm long, roundish, very broad, truncate, mucronate, white, spreading, plane, creased and of heavy substance, overlapping half or more; the inner segments narrower, somewhat shouldered at base; corona 4mm long, disc-shaped, ribbed, orange, with yellow at base and a band of red at rim, mouth straight and frilled, with rim dentate. Late. Sunproof. Strongly sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0160276)

Etymology: A Minnesota/Wisconsin poet and author

'Genie Hamm' 2 W-WWP

(Mrs G. Link, 1986) Stonehouse Daffodils, 2026

Parentage unknown

Fl. forming a double triangle, 84mm wide; perianth segments 40mm long, ovate, blunt, scarcely mucronate, white, spreading, plane, with margins incurving, creased, midrib showing, of heavy substance, overlapping one-third to half; the inner segments narrower, margins somewhat wavy, slightly inflexed; corona 22mm long, funnel-shaped, slightly ribbed, opening pink, with a broad band of coppery orange at the rim, becoming white, with a narrow band of pink at maturity. Dwarf. Mid-season.

Nomenclatural Standard: colour print supplied by

registrant (WSY0160360)

Etymology: named in honour of Joe Hamm's sister

'Giltie' 5 Y-W

(Mrs Anne Wright, 2021) Mrs Anne Wright, 2026
N. bulbocodium subsp. *bulbocodium* var. *nivalis* ×
N. triandrus var. *concolor*; sdlg no. 5001-2-21
Fls 1–2 per stem, star-shaped, 45mm wide, facing
downwards; perianth segments 14mm long,
lanceolate, acute, yellow 3D, spreading, twisted, with
midrib showing, of membranaceous substance,
separated; the inner segments narrower; corona
14mm long, funnel-shaped, angled, white 155B,
mouth straight, ribbed and wavy, with rim entire.
Dwarf. Very early. Sweetly scented.

Nomenclatural Standard: colour print supplied by
registrant (WSY0160398)

Etymology: from gilt = gold on silver

'Gordonton' 4 W-P

(Graham J. Phillips) Andrew Jenkins, 2026
Sdlg MH32-01 × Sdlg I44-7; sdlg no. U97-1
Fl. 95mm wide; perianth and other petaloid segments
in several whorls; the outer two whorls roundish,
very broad, spreading, plane or with margins slightly
incurved, smooth and of heavy substance,
overlapping more than half; the inner whorls
narrower, becoming successively shorter and more
strongly inflexed towards the centre; corona segments
in several whorls, interspersed among and a little
shorter than the perianth segments, opening yellow,
maturing to dark orange-pink, very heavily frilled,
with rim minutely crenate. Early.
Nomenclatural Standard: colour print supplied by
registrant (WSY0160269)

'Grampa Kenny' 3 Y-O

(Brian S. Duncan, 2018) William Duncan, 2026
'Burning Ring' × 'Influence'; sdlg no. 5003
Fl. 100mm wide; perianth segments 40mm long,
deep yellow; corona 13mm long, reddish-orange.
Mid-season

'Green Spider' 11a W-GYW/G

(John R. Reed, 2001) J.A. Delaney, 2026
Sdlg 81-45-4 ('Old Satin' × 'Eclat') × Sdlg 81-1
('Phantom' × 'Lorikeet'); sdlg no. 94-101-2
Fl. forming a double triangle, 90mm wide; perianth
segments 36mm long, roundish, very broad, blunt,
slightly mucronate, white, spreading, plane, creased,
with midrib showing, of heavy substance, overlapping
half or more; the inner segments narrower, margins
incurved or a little wavy; corona 25mm long, split
almost to base into six segments, each as wide as and
closely overlying a perianth segment, forming an
inner and an outer whorl of three, lobed, densely
frilled, yellow, with patches of white and green, and
green at base. Mid-season to late. Sunproof.
Nomenclatural Standard: colour print supplied by
registrant (WSY0160422)
Etymology: the green edge reminded John Reed of a
spider with green feet!

'Grumble' 7 W-W

(Brian S. Duncan, 2008) Eleanor Stephenson, 2026
'Perpetuation' × *N. cyclamineus*; sdlg no. 3363
Fls usually 3 per stem, 63mm wide, opening creamy
yellow, becoming pure white at maturity; perianth
segments 25mm long, ovate, blunt, slightly mucronate,
reflexed, plane or with margins a little wavy or
shallowly concave, smooth and of heavy substance; the
inner segments narrower; corona 11mm long, cup-
shaped, smooth, mouth expanded and even, with rim
crenate. Mid-season to late. Sunproof.
Nomenclatural Standard: colour print supplied by
hybridiser (WSY0160250)

'Hankering' 11a W-W

(Michael Berrigan, 2011) Michael Berrigan, 2026
'Pearl Drift' × 'Lady Diana' unregistered; sdlg no. 08-
05-1

Fl. forming a double triangle, 110mm wide; perianth
segments 45mm long, ovate, acute, scarcely
mucronate, spreading, plane, smooth and of heavy
substance, overlapping half; the inner segments
narrower; corona 45mm long, split almost to base
into six segments, as wide as and closely overlying the
perianth segments, wavy, bi-lobed, smooth and of
heavy substance. Early.
Nomenclatural Standard: colour print supplied by
registrant (WSY0160278)

'Hannie' 2 W-P

(Brian S. Duncan, 2017) Ita van der Horst, 2025
'Amazing Grace' × 'Sheskin'; sdlg no. 4690
Fl. forming a double triangle, 107mm wide; perianth
segments 45mm long, ovate, blunt, spreading, plane,
with margins narrowly incurved at apex, smooth and
of membranaceous substance, overlapping half; the
inner segments narrower, shouldered at base; corona
20mm long, funnel-shaped, smooth, mouth wavy
and slightly flared, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by
hybridiser (WSY0160090)
Etymology: named for registrant's Dutch mother

'Hard to Bear' 2 W-Y

(Brian S. Duncan) C. van der Veek, 2026
Sdlg no. 3286
Parentage unknown
Fl. forming a double triangle, 108mm wide; perianth
segments 46mm long, broadly ovate, blunt, slightly
mucronate, spreading, plane, with margins a little
incurving towards apex, smooth and of heavy
substance, overlapping half; the inner segments
narrower, scarcely mucronate, shouldered at base;
corona 45mm long, cylindrical, smooth, mouth
straight, broadly ribbed, neatly and shallowly lobed,
with rim flanged and minutely crenate. Mid-season.
Nomenclatural Standard: colour print supplied by
registrant (WSY0160174)

'Hassan the Goat' 3 W-YYO

(C.van der Veek) C.van der Veek, 2026

Sdlg no. F709

Parentage unknown

Fl. star-shaped, 108mm wide; perianth segments 47mm long, roundish, very broad, blunt, mucronate, spreading, plane, with margins incurling towards apex, creased and of heavy substance, overlapping one-third; the inner segments narrower, with midrib showing; corona 15mm long, bowl-shaped, smooth, mouth expanded, ribbed and frilled, with rim minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160179)

'He Mni Can' 11b W-WWP

(Michael Berrigan, 2014) Michael Berrigan, 2026

Sdlg ('Space Shuttle' × 'Precocious') × 'Jodi'; sdlg no. 2008-RE11-2

Fl. forming a double triangle, 125mm wide; perianth segments 47mm long, ovate, blunt, bright white, spreading, plane, with margins incurling, creased and of heavy substance, overlapping half; the inner segments narrower; corona 31mm long, split half way along its length into six segments, white with pink at margins, frilled. Mid-season. Sunproof. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0160279)

Etymology: pronounced HEY MEH NEE CHA - a geological feature in Minnesota

'Hever Castle' 1 Y-Y

(Rosewarne EHS) O.A.Taylor & Sons Bulbs Ltd, 2026

Sdlg no. 2J

Parentage unknown

Fl. forming a double triangle; perianths ovate, blunt, mucronate, spreading, plane, creased and of heavy substance, overlapping one-third; the inner segments narrower, shouldered at base; corona narrow funnel-shaped, angled, mouth straight, even, shallowly lobed and lightly frilled, with rim broadly flanged and somewhat rolled. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0160159)

'Honor Violet' 2 Y/P-P

(Brian S.Duncan, 2009) Ita van der Horst, 2025

'Lamash' × ('Rose Gold' × 'O'More sdlg'); sdlg no. 3640

Fl. forming a double triangle, 100mm wide; perianth segments 41mm long, roundish, very broad, blunt, scarcely mucronate, yellowish, with strong pink flush, spreading, plane, somewhat hooded at apex, creased and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base, plane; corona 30mm long, cup-shaped, angled, deep pink, mouth straight and a little wavy, with rim crenate. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0160094)

Etymology: named for registrant's godchild

'Hops-a-lot' 2 Y-Y

(C.Higgins, 2014) C.Higgins, 2026

Sdlg no. 14-370

Parentage unknown

Fl. forming a double triangle, 90mm wide, facing upwards; perianth segments 29mm long, broadly ovate, blunt or somewhat truncate, scarcely mucronate, spreading, plane, with margins narrowly incurling, smooth and of heavy substance, overlapping half; the inner segments shouldered at base; corona 23mm long, funnel-shaped, smooth, mouth straight, wavy to lightly frilled, with rim flanged and crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160289)

Etymology: from a Hop-a-long Cassidy movie

'Hungadunga' 2 W-R

(John R.Reed, 2002) J.A.Delaney, 2026

Sdlg no. JAD/Reed UNK 94-95 #4

Fl. forming a double triangle, 75mm wide; perianth segments 30mm long, very broadly ovate, blunt, slightly mucronate, spreading, plane, with margins incurling, milky white, creased and of heavy substance, overlapping half; the inner segments narrower; corona 25mm long, funnel-shaped, angled, deep red, mouth ribbed, wavy and frilled, with rim crenate. Dwarf. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160330)

'Hyland' 11a W-P

(Brian S.Duncan) Michael Brogan, 2026

'Jodi' × 'Trigonometry' or 'Diversity'; sdlg no. 4925

Fl. 95mm wide; perianth segments 35mm long; corona 20mm wide. Sunproof

'Impasto' 8 W-W

Sara L.van Beck, 2026

Parentage unknown

Fls c.8 flowers per stem, star-shaped, 45mm wide; perianth segments somewhat obovate, blunt, mucronate, white, spreading, plane, with margins incurved, with midrib showing, of heavy substance, overlapping half; the inner segments ovate; corona 5mm long, bowl-shaped, ribbed, opening pale citron yellow, fading to whitish at maturity, mouth expanded, even or a little wavy, with rim dentate. Autumn. Sunproof. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0160357)

'Intersplit' 11a W-Y

(Brian S.Duncan) Brian S.Duncan, 2025

'Jauno' × Sdlg 3409 ('Pensioner' × 'Hyperbole') × 'Tickled Pink'; sdlg no. 4920

Fl. 75mm wide; perianth segments 27mm long, white; corona 20mm long, colour variable, either entirely lemon yellow or lemon yellow with a hint of pink at rim. Early to mid-season. Sunproof

'Ireland's Call' 3 W-YYO

(Brian S.Duncan, 2014) Withheld, 2025
Sdlg 3208 ('Fresno' × 'Mellon Park') × 'Coliseum';
sdlg no. 4722

Fl. 112mm wide; perianth segments 43mm long, white; corona 14mm long, yellow, with reddish orange at rim, touched green at base. Mid-season

'Irish Eyes' 3 Y-R

(Dave Hardy, 2018) Esker Farm Daffodils, 2026
'Jake' × 'Tropical Heat'; sdlg no. EF90

Fl. forming a double triangle; perianth segments roundish, very broad, blunt, scarcely mucronate, spreading, plane, with margins incurved towards apex, smooth and of heavy substance, overlapping half or more; the inner segments narrower; corona cup-shaped, smooth, mouth expanded and wavy, with rim minutely crenate. Mid-season to late.
Nomenclatural Standard: colour print supplied by registrant (WSY0160322)

'Isla' 2 W-YRR

(Nial Watson, 2014) Ringhaddy Daffodils, 2026
'Dena' open-pollinated; sdlg no. 1061

Fl. roundish, 95mm wide; perianth segments 37mm long, roundish, very broad, truncate, white, scarcely mucronate, spreading, plane, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 14mm long, bowl-shaped, smooth, red (35A), with yellow 4B at base, mouth expanded, ribbed and frilled, with rim crenate. Mid-season. Sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0160247)

'Jake Sparrow' 6 W-Y

(R.van der Salm) C.van der Veek, 2025

'Jack Snipe' open-pollinated

Fl. forming a double triangle, 74mm wide; perianth segments 32mm long, broadly ovate, blunt, slightly mucronate, a little reflexed, shallowly concave, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 16mm long, cup-shaped, smooth, mouth slightly expanded, ribbed and wavy, with rim notched. Dwarf. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0160058)

'Jameson's Joy' 3 O-R

(Brian S.Duncan, 2017) Margie Phillips, 2025
'Bionic' × 'Bandesara'; sdlg no. 5261

Fl. 100mm wide; perianth segments 40mm long, orange; corona 13mm long, deep orange-red. Mid-season.

Etymology: named for three Jameson sisters

'Jamison' 2 Y-O

(C.Higgins, 2017) C.Higgins, 2026

'Connor' open-pollinated; sdlg no. 17031

Fl. forming a double triangle, 87mm wide; perianth

segments 33mm long, ovate blunt, mucronate, spreading, plane, with margins slightly incurved, smooth and of heavy substance, overlapping one-third; the inner segments narrower; corona 25mm long, narrow funnel-shaped, angled, mouth wavy and frilled, with rim minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160292)

Etymology: nickname for one of registrant's twin granddaughters

'Jaquard' 8 W-Y

Sara L.van Beck, 2026

Parentage unknown

Fls c.10 per stem, rounded, 38mm wide; perianth segments very broadly ovate to roundish, blunt, mucronate, white, spreading, plane, with margins narrowly incurving, with midrib showing, of membranaceous substance, overlapping half; the inner segments somewhat inflexed, shouldered at base, scarcely mucronate; corona 5mm long, bowl-shaped, lightly ribbed, bright lemony-gold, fading at maturity, mouth straight or slightly constricted, even or a little wavy, with rim crenate. Very early. Lightly sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0160358)

Etymology: resembles a rich textile

'Jessie Walls' 1 Y-Y

(Brian S.Duncan) Jayne Walls, 2025

'Ombersley' × 'Chobe River'; sdlg no. 5240

Fl. 107mm wide, deep yellow; perianth segments 41mm long; corona 42mm long. Mid-season. Sunproof

'June Fisher' 2 W-W

(Fisher Nurseries 2006 Ltd, 2018) Fisher Nurseries 2006 Ltd, 2026

'Baird Road' × 'Lady Diana' unregistered; sdlg no. RH18/37

Fl. forming a double triangle, 125mm wide; perianth segments 50mm long, roundish, spreading, plane, smooth and of heavy substance, overlapping one-third; corona 48mm long funnel shaped, smooth, mouth expanded and even. Tall. Mid-season.

Etymology: name of the raiser's mother-in-law

'Kew Gold' 1 Y-Y

(Rosewarne EHS, 1985) O.A.Taylor & Sons Bulbs Ltd, 2026

Sdlg no. 2E

Parentage unknown

Fl. forming a double triangle; perianth segments ovate, blunt, yellow, with pale slight mucro, spreading, plane, creased and of heavy substance, overlapping half; the inner segments narrow; corona funnel-shaped, smooth, yellow, mouth straight, even, wavy or lightly frilled, with rim notched and widely flanged. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0160231)

'Kitty Earley' 3 W-R

(Brian S.Duncan, 2023) Paul Earley, 2025
'Cavalryman' × 'Doctor Hugh'; sdlg no. 5048
Fl. 110mm wide; perianth segments 48mm long,
white; corona 8mm long, deep red. Early.
Etymology: named for registrant's mother

'Knollwood Narges' 9 W-GYR

(Judith Gail Williams, 2025) Judith Gail Williams, 2026
'Actaea' × 'Edna Earl'; sdlg no. K2019-A
Fl. forming a double triangle, 87mm wide; perianth
segments 40mm long, ovate, truncate, prominently
mucronate, white NN155D, slightly reflexed, concave,
with midrib showing, of membranaceous substance,
overlapping less than half; the inner segments
narrower, more nearly spreading, scarcely mucronate;
corona 3mm long, bowl-shaped, ribbed, yellow 154A,
with green 134A at base and a narrow band of red
(60A) at rim, mouth heavily frilled and slightly
expanded, with rim dentate. Late. Strongly scented.
Nomenclatural Standard: colour print supplied by
registrant (WSY0160263)

'K-popper' 2 Y-O

(C.Higgins, 2013) C.Higgins, 2026
'Royal Marine' open-pollinated; sdlg no. 13-324
Fl. forming a double triangle, 92mm wide; perianth
segments 32mm long, ovate, blunt, scarcely
mucronate, spreading, plane, with midrib showing, of
membranaceous substance, overlapping half; the
inner segments narrower, somewhat shouldered at
base; corona 28mm long, funnel-shaped, angled,
mouth straight, lightly frilled, with rim minutely
crenate. Mid-season.
Nomenclatural Standard: colour print supplied by
registrant (WSY0160293)
Etymology: nickname for one of registrant's twin
granddaughters

'Lady Susan' 2 P-P

(Dave Hardy) Esker Farm Daffodils, 2026
'Whispering Pink' × 'Pinkieperi'; sdlg no. EF35
Fl. forming a double triangle, 90mm wide; perianth
segments 35mm long, broadly ovate, blunt,
mucronate, spreading, shallowly incurved, smooth
and of membranaceous substance, overlapping half;
the inner segments narrower, slightly inflexed, scarcely
mucronate; corona 20mm long, cup-shaped, angled,
broadly ribbed, mouth wavy and slightly expanded,
with rim minutely crenate. Mid-season to late.
Nomenclatural Standard: colour print supplied by
registrant (WSY0160239)
Etymology: named for Susan Schieffelin in recognition
of her service to Connecticut Daffodil Society

'Lake Pepin' 2 W-Y

(Michael Berrigan, 2010) Michael Berrigan, 2026
'Dayton Lake' × 'Evesham'; sdlg no. 04-15-1
Fl. forming a double triangle, 117mm wide; perianth
segments 46mm long, very broadly ovate, scarcely
mucronate, bright white, spreading, plane, smooth

and of membranaceous substance, overlapping half
or more; the inner segments narrower, shouldered at
base; corona 29mm long, narrow funnel-shaped,
smooth, butter yellow, mouth straight and wavy, with
rim entire. Early. Sunproof.

Nomenclatural Standard: colour print supplied by
registrant (WSY0160280)

Etymology: named for a lake and in homage to John
Reed's 'Lake' series of daffodils

'Laura Brogan' 2 W-P

(Brian S.Duncan) Michael Brogan, 2026
'Amazing Grace' × 'Extempore'; sdlg no. 5025
Fl. forming a double triangle, 102mm wide; perianth
segments 33mm long, roundish, very broad, blunt,
scarcely mucronate, spreading, shallowly concave,
creased and of heavy substance, overlapping half; the
inner segments narrower; corona 22mm long, funnel-
shaped, angled, mouth straight, ribbed and flared,
with rim mucronate. Mid-season.

Nomenclatural Standard: colour print supplied by
registrant (WSY0160259)

Etymology: named in honour of the registrant's
late wife

Little Hero Group 12 Y-Y

(Mrs Anne Wright, 2022) Mrs Anne Wright, 2026
N. fernandesii var. *cordubensis* × *N. rupicola*; sdlg no.
4954

Fls 1–3 per stem, 26mm wide; perianth segments
11mm long, ovate, truncate, mucronate, yellow
6A/9A, spreading, plane, with margins slightly
incurving, smooth and of heavy substance,
overlapping one-third to half; the inner segments
narrower; corona 5mm long, cup-shaped, slightly
ribbed, yellow 7A/13A, mouth straight, ribbed and
lobed, with rim crenate. Dwarf. Early. Sunproof.
Spicily scented.

Nomenclatural Standard: colour print supplied by
registrant (WSY0160400)

'Little Sam' 11a Y-Y

(John R.Reed, 2007) J.A.Delaney, 2026
Sdlg no. JAD/Reed 1998-90 #03

Cross involving 'Menehay' and Reed seedling
Fl. star-shaped, 67mm wide; perianth segments 26mm
long, ovate, blunt, scarcely mucronate, spreading, plane,
with margins incurved or wavy, smooth and of heavy
substance, overlapping one-third, the inner segments
narrower; corona 40mm long, split to base into six
segments, each as wide as and overlying a perianth
segment, shallowly lobed, creased. Dwarf. Mid-season.
Sunproof. Occasionally, either spontaneously or
following hot water treatment, flowers are produced
with a cluster of corona segments at the centre, giving
the appearance of a 'semi-double' bloom.

Nomenclatural Standard: colour print supplied by
registrant (WSY0160305)

Etymology: named for the registrant's cat Sammy
Sam Sammerson Delaney, affectionately known as
Little Sam

'Lord Lieutenant' 3 W-YYR

(Brian S.Duncan, 2014) William & Pearl Stewart, 2025
'Cavalryman' × 'Coliseum'; sdlg no. 4721

Fl. forming a double triangle, 100mm wide; perianth segments 39mm long, very broadly ovate, roundish, slightly mucronate, pure white, spreading, plane or with margins incurved, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 10mm long, funnel-shaped, smooth, yellow, with a broad band of bright red at rim, mouth straight, finely ribbed, wavy to very lightly frilled, with rim crenate. Mid-season to late. Sunproof.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0160079)

Etymology: In appreciation of Sir Robert's selfless devotion to the people of Tyrone over many years

'Love Actually' 2 W-W

(C.van der Veek) C.van der Veek, 2026

Sdlg no. 12

Parentage unknown

Fl. forming a double triangle, 78mm wide; perianth segments 33mm long, roundish, very broad, blunt, slightly mucronate, spreading, shallowly concave, with midrib showing, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 15mm long, cup-shaped, smooth, mouth a little expanded, ribbed and wavy, with rim notched. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160181)

'Love Happens' 2 W-W

(Maurice Kerr) C.van der Veek, 2026

Sdlg no. 1146

Parentage unknown

Fl. rounded, 90mm wide; perianth segments 39mm long, roundish, very broad, blunt, slightly mucronate, spreading, plane or with margins a little incurved, smooth and of membranaceous substance, overlapping more than half; the inner segments narrower, scarcely mucronate, shouldered at base, with midrib showing; corona 20mm long, bowl-shaped, smooth, mouth expanded, ribbed, wavy or lightly frilled, with rim notched. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160183)

'Love Poem' 3 W-W

(Derrick Turbitt) C.van der Veek, 2026

Sdlg no. 0918

Parentage unknown

Fl. rounded, 100mm wide; perianth segments 44mm long, roundish, very broad, blunt, mucronate, spreading, plane or with margins slightly incurved, with midrib showing and of membranaceous substance, overlapping half or more; the inner segments narrower, scarcely mucronate, shouldered at base; corona 11mm long, bowl-shaped, smooth, mouth expanded, ribbed and wavy, with rim crenate. Late.

Nomenclatural Standard: colour print supplied by registrant (WSY0160185)

'Love to Dream' 1 W-W

(John Gibson, 2005) John Gibson, 2026

'Ben Aligin' × 'Pol Crocan'; sdlg no. 521-40-01

Fl. forming a double triangle, 103mm wide; perianth segments 43mm long, ovate, prominently mucronate, spreading, plane, with margins slightly incurving, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, less prominently mucronate; corona 45mm long, narrow funnel-shaped to cylindrical, smooth, mouth straight and broadly ribbed, with rim broadly flanged and irregularly crenate. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160257)

'Mabel Wallace' 3 W-GYY

(Brian S.Duncan, 2014) RHSI, 2025

'Viva Diva' × 'Jammin'; sdlg no. 4643

Fl. forming a double triangle, 112mm wide, slightly facing downwards; perianth segments 49mm long, broadly ovate, blunt, white, spreading, plane, with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 14mm long, cup-shaped, smooth, deep lemon-yellow, with green eye, mouth expanded, ribbed and wavy, with rim crenate. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160117)

Etymology: in honour of Mabel Wallace who lived all her life neighbouring Bellefield House

'Mammy Marge' 2 Y-YYR

(Brian S.Duncan, 2017) Colin Jones, 2025

'Triple Crown' × 'Finest Cut'; sdlg no. 4968

Fl. forming a double triangle, 80mm wide; perianth segments 30mm long, broadly ovate, truncate or blunt, slightly mucronate, golden yellow, spreading, plane, with margin incurved towards apex, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 11mm long, cup-shaped, smooth, golden yellow, with a band of bright orange-red at rim, mouth slightly expanded, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0160112)

Etymology: named for Margie Phillips, Glasnevin Botanic Garden

'Maria Cornelia' 2 W-YPY

(C.P.J.Breed) J.D.Delaney, 2026

'Rosy Wonder' × 'Filoli'; sdlg no. CB 04

Fl. forming a double triangle, 105mm wide; perianth segments 43mm long, roundish, very broad, truncate, slightly mucronate, white, spreading, plane, with margins incurved, creased and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base, blunt, scarcely mucronate; corona 35mm long, funnel-shaped,

smooth, deep salmon pink, greenish-yellow at base, expanded, ribbed, wavy and frilled, with rim flanged and crenate. Mid-season to late. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0160332)
Etymology: named for Mariette Ravensberg-Breed, daughter of hybridiser Cees Breed

‘Matangi Road’ 2 Y-O

(P.D.K.Ramsay, 2010) Fisher Nurseries 2006 Ltd, 2026
‘Cameo Joy’ × ‘Omeomy’; sdlg no. PR10:39
Fl. rounded, 120mm wide; perianth segments 52mm long, roundish, spreading, plane, smooth and of heavy substance; corona 32mm long, bowl-shaped, smooth, mouth expanded. Tall. Mid-season

‘Michael White’ 3 W-O

(Brian S.Duncan, 2017) Colin Jones, 2025
‘Young Blood’ × ‘Doctor Hugh’; sdlg no. 5260
Fl. forming a double triangle, 110mm wide; perianth segments 38mm long, broadly ovate, truncate, slightly mucronate, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 12mm long, cup-shaped, smooth, mouth expanded, wavy and lightly frilled, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0160115)
Etymology: named for ex-curator of Mount Congreve Gardens

‘Minimicro’ 2 Y-Y

(Brian S.Duncan, 2001) Brian S.Duncan, 2026
N. asturiensis × *N. rupicola* subsp. *waterii*; sdlg no. 3255
Fl. 27mm wide, lemon yellow; perianth segments 10mm long; corona 8mm long. Dwarf. Very early. Sunproof

‘Missing Link’ 6 W-Y

(Mrs G.Link, 1977) Stonehouse Daffodils, 2026
N. cyclamineus selection
Fl. star-shaped, 48–52mm wide; perianth segments 20–24mm long, lanceolate, acute, opening pale yellow, becoming white at maturity, reflexed, convex or somewhat twisted, smooth and of membranaceous substance, overlapping at base only; the inner segments narrower, more nearly plane; corona 20–24mm long, cylindrical, yellow, mouth straight or slightly flared, lightly ribbed and wavy, with rim crenate. Dwarf. Very early.
Nomenclatural Standard: colour print supplied by registrant (WSY0160366)
Etymology: named in honour of the much-missed hybridiser

‘Mont Crenel’ 8 W-Y

Sara L.van Beck, 2026
Parentage unknown
Fls 10–12 per stem, star-shaped, 38mm wide; perianth segments ovate, blunt, scarcely mucronate, white, spreading or a little reflexed, plane, with

margins incurling, smooth or slightly creased, of membranaceous substance, overlapping one-third to half; the inner segments narrower, margins more strongly incurling; corona 5mm long, cup-shaped, ribbed, light yellow, mouth expanded, wavy and shallowly lobed, with rim crenate. Tall. Very early. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160359)

‘Must Be Hyper’ 11a Y-GYY

(John R.Reed, 2005) J.A.Delaney, 2026
‘Gironde’ × Reed sdlg 85-7-4 ([‘Golden Jewel’ × ‘Dream Prince’] × [‘Scotch Quarter’ sibling]); sdlg no. 98-81-03 (H)
Fl. forming a double triangle, 89mm wide, facing upwards; perianth segments 43mm long, very broadly ovate, blunt or slightly truncate, deep yellow, with slight pale mucro, spreading, plane, with margins incurling, creased, with midrib showing, of heavy substance, overlapping one-third; the inner segments narrower; corona 22mm long, split to base forming an outer and an inner whorl of three, closely overlying and as wide as the perianth segments, lobed and frilled, golden yellow, darker in tone than perianth segments, green at base, with rim entire. Mid-season. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0160307)
Etymology: a colloquialism often quipped by Larry Weir at Oakwood Daffodils to describe multiple things

‘Muy Bien’ 2 W-YYO

(C.van der Veek) C.van der Veek, 2026
Sdlg no. F770
Parentage unknown
Fl. forming a double triangle, 112mm wide; perianth segments 49mm long, very broadly ovate, truncate, mucronate, white, a little reflexed, plane or with margins slightly incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 21mm long, bowl-shaped, smooth, yellow, with a narrow band of orange at rim, mouth expanded, even, frilled and lightly ribbed, with rim notched. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0160187)

‘Nahant Bay’ 2 W-O

(C.Higgins, 2016) C.Higgins, 2026
‘Royal Marine’ × ‘Golden Aura’; sdlg no. 16-142
Fl. rounded, 74mm wide; perianth segments 27mm long, roundish, very broad, truncate, scarcely mucronate, spreading, plane, with margins wavy, with midrib showing, of membranaceous substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 22mm long, cup-shaped, smooth, mouth expanded and wavy, with rim flanged and notched. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0160294)

Etymology: bay off Nahant Island, Massachusetts which has good flounder fishing

'Nature's Canvas' 3 Y-Y/O

(Clive Denton, 2021) Clive Denton, 2025
Sdlg D1499 × 'Lemon Spice'; sdlg no. CD126-16
Fl. rounded, 100mm wide; perianth segments 40mm long, roundish, very broad, truncate, yellow, with pale mucro, spreading, shallowly concave, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate, blunt, somewhat shouldered at base; corona 12mm long, disc-shaped, ribbed, yellow at base, blending into orange towards the rim, mouth flared, wavy and lightly frilled, with rim dentate.

Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160122)

'Newtons Corner Road' 2 Y-Y

(C.Higgins, 2014) C.Higgins, 2026
'Cyrus' open-pollinated; sdlg no. 14-142
Fl. forming a double triangle, 90mm wide; perianth segments 34mm long, broadly ovate, blunt, yellow, paler along midrib, spreading, plane, with margins narrowly incurving, smooth and of heavy substance, overlapping one-third; the inner segments narrower, shouldered at base; corona 33mm long, cup-shaped, smooth, yellow, paler towards rim, mouth flared and even, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160295)

Etymology: street that runs off the Chicken Foot south to Brick, New Jersey

'Niamh Harkin' 2 W-P

(Brian S.Duncan, 2018) Seamus O'Brien, 2025
'Cape Point' × 'Rose Lake'; sdlg no. 5030
Fl. 106mm wide; perianth segments 41mm long, very broadly ovate, blunt, scarcely mucronate, reflexed, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower and somewhat shouldered at base; corona 30mm long, cylindrical, angled, mouth a little flared, broadly ribbed and even, with rim notched. Mid-season.

Sunproof.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0160080)

'Night Circus' 3 W-YWY

(C.van der Veek) C.van der Veek, 2025
Sdlg no. 7

Parentage unknown

Fl. forming a double triangle, 107mm wide; perianth segments 45mm long, roundish, very broad, blunt, slightly mucronate, spreading, shallowly concave, smooth and of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate, somewhat shouldered at base; corona 14mm long, bowl-shaped, mouth expanded, ribbed and frilled, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160062)

'Oakwood Vortex' 2 W-P

(John R.Reed, 2001) J.A.Delaney, 2026
'Magician' × 'Pink Silk'; sdlg no. JAD/Reed UNK 94-95

Fl. forming a double triangle, 90mm wide; perianth segments 40mm long, very broadly ovate, blunt, mucronate, creamy white, touched yellow at base, spreading, plane, with margins slightly incurved, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 30mm long, funnel-shaped, angled, opening "watermelon" pink, becoming paler at maturity, mouth expanded, even, lightly frilled and irregularly lobed, with rim flanged. Dwarf. Mid-season.

Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160337)

'Ohia Sunrise' 1 Y-Y

(Brian S.Duncan, 2019) William Duncan, 2026

'Feline Queen' × 'Disquiet'; sdlg no. 4057

Fl. forming a double triangle; perianth segments ovate, blunt, slightly mucronate, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona narrow funnel-shaped, smooth, mouth straight and even, with rim flanged and crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160136)

'Ohia Sunset' 2 Y-R

(Brian S.Duncan, 2020) William Duncan, 2026

'Archie Boy' × 'Firebright'; sdlg no. 5402

Fl. 103mm wide; perianth segments 41mm long, deep yellow; corona 19mm long, deep orange-red. Mid-season

'Paddy Mackie' 1 Y-R

(Brian S.Duncan, 2016) Tracy Mackie Hamilton, 2025

'Cutting Edge' × Sdlg 3705 ('Tyree' unreg × 'Corby Candle'); sdlg no. 4930

Fl. rounded, 105mm wide; perianth segments 39mm long, roundish, very broad, blunt, deep yellow with prominent white mucro, reflexed, plane, with margins incurved, smooth and of heavy substance, overlapping more than half; corona 40mm long, cylindrical, angled, deep orange-red, mouth straight, even and lightly frilled, with rim notched. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160123)

'Passionate Nature' 2 W-W

(Gerry Wass, 2021) Gerry Wass, 2026

'Ice Follies' open-pollinated

Fl. forming a double triangle, 100mm wide; perianth segments 43mm long, ovate, blunt, mucronate, opening white, touched yellow at base, becoming

white at maturity, slightly reflexed, plane or with margins a little wavy, smooth and of heavy substance, overlapping one-third to half; the inner segments narrower, spreading, scarcely mucronate; corona 28mm long, broad funnel-shaped, angled, opening lemon yellow, becoming creamy white at maturity, mouth straight, ribbed and frilled, with rim notched. Early. Nomenclatural Standard: colour print supplied by registrant (WSY0160130)

'Pearl Necklace' 2 W-O/YW

(John R.Reed, 2005) J.A.Delaney, 2026

Sdlg no. JAD/Reed 98-110 #2

Parentage unknown

Fl. forming a double triangle, 95mm wide; perianth segments 42mm long, roundish, very broad, blunt or slightly truncate, scarcely mucronate, white, spreading, plane, with margins a little incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 35mm long, cylindrical, smooth, mouth straight, even and heavily frilled, golden orange, touched yellow and white at rim, with rim closely and deep notched, crenate. Early to mid-season. Sunproof. Nomenclatural Standard: colour print supplied by registrant (WSY0160335)

'Perfect Bliss' 3 W-GYY

(Brian S.Duncan, 2017) Brian S.Duncan, 2025

'Jammin' × 'Moon Madness'; sdlg no. 4486

Fl. forming a double triangle, 107mm wide; perianth segments 44mm long, broadly ovate, blunt, spreading, plane, with margins narrowly incurving, white, smooth and of membranaceous substance, overlapping half or more; corona 13mm long, broad funnel-shaped, angled, deep lemon yellow, with green eye, mouth expanded, wavy to lightly frilled, with rim crenate. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160070)

'Perfect Ten' 2 W-Y

(C.van der Veek) C.van der Veek, 2026

Sdlg no. 10

Parentage unknown

Fl. forming a double triangle, 94mm wide; perianth segments 39mm long, broadly ovate, blunt, mucronate, spreading, plane, with margins very slightly incurving, smooth and of heavy substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona 32mm long, funnel-shaped, smooth, mouth flared, wavy to lightly frilled, with rim entire. Dwarf. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0160189)

'Pimpula' 2 Y-R

(Brian S.Duncan) C.van der Veek, 2026

Sdlg no. FC-03

Parentage unknown

Fl. forming a double triangle, 114mm wide; perianth segments 49mm long, roundish, very broad, blunt,

scarcely mucronate, spreading, shallowly concave, smooth and of heavy substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona 19mm long, cup-shaped, ribbed, mouth straight and wavy, with rim minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160191)

'Pink Marvel' 2 W-WWP

(C.van der Veek) C.van der Veek, 2026

Sdlg no. 17

Parentage unknown

Fl. rounded, 79mm wide; perianth segments 30mm long, roundish, very broad, blunt to slightly truncate, scarcely mucronate, spreading, concave, with margins narrowly incurving at apex, creased and of heavy substance, overlapping more than half; the inner segments narrower, shouldered at base; corona 19mm long, cup-shaped, mouth expanded, ribbed and wavy, with rim minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160193)

'Pink Nicole' 2 W-YYP

(C.Higgins, 2014) C.Higgins, 2026

'Geometrics' × 'Gold Convention'; sdlg no. 14-304

Fl. rounded, 78mm wide; perianth segments 25mm long, roundish, very broad, blunt, white, spreading, plane, with margins narrowly incurving, smooth and of heavy substance, overlapping half or more; the inner segments narrower, slightly truncate, shouldered at base; corona 21mm long, cup-shaped, smooth, yellow, with a broad band of pink at rim, mouth expanded, even and shallowly lobed, with rim flanged and minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160296)

'Pipo' 2 Y-Y

Syn. syn. of 'Beltane Joy'

Rejected epithet, having previously been established in 2025 but found to be contrary to ICNCP Art. 31.4

'Pirongia Rose' 4 Y-O

(Graeme & Faith Miller, 2016) Graeme & Faith Miller, 2026

'Skywalker' × 'Kiwi Sunset'; sdlg no. GM16-57

Fl. rounded, 100mm wide; perianth and other petaloid segments in three or more whorls, brilliant greenish yellow 6A; the outer whorls 39mm long, roundish, very broad, blunt, white mucro, spreading, shallowly concave, smooth and of heavy substance, overlapping half; the inner whorls successively shorter and more inflexed towards centre; innermost segments strongly incurved or folded inward along midrib; corona segments 32mm long, interspersed among the inner whorls of petaloid segments, orange (28A), inflexed, crumpled, frilled. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160391)

‘Pirongia Ruffles’ 1 Y-P

(Graeme & Faith Miller, 2018) Graeme & Faith Miller, 2026

‘American Dream’ × Sdlg JAH35/98A; sdlg no. GM18-17

Fl. forming a double triangle, 105mm wide; perianth segments 42mm long, roundish, very broad, truncate, scarcely mucronate, light yellow 8C, flushed pink, spreading, plane, with margins narrowly incurling, smooth and of heavy substance, overlapping half or more; the inner segments narrower, somewhat shouldered at base; corona 42mm long, funnel-shaped, ribbed, opening yellowish, becoming light reddish pink (38D) at maturity, mouth expanded and frilled, with rim flanged and dentate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0160393)

‘Pretty Prickles’ 2 W-YYO

(C.van der Veek) C.van der Veek, 2026

Sdlg no. F129

Parentage unknown

Fl. rounded, 108mm wide; perianth segments 44mm long, roundish, very broad, blunt, scarcely mucronate, spreading, plane or with margins incurling, creased and of membranaceous substance, overlapping more than half; the inner segments narrower, shouldered at base; corona 30mm long, funnel-shaped, smooth, mouth straight, even and frilled, with rim notched. Early. Nomenclatural Standard: colour print supplied by registrant (WSY0160195)

‘Prom Queen’ 11a W-P

(Brian D.Duncan) C.van der Veek, 2026

Sdlg no. 2879

Parentage unknown

Fl. forming a double triangle, 97mm wide; perianth segments 34mm long, roundish, very broad, blunt or slightly truncate, scarcely mucronate, spreading, plane or with margins incurled, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 24mm long, split into six segments each closely overlying and as wide as the perianth segments, forming an inner and an outer whorl of three, wavy or lightly frilled, with rim minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160197)

‘Quachita’ 2 Y-YOO

(C.Higgins, 2014) C.Higgins, 2026

Sdlg no. 14-76

Parentage unknown

Fl. forming a double triangle, 87mm wide, facing upwards; perianth segments 32mm long, ovate, blunt, scarcely mucronate, spreading, plane, with margins narrowly incurling at apex, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 24mm long, cup-shaped, smooth, mouth expanded and even, with rim minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160428)

Etymology: mountain range in western Arkansas and south eastern Oklahoma

‘Quite Nice’ 3 W-WWY

(C.van der Veek) C.van der Veek, 2026

Sdlg no. F793

Parentage unknown

Fl. rounded, 83mm wide; perianth segments 36mm long, roundish, very broad, truncate, scarcely mucronate, reflexed, concave, smooth and of heavy substance, overlapping more than half; the inner segments narrower, shouldered at base, blunt at apex, more nearly plane; corona 9mm long, bowl-shaped, smooth, mouth expanded wavy, with rim crenate. Late. Nomenclatural Standard: colour print supplied by registrant (WSY0160177)

‘Radio Star’ 2 W-Y

(C.van der Veek) C.van der Veek, 2026

Sdlg no. F2431

Parentage unknown

Fl. star-shaped, 82mm wide; perianth segments 34mm long, ovate, blunt, mucronate, spreading, plane, smooth and of heavy substance, overlapping one-third to half; corona 27mm long, funnel-shaped, smooth, mouth straight, wavy and lightly frilled, with rim crenate. Dwarf. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0160199)

‘Raritan Bay’ 2 Y-O

(C.Higgins, 2014) C.Higgins, 2026

Sdlg no. 14-15

Parentage unknown

Fl. rounded, 80mm wide; perianth segments 32mm long, roundish, very broad, truncate, scarcely mucronate, slightly reflexed, plane, creased and of heavy substance, overlapping half or more; the inner segments narrower, more nearly plane; corona 31mm long, bowl-shaped, smooth, mouth expanded and wavy, with rim minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160298)

Etymology: from the Raritan Native Americans that lived on the bay that extends from Keyport to Staten Island, New Jersey

‘Razzmatazz’ 7 Y-Y

(Walter J.M.Blom) C.van der Veek, 2026

Sdlg no. Blom 14

Parentage unknown

Fls up to five per stem, star-shaped, 42mm wide; perianth segments 20mm long, ovate, blunt, mucronate, reflexed, plane or with margins wavy, smooth and of heavy substance, overlapping one-third or less; corona 7mm long, cup-shaped, smooth, mouth even and a little expanded, with rim entire. Dwarf. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160201)

'Recurring Dream' 11a W-O

(Matt Duddy, 2007) Stonehouse Daffodils, 2026
 'Tricollet' × 'Mondragon'; sdlg no. MS07-45
 Fl. rounded, 88mm wide; perianth segments 38mm long, roundish, very broad, truncate, slightly mucronate, spreading, shallowly concave, with margins incurved towards apex, with midrib showing, of heavy substance, overlapping half; the inner segments narrower; corona 28mm long, split almost to base into six segments, inflexed, lobed and frilled, with rim crenate. Mid-season. Sunproof.
 Nomenclatural Standard: colour print supplied by registrant (WSY0160375)

'Red Strike' 3 Y-R

(Brian S.Duncan) Brian S.Duncan, 2025
 Sdlg 2510 ('Shingdig' × Sdlg 85/25) × Sdlg 3005 ('Jake' × Sdlg 1776); sdlg no. 4352
 Fl. forming double triangle, 110mm wide; perianth segments 43mm long, very broadly ovate, blunt, deep yellow, with slight pale mucro, spreading, shallowly concave, smooth and of membranaceous substance, overlapping half; the inner segments narrower, somewhat truncate, shouldered at base, scarcely mucronate; corona 8mm long, bowl-shaped, smooth, deep orange-red, mouth expanded, finely ribbed, somewhat frilled, with rim crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0160152)

'RHSI Blushing Pink' 2 W-P

(Brian S.Duncan, 2015) RHSI, 2025
 'Burt House' × 'Trumpet Royale'; sdlg no. 4642
 Fl. forming a double triangle, 110mm wide; perianth segments 40mm long, broadly ovate, blunt, spreading, plane, with midrib showing, of membranaceous substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 30mm long, funnel-shaped, smooth, mouth straight, even, frilled and shallowly lobed, with rim crenate. Mid-season. Sunproof.
 Nomenclatural Standard: colour print supplied by registrant (WSY0160119)

'Rim Dance' 3 W-YYY

(Brian S.Duncan, 2015) Brian S.Duncan, 2025
 'Quickstep' × 'Dena'; sdlg no. 4810
 Fl. forming a double triangle, 80mm wide; perianth segments 33mm long, roundish in outline, very broad, blunt, slightly mucronate, opening creamy yellow, becoming what at maturity, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, more nearly plane; corona 10mm long, broad funnel-shaped, smooth, mid-yellow, with narrow band of pink at rim, mouth expanded and wavy, with rim crenate. Mid-season. Sunproof.
 Nomenclatural Standard: colour print supplied by registrant (WSY0160074)

'Ringhaddy Gold' 1 Y-Y

(Nial Watson, 2008) Ringhaddy Daffodils, 2026
 'Tenterfield' × 'Meldrum'; sdlg no. W236
 Fl. forming a double triangle, 119mm wide; perianth segments 48mm long, broadly ovate, blunt, slightly mucronate, yellow 7A, spreading, plane or with margins slightly incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 50mm long, funnel-shaped, smooth, yellow 14A, mouth flared and ribbed, rim notched. Early. Sweetly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0160244)

'Robert Miller' 3 W-GYY

(Brian S.Duncan, 2018) Colin Jones, 2025
 'Jammin' × 'Astrid's Memory'; sdlg no. 5009
 Mid-season. Sunproof

'Ron Tyrrell' 1 Y-Y

(P.D.K.Ramsay, 2013) Fisher Nurseries 2006 Ltd, 2026
 'Cameo Jewel' × 'George Tarry'; sdlg no. PR13:4
 Fl. rounded, 112mm wide; perianth segments 48mm long, very broad, rounded, spreading, plane, smooth and of heavy substance, overlapping half or more; corona 49mm long, smooth. Tall. Mid-season.
 Etymology: in honour of the founding member of the Northern Daffodil Club

'Rosa Hamilton' 11a Y-O

(Nial Watson) Ringhaddy Daffodils, 2026
 Parentage unknown
 Fl. rounded, 104mm wide; perianth segments 39mm long, roundish, very broad, blunt, yellow 12A, spreading, plane or with margins slightly incurved, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 14mm long, split to base into six segments, forming an outer and an inner whorl of three, the same width as the perianth segments, orange (21A), wavy, smooth and of heavy substance, with rim minutely crenate. Mid-season. Sweetly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0160249)

'Rosemary C' 2 W-P

(Brian S.Duncan, 2017) Elizabeth A.Duncan, 2025
 'Amazing Grace' × 'Extempore'; sdlg no. 4852
 Fl. 100cm wide; perianth segments 40mm long, white; corona 22mm long, deep pink. Mid-season. Sunproof.
 Etymology: to mark a significant birthday of a special friend

'Round-cut Ruby' 2 W-R

(John R.Reed, 2001) J.A.Delaney, 2026
 'Ruby Red' open-pollinated; sdlg no. JAD/Reed 94 #02
 Fl. rounded, 95mm wide; perianth segments 42mm long, roundish, very broad, truncate, mucronate, ivory white, with occasional amber-pink flush, spreading, plane or with margins incurving, smooth and of heavy substance, overlapping half or more; the inner

segments narrower, scarcely mucronate, shouldered at base; corona 24mm long, bowl-shaped, angled, deep reddish-pink, mouth expanded, ribbed and frilled, with rim notched. Mid-season to late. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0160425)

‘Rozzi’s Orange’ 7 O-O

(Kevin Crowe, 2014) Kevin Crowe, 2026
‘Sunstroke’ × *N. jonquilla*; sdlg no. 1/18
Fls up to 3 per stem, forming a double triangle, 60mm wide; perianth segments 25mm long, ovate, truncate, mucronate, orange, with a golden hue, spreading, plane, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 13mm long, cup-shaped, angled, strong orange, darker in tone than perianth segments, mouth ribbed and wavy, with rim crenate. Mid-season. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0160234)

‘Rua Mahavéili’ 11a Y-P

(Brian S.Duncan, 2015) Ita van der Horst, 2025
‘Tickled Pink’ × ‘Hyperbole’; sdlg no. 4955
Fl. 105mm wide; perianth segments 37mm long, broadly ovate, blunt, scarcely mucronate, lemon yellow, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, with margins incurling; corona 25mm long, split almost to base into six segments, each closely overlaying a perianth segment forming and inner and an outer whorl of three, pink, the outer whorl scarcely lobed, with rim crenate, the inner whorl deeply lobed, with rim somewhat frilled. Early to mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0160088)
Etymology: named after registrant’s godchild

‘Sandbar’ 2 Y-O

(Michael Berrigan, 2013) Michael Berrigan, 2026
‘Hawley Gift’ × ‘Tideford’; sdlg no. 08-55-1
Fl. forming a double triangle, 102mm wide; perianth segments 38mm long, broadly ovate, truncate, light golden yellow, spreading, concave, creased and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 26mm long, cup-shaped, smooth, orange, paler towards base, mouth straight, wavy to lightly frilled, with rim dentate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0160281)

‘Saoirse’ 4 Y-R

(Brian S.Duncan) Neal Wass, 2026
Turbitt sdlg DT 99/20 × ‘Bionic’; sdlg no. 5015
Fl. 100mm wide; perianth and other petaloid segments in several whorls, yellow, with pale mucro; the two outer whorls 40mm long, broadly ovate, blunt or truncate, spreading, plane or with margins incurling at

apex, creased and of heavy substance, overlapping more than half; the inner whorls 20mm long, becoming shorter and more strongly inflexed towards centre, with margins more strongly incurved, the innermost segments convex or folded inwards along midrib; corona segments 15mm long, orange-red, interspersed among the inner perianth segments and clustered at centre, ribbed and crenate. Mid-season. Sunproof
Perianth colour variable from yellow to light orange depending on growing conditions.
Nomenclatural Standard: colour print supplied by registrant (WSY0160133)
Etymology: Pronounced ‘seersha’, meaning ‘freedom’ or ‘liberty’ in Irish

‘Seanie’ 2 O-R

(Brian S.Duncan) Brendan Sayers, 2025
‘Bionic’ × ‘Bandesara’
Perianth segments orange, flushed yellow; corona deep orange-red. Early to mid-season.
Etymology: In memory of Seanie Dalton (2002–2023)

‘Seren y Gwanwyn’ 2 Y-O

(Dave Hardy, 2018) Esker Farm Daffodils, 2026
Sdlg no. EF34
Parentage unknown
Fl. forming a double triangle, 114mm wide; perianth segments 42mm long, broadly ovate, blunt, mucronate, spreading, plane, with margins incurved to somewhat hooded at apex, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 20mm long, bowl-shaped, smooth, mouth expanded, ribbed and wavy, with rim minutely crenate.
Nomenclatural Standard: colour print supplied by registrant (WSY0160320)

‘Sjors’ 2 YW-P

(H.M. Meeuwissen) J.A.Delaney, 2026
Parentage unknown
Fl. forming a double triangle, 95mm wide; perianth segments 40mm long, ovate, blunt, scarcely mucronate, light golden yellow, with white at base, somewhat reflexed, plane, with margins incurving, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, more nearly spreading, shouldered at base; corona 35mm long, broad funnel-shaped, angled, opening rose pink, becoming rich salmon pink at maturity, mouth ribbed, flared, lightly frilled and lobed, with rim crenate. Very early. Lightly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0160308)
Etymology: named for Sjors Meeuwissen, son of Hein and Corrine Meeuwissen, specialty Dutch bulb growers

‘Snellebel’ 6 W-W

(Walter J.M.Blom) C.van der Veek, 2026

Sdlg no. Blom MTW

Parentage unknown

Fl. star-shaped, 69mm wide; perianth segments 29mm long, narrowly ovate, acute, white, reflexed, plane, smooth and of heavy substance, overlapping at base only; corona 28mm long, cylindrical, smooth, opening light yellow, becoming white at maturity, mouth flared and lobed, with rim entire. Dwarf. Early. Nomenclatural Standard: colour print supplied by registrant (WSY0160203)

‘Snow Blossom’ 12 W-W

(Theo Sanders) C.van der Veek, 2026

N. cantabricus × ‘Emerald Sea’; sdlg no. TS1001

Fls 3 per stem, star-shaped, 57mm wide, facing upwards; perianth segments 25mm long, narrowly ovate, acute, spreading, plane or with margins somewhat incurved at margins, smooth and of heavy substance, overlapping at base only; corona 9mm long, cup-shaped, broadly ribbed, mouth wavy and a little expanded, with rim entire. Dwarf. Very early. Nomenclatural Standard: colour print supplied by registrant (WSY0160205)

‘Socks with Sandals’ 2 Y-GYY

(F.Veul) J.A.Delaney, 2026

Sdlg no. V7 2Y-Y

Parentage unknown

Fl. rounded, 80mm wide; perianth segments 25mm long, rounded, very broad, truncate, light golden yellow, with slight white mucro, spreading, plane, with margins incurved, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower; corona 20mm long, bowl-shaped, golden yellow, sometimes flushed light orange, with green at base, mouth expanded and very heavily frilled, with rim dentate. Early to mid-season. Sunproof. Nomenclatural Standard: colour print supplied by registrant (WSY0160426)

Etymology: a regular fashion statement donned by the hybridiser!

‘Son-in-law’ 11a Y-Y

(H.M.Meeuwissen) J.A.Delaney, 2026

Parentage unknown

Fl. forming a double triangle, 105mm wide; perianth segments 40mm long, very broadly ovate, truncate, golden yellow, reflexed, plane, with margins incurved, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, more nearly spreading; corona 75mm long, split to more than half its length into six segments, golden yellow, darker in tone than perianth segments, lobed, ribbed and frilled, with rim crenate. Early. Sunproof. Moderately scented. Nomenclatural Standard: colour print supplied by registrant (WSY0160309)

Etymology: named for Jérôme Rousseau, son-in-law of Hein and Corrine Meeuwissen, specialist Dutch bulb growers

‘Split Perfection’ 11a Y-Y

(Brian S.Duncan, 2015) Brian S.Duncan, 2025

N. rupicola × ‘Maria Pia’; sdlg no. 4288

Fl. forming a double triangle, 70mm wide, deep yellow; perianth segments 25mm long, roundish, very broad, prominently mucronate, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate, shouldered at base; corona segments 15mm long, split almost to base into six segments, overlying the perianth segments, shallowly lobed, wavy. Dwarf. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160116)

‘Springhouse’ 11a W-WWP

(Matt Duddy, 2000) Stonehouse Daffodils, 2026

‘White Lion’ open-pollinated; sdlg no. SpHsWB

Fl. forming a double triangle, 84–88mm wide; perianth segments 33–35mm long, broadly ovate, blunt, slightly mucronate, white, spreading, plane, with margins incurved, with midrib showing, of heavy substance, overlapping a quarter; the inner segments narrower, somewhat inflexed; corona 18–20mm long, split more than half into six segments, lobed, frilled and minutely crenate, opening pale yellow, becoming white, with pink blush at rim. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160380)

‘Starstruck’ 10 Y-Y

(Brian S.Duncan) Brian S.Duncan, 2026

N. bulbocodium open-pollinated

Fl. 29mm wide, strongly upwards facing; perianth segments 8mm long, lanceolate, acute, plane, smooth and of heavy substance, separated; corona 8mm long, broad funnel-shaped, ribbed, mouth straight, wavy and very shallowly lobed, with rim entire. Dwarf. Very early. Sun-proof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160230)

Etymology: named for the very upward facing stance

‘Stonebridge Sunrise’ 1 Y-O

(Brian S.Duncan, 2021) Richard Tattersall, 2025

‘Summation’ × ‘Seville Orange’; sdlg no. 5366

Fl. forming a double triangle; perianth segments very broadly ovate, blunt, mucronate, yellow, spreading, shallowly concave, smooth and of heavy substance, overlapping half; the inner segments narrower, more nearly plane, somewhat shouldered at base, slightly inflexed; corona funnel-shaped, angled, mid-orange, mouth straight, even, wavy or lightly frilled, with rim minutely crenate. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160421)

'Sulin' 11a Y-YOO

(J.de Winter) J.A.Delaney, 2026

Parentage unknown

Fl. forming a double triangle, 70mm wide; perianth segments 30mm long, ovate, blunt, prominently mucronate, light golden yellow, reflexed, plane, smooth and of heavy substance, overlapping one-third; the inner segments narrower, more nearly spreading; corona 48mm long, split almost to base into six segments, lobed and frilled, light golden orange, darker in tone towards rim and yellow at base, with rim minutely crenate. Dwarf. Early to mid-season.

Sunproof. Moderately scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0160310)

Etymology: combining elements of the names of Hein and Corrine Meeuwissen's daughters, Suzanne and Linda

'Sutton's Choice' 2 W-P

(Brian S.Duncan) C.van der Veek, 2026

'Amazing Grace' × 'Cape Point'; sdlg no. 3333

Fl. rounded, 105mm wide; perianth segments 45mm long, roundish, very broad, blunt or somewhat truncate, scarcely mucronate, spreading, plane, with margins incurving, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 28mm long, cup-shaped, narrowly ribbed, mouth straight and a little wavy, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160207)

'Suzanne' 2 Y-PPP

(C.P.J.Breed) J.A.Delaney, 2026

'Rosy Wonder' × 'Filoli'; sdlg no. CB 02

Fl. forming a double triangle, 93mm wide; perianth segments 40mm long, broadly ovate, blunt or slightly truncate, mucronate, opening ivory white, maturing to creamy light yellow, spreading, plane, with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 30mm long, funnel-shaped, angled, salmon pink, with yellow at base, mouth straight, ribbed, frilled and lobed, with rim somewhat flanged, crenate. Mid-season to late. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160339)

Etymology: named for Suzanne Breed-Kamsek, daughter of hybridiser

'Sweet Susie' 2 W-WPP

(Matt Duddy, 2010) Stonehouse Daffodils, 2026

'Pink Charm' × 'Rainbow'; sdlg no. MS10-48

Fl. forming a double triangle, 86–90mm wide; perianth segments 36–40mm long, ovate, blunt, scarcely mucronate, spreading, plane, with margins incurving, smooth and of heavy substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona 18–22mm long, cup-

shaped, angled, white, with a broad band of deep salmon pink at rim, mouth expanded, ribbed and wavy, with rim crenate. Early. Sunproof. Sweetly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0160386)

Etymology: named in honour of the hybridiser's mother

'Taff Jones' 3 Y-YYO

(Brian S. Duncan, 2018) Colin Jones, 2025

'Burning Ring' × 'Influence'; sdlg no. 5264

Fl. 115mm wide; perianth segments 46mm long; corona 15mm long. Mid-season.

Etymology: in honour of registrant's father

'Tainted Love' 4 W-O/YW

(Thijs Langeveld) J.A.Delaney, 2026

Sdlg no. TL80

Parentage unknown

Fl. 110mm wide; perianth and other petaloid segments in several whorls, white; the outer whorl 40mm long, broadly ovate, slightly mucronate, reflexed, plane or with margins incurved, smooth and of heavy substance, overlapping half; the inner whorls narrower, strongly inflexed towards centre, irregularly folded inwards along midrib; the corona segments 28mm long, interspersed among the middle and inner whorls of perianth segments and clustered at centre, corona segments variably "sherbet" orange or light yellow, with patches or bands of white, heavily frilled, obscurely lobed, with rim minutely crenate. Mid-season. Sunproof. Moderately scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0160311)

'Taralga Reales' 8 Y-O

(Keira Bulbs, 2022) C.Higgins, 2026

Sdlg no. KH-BM-2025

Parentage unknown

Fls 2–3 per stem, rounded, 30mm wide; perianth segments 15mm long, roundish, very broad, blunt or truncate, spreading, plane or with margins a little incurved and notched, smooth and of heavy substance, overlapping half or more; the inner segments narrower; corona 4mm long, disc-shaped, smooth, mouth straight, even and shallowly lobed, with rim entire. Dwarf. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160290)

Etymology: a dedication to a small town in Australia, and Reales, the Spanish coins used for currency when Australia was first settled

'Tee Zee' 2 Y-O

(Nial Watson, 2010) Ringhaddy Daffodils, 2026

'Happy Valley' × 'Ruddy Duck' unregistered; sdlg no. 1095

Fl. forming a double triangle, 113mm wide; perianth segments 47mm long, roundish, very broad, blunt, yellow 14A, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner

segments narrower, with midrib showing; corona 36mm long, cylindrical, angled, orange (23A), mouth flared, even, with rim notched. Mid-season. Sunproof. Slightly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0160251)

‘Tender Love’ 4 W-Y

(Thijs Langeveld) J.A.Delaney, 2026

Sdlg no. TL101

Parentage unknown

Fl. rounded, 110mm wide; perianth segments in several whorls, white; the outer whorl 40mm long, broadly ovate, blunt, reflexed, plane or with margins incurved, smooth and of heavy substance, overlapping one-third; the inner whorls inflexed, margins incurved or somewhat folded inwards along midrib; corona segments 27mm long, deep golden yellow (more orange in cooler weather), interspersed among the inner perianth segments and clustered at centre, frilled. Mid-season. Sunproof. Sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0160312)

‘The Hoe’ 2 W-O/R

(Brian S.Duncan, 2021) Pascal Kenna, 2025

‘Summation’ × ‘Seville Orange’; sdlg no. 5368

Mid-season.

Etymology: named for the grandfather of the registrant’s partner

‘The Jolly Jeffrey’ 2 Y-YYR

(Brian S.Duncan, 2020) Jeffrey Harold Jones, 2025

‘Burning Ring’ × ‘Finest Cut’; sdlg no. 5387

Fl. 100mm wide; perianth segments 38mm long, yellow; corona 16mm long, yellow, deeper in tone than the perianth segments, with a sharply defined red rim. Mid-season

‘Thomasina’ 2 YYW-P

(Brian S.Duncan, 2017) Grace Lavin, 2026

Sdlg no. 5253

Parentage unknown

Fl. forming a double triangle; perianth segments ovate, blunt, slightly mucronate, mid-yellow, touched white at base, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping one-third; corona funnel-shaped, angled, pink, darker in tone towards rim, mouth straight, even and flared, with rim crenate. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0160235)

Etymology: named for registrant’s brother

‘Tiny Tuba’ 10 Y-Y

(Keira Bulbs) C.van der Veek, 2026

Sdlg no. KB BHG 1-18

Parentage unknown

Fl. 63mm wide; perianth segments 15mm long, lanceolate, acute, slightly reflexed, plane, with margins slightly incurved; corona 25mm long, broad

funnel-shaped, ribbed, mouth wavy and straight, with rim entire. Dwarf. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0160210)

‘Toscane’ 1 W-Y

(Clive Postles) C.van der Veek, 2026

Sdlg no. 353

Parentage unknown

Fl. forming a double triangle, 107mm wide, facing downwards; perianth segments 44mm long, broadly ovate, blunt, mucronate, spreading, plane, with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 55mm long, cylindrical or narrow funnel-shaped, smooth, mouth flared and even, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160214)

‘Trimbelle’ 6 W-WPP

(Michael Berrigan, 2014) Michael Berrigan, 2026

‘Stony Brook’ × ‘Katrina Rea’; sdlg no. 08-56-LR1

Fl. rounded, 84mm wide, facing downwards; perianth segments 27mm long, roundish, very broad, blunt to slightly truncate, pure white, reflexed, plane, creased and of heavy substance, overlapping more than half; the inner segments narrower, shouldered at base; corona 19mm long, broad funnel-shaped, smooth, light pink, with white at base and a broad band of ‘flamingo’ pink at rim, mouth expanded, ribbed and wavy, with rim crenate. Early. Sun-proof.
Nomenclatural Standard: colour print supplied by registrant (WSY0160282)

Etymology: a river in Wisconsin

‘Tropical Sensation’ 4 Y-R

(C.van der Veek) C.van der Veek, 2026

Sdlg no. F766

Parentage unknown

Fl. 106mm wide; perianth and other petaloid segments in several whorls, yellow, paler along midrib; the two outer whorls 47mm long, broadly ovate, truncate, scarcely mucronate, spreading, plane, with margins incurving, smooth and of heavy substance, overlapping half or more; the inner whorls successively shorter and more inflexed towards centre, shallowly concave; corona segments 20mm long, interspersed among the inner perianth segments and clustered at centre, red, frilled. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0160216)

‘True Love’ 4 Y-W

(Thijs Langeveld) J.A.Delaney, 2026

Sdlg no. TL50

Parentage unknown

Fl. rounded, 110mm wide; perianth and other petaloid segments in three or more whorls, light lemon yellow; the outer segments 40mm long, broadly ovate, mucronate, reflexed, plane, with

margins incurved, smooth and of heavy substance, overlapping one-third; the inner whorl shouldered at base; the inner-most segments shorter and successively more inflexed towards centre, folded or crumpled; corona segments 27mm long, opening rich salmon pink, becoming pale greenish white at maturity, interspersed among the perianth segments and clustered at centre, obscurely lobed, crumpled to frilled, with rim crenate. Mid-season to late. Sunproof. Nomenclatural Standard: colour print supplied by registrant (WSY0160313)
Etymology: the seedling number TL has been affectionately called "true love" in the field

'Veronica Lynn' 3 W-YYO

(C.Higgins, 2012) C.Higgins, 2026
'Top of the Hill' × 'Spindletop'; sdlg no. 12-29
Fl. forming a double triangle, 83mm wide; perianth segments 32mm long, roundish, very broad, slightly truncate, mucronate, white, spreading, plane, with margins slightly incurved, smooth and of heavy substance, overlapping half or more; the inner segments ovate, blunt, scarcely mucronate, shouldered at base; corona 10mm long, bowl-shaped, smooth, yellow, with a very narrow band of orange at rim, mouth expanded, ribbed, wavy to lightly frilled, with rim crenate. Late.
Nomenclatural Standard: colour print supplied by registrant (WSY0160291)
Etymology: named for registrant's niece who herself was named after Veronica from the Archie Comic Books

'Wasteland Pearl' 2 W-YPY

(Brian S.Duncan) C.van der Veek, 2026
Sdlg no. 3593
Parentage unknown
Fl. forming a double triangle, 98mm wide; perianth segments 41mm long, broadly ovate, blunt, spreading, plane, with margins incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 25mm long, funnel-shaped, smooth, mouth expanded and wavy, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0160218)

'Westenwind' 1 Y-Y

(Brian S.Duncan) C.van der Veek, 2026
'Goldfinger' × 'Disquiet'; sdlg no. 4323
Fl. forming a double triangle, 100mm wide; perianth segments 38mm long, ovate, blunt, mucronate, spreading, plane, with margins incurving, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 42mm long, funnel-shaped, smooth, mouth flared and even, with rim notched. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0160221)

'Westerpark' 1 Y-Y

(Brian S.Duncan) Brian S.Duncan, 2026
'Goldfinger' × 'Disquiet'; sdlg no. 4324
Fl. forming a double triangle; perianth segments broadly ovate, blunt, yellow, with pale scarce mucro, spreading, shallowly concave, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate, shouldered at base; corona funnel-shaped, smooth, mouth flared, broadly ribbed and shallowly lobed, with rim minute crenate. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0160223)

'Westerstorm' 1 Y-Y

(Brian S.Duncan) C.van der Veek, 2026
'Goldfinger' × 'Disquiet'; sdlg no. 4322
Fl. forming a double triangle, 106mm wide; perianth segments 44mm long, roundish, very broad, blunt, scarcely mucronate, spreading, plane, with margins incurved towards apex, smooth and of heavy substance, overlapping half; the inner segments narrower, ovate, shouldered at base; corona 46mm long, cylindrical, smooth, mouth slightly constricted at waist, flared, with rim rolled and minutely crenate. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0160225)

'White Wash' 2 W-W

(Graeme & Faith Miller, 2012) Graeme & Faith Miller, 2026
'Haoma' × 'Landy Diana' [unreg]; sdlg no. GM12-30
Fl. forming a double triangle, 108mm wide, white 157B; perianth segments 43mm long, broadly ovate, blunt, slightly mucronate, spreading, plane, with margins slightly incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower; corona 38mm long, funnel-shaped, mouth expanded, ribbed, even, irregularly lobed, with rim flanged and dentate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0160396)

'Wicked' 9 W-GYY

(Nial Watson, 2009) Ringhaddy Daffodils, 2026
'Torr Head' OP hybrid × 'Frost in May'; sdlg no. W815
Fl. rounded, 64mm wide; perianth segments 24mm long, roundish, very broad, blunt, slightly mucronate, white, reflexed, plane, with margins a little incurved at apex, smooth and of heavy substance, overlapping half or more; corona 6mm long, disc-shaped, ribbed, yellow 7A, with green 144C at base, mouth expanded, lightly frilled and shallowly lobed, with rim crenate. Late. Sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0160246)

'Wild Romance' 8 W-P

(Brian S.Duncan) C.van der Veek, 2026
'Soprano' × *N. dubius*; sdlg no. 3851
Fls up to 5 per stem, 40mm wide; perianth segments 16mm long, roundish, blunt, slightly reflexed, plane

or with margins wavy, smooth and of heavy substance, overlapping half; the inner segments more nearly plane; corona 9mm long, cup-shaped, angled, mouth straight, broadly ribbed, with rim entire. Dwarf. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0160227)

'Wild Tropics' 2 Y-R

(Brian S.Duncan, 2014) Brian S.Duncan, 2025
'Tropical Heat' × 'Wild Rover'; sdlg no. 4400
Fl. forming a double triangle, 105mm wide; perianth segments 41mm long, roundish, very broad, blunt, mucronate, deep yellow, spreading, plane, with margins incurved at apex, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 25mm long, funnel-shaped, smooth, rich orange-red, mouth straight, broadly ribbed, lightly frilled, with rim notched. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0160076)

'Winter Margarita' 1 YYW-WWY

(J.de Winter) J.A.Delaney, 2026
Parentage unknown
Fl. forming a double triangle, 110mm wide; perianth segments 45mm long, ovate, scarcely mucronate, light lemon yellow, white at base, spreading, plane, with margins incurved, with midrib showing, of heavy substance, overlapping one-third; the inner segments narrower, shouldered at base; corona 55mm long, funnel-shaped, angled, white, with a sharply defined brilliant lemon-gold band at rim, mouth flared, broadly ribbed and frilled, with rim notched. Mid-season to late. Sunproof. Lightly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0160372)
Etymology: 'Winter' for the hybridiser and 'Margarita' for the margarita-coloured petals and defined rim

'Winter Starlet' 11a Y-Y

(J.de Winter) J.A.Delaney, 2026
Parentage unknown
Fl. star-shaped, 67mm wide, golden yellow; perianth segments 30mm long, ovate or obovate, truncate, slightly mucronate, reflexed, plane, with midrib showing, of heavy substance, overlapping at base only; the inner segments ovate, blunt or acute, spreading, with margins wavy or incurving; corona 50mm long, split almost to base into six segments, each overlying a perianth segment forming an outer and an inner whorl of three, obscurely lobed, margins wavy to lightly frilled, with rim minutely crenate. Dwarf. Early to mid-season. Sunproof. Moderately scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0160314)

'Wonder Wheel' 2 Y-YYO

(Brian S.Duncan) C.van der Veek, 2026
'Online' × 'Causeway Sunser'; sdlg no. 09-37
Fl. rounded, 100mm wide, facing upwards; perianth segments 41mm long, roundish, very broad, truncate, slightly mucronate, slightly reflexed, plane, somewhat hooded at apex, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base, scarcely mucronate; corona 26mm long, funnel-shaped, smooth, mouth straight, wavy to very lightly frilled, with rim entire. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0160229)

'Woodland of Weir' 9 W-YYO

(Gerard Knehans Jr, 2010) Gerard Knehans Jr, 2026
'Mountain Poet' × 'Onomatopoeia'; sdlg no. 04-48-1
Fl. 65mm wide; perianth segments 20mm long, ovate, blunt, mucronate, white, reflexed, plain or with margins incurving, smooth and of heavy substance, overlapping half; the inner segments narrower, more nearly spreading, scarcely mucronate; corona 16mm long, disc-shaped, smooth, yellow, with a narrow band of orange flecked white at rim, mouth straight, ribbed, lightly frilled, with rim crenate. Mid-season to late.
Nomenclatural Standard: colour print supplied by registrant (WSY0160283)
Etymology: place name from Edgar Allan Poe's poem, Ulalume

'Yo Yo Jo' 2 W-PPW

(John R.Reed) J.A.Delaney, 2026
Sdlg Reed 86-40-04 × 'Verran Rose'; sdlg no. 98-51 #04
Fl. forming a double triangle, 77mm wide; perianth segments 32mm long, ovate, blunt, slightly mucronate, white, spreading, plane, creased, with midrib showing, of heavy substance, overlapping one-third; the inner segments narrower, shouldered at base; corona 26mm long, funnel-shaped, smooth, pink, blending to white towards the rim, mouth flared, ribbed and wavy, with rim crenate. Mid-season to late. Sunproof. Lightly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0160315)
Etymology: named in honour of Jo-Anne van den Berg-Ohms, dear friend, colleague and fellow narcissophile. Jo-Anne's father affectionately called her 'Jo Jo', pronounced 'yo yo'

'Zoey's Choice' 2 Y-GWP

(John R.Reed, 2007) J.A.Delaney & Julie Snyder Martin, 2026
Sdlg ('Ruby Red' × 'Clouds Rest') × 'Excimeter'; sdlg no. 2001-151-1
Fl. rounded, 82mm wide; perianth segments 38mm long, roundish, very broad, truncate, buttery yellow, spreading, plane, with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 19mm

long, bowl-shaped, smooth, opening buttery yellow with red rim, becoming white with green at base and a broad band of pink at the rim at maturity, mouth expanded, ribbed and frilled, with rim crenate. Mid-season to late. Sunproof. Lightly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0160318)
Etymology: named in memory of Julie Snyder Martin's dear dog companion, Zoey, whose eyes were as novel as this flower

'Zorro' 1 Y-Y
(Withheld, 2006) Withheld 2026
'Ethos' × 'Impeccable'; sdlg no. 06-34
Fl. forming a double triangle, 115mm wide; perianth segments broadly ovate, blunt, slightly mucronate, spreading, plane, with midrib showing, of membranaceous substance, overlapping half; the inner segments a little narrower, shouldered at base; corona funnel-shaped, smooth, mouth flared and even, with rim crenate. Early to mid-season. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0160262)

ADDITIONS AND AMENDMENTS TO THE INTERNATIONAL DAFFODIL REGISTER (2008) AND SUPPLEMENTS

The compilers are grateful to those who have drawn attention to omissions from the *International Daffodil Register* and its Supplements, pointed out errors, suggested changes or supplied new information.

Amendments to cultivar names, divisions, colour codes, parentages, originators and registrants will usually be published in an annual Supplement. Amendments to descriptions will usually only be published in a new edition of the Register. However, all amendments will be published on the internet, in a regular updating of the Register posted at: www.rhs.org.uk/plants/plantsmanship/plant-registration/Daffodil-cultivar-registration

Amendments to the *Register* (2008)

N. 'Pipit' Add: ADS Wister Cup 2026

Amendments to the *List of Originators & Registrants*

It is with much sadness that we report the deaths of the following daffodil hybridisers and registrants:

HAMM	Joe Hamm d. 2026
JACKSON	David Jackson d. 2025
BROGDEN	Spud (M.E.) Brogden d. 2025
O'BRIEN	Seamus O'Brien d. 2025

The following are additions to the list:

BROGAN	Michael Brogan, County Mayo, Ireland
DUDDY	Matt Duddy, Volant, Pennsylvania
DUNCAN	Elizabeth C Duncan, Omagh, Northern Ireland
DUNCAN	Martin Duncan, Sussex, England
DUNCAN	William, Gotein-Libarrenx, France
EARLEY	Paul Earley, Straffan, Co. Kildare
HAMILTON	Tracey Mackie, Co. Down, Northern Ireland
JONES	Colin Jones, Salterbridge, Ireland
JONES	Jeffrey Harold Jones, Cabra, Ireland
KENNA	Pascal Kenna, Tullamore, Ireland
LANGEVELD	Thijs Langeveld, The Netherlands
LAVIN	Grace Lavin, County Mayo, Ireland
MAXWELL	David Maxwell, Belfast, Northern Ireland
MCCONNELL	David McConnell, Omagh, Northern Ireland
O'MAHONY	Peter O'Mahony, Cork, Ireland
PANNILL	Alice Pannill, Florida, USA
RHSI	Royal Horticultural Society of Ireland

STEPHENSON	Eleanor Stephenson, London, UK
STONEHOUSE DAFFODILS	Volant, Pennsylvania
TATTERSALL	Richard Tattersall, Omagh, Northern Ireland
VAN DER HORST	Ita van der Horst, Cork, Ireland
WALLS	Jayne Walls, Cambridgeshire, England
WASS	Neal Wass, Missouri, USA
WILLIAMS	Judith Gail Williams, Hayes, VA, USA

Amendments to previous *Supplements*

1st Supplement

‘Hollowbridge’ Add: AM(e) 2026

6th Supplement

‘Solar Eclipse’ Add: AM(e)

10th Supplement

‘Pom Pom Rose’ Amend colour code to: Y-P
Amend sdlg no. to: 97/51
Amend seed parent to: ‘Baldock’

11th Supplement

‘Wopollo’ Add: AM(e)

12th Supplement

‘Hilary’s Choice’ Add: AM(e)
‘Interactive’ Add: PC

14th Supplement

‘Free Bird’ Amend division to: Div. 7

17th Supplement

‘Starina’ Amend sdlg no. to: 3945-1-18
Amend first flowering date to: 2018

18th Supplement

‘Hunter Dawn’ Amend division to: Div. 12
‘Pacific Hunter’ Amend division to: Div. 12
‘Saw Brier’ Amend colour code to: W-WWP

RHS RECOMMENDED: AWARD OF GARDEN MERIT REVIEW

Following a review of RHS Recommended: Award of Garden Merit daffodils, the award has been withdrawn from the following cultivars as they are no longer commercially available in the U.K., and, therefore, do not meet the criteria for the award.

The cultivar name is followed by the daffodil horticultural division [square brackets] and the year of the award (round brackets). For further information on the RHS Recommended: Award of Garden Merit process **visit** <https://www.rhs.org.uk/plants/trials-awards>

‘Barnum’ [1] (1998),
‘Boulder Bay’ [2] (2001)
‘Breezand Tristar’ [1] (2014)
‘Carib Gipsy’ [2] (1998)
‘Cornish Vanguard’ [2] (2007)
‘Crofty’ [6] (2023)
‘Dispatch Box’ [1] (1999)
‘Freedom Stars’ [11a] (2007)
‘Gold Convention’ [2] (1995)
‘Gold Ingot’ [2] (2007)
‘Gold Medal’ [1] (2010)
‘Irish Minstrel’ [2] (1993)
‘Jenny Out’ [7] (2001)
‘Mission Bells’ [5] (2001)
‘Norte Dame’ [2] (1999)

‘Penkivel’ [2] (2005)
‘Punchline’ [7] (2005)
‘Purbeck’ [3] (2001)
‘Rising Star’ [7] (2003)
‘Yellow Pearl’ [7] (2011)
‘Skater’s Waltz’ [6] (2014)
‘Spring Essence’ [2] (2008)
‘Torianne’ [1] (2007)
‘Tuesday’s Child’ [5] (1995)
‘Tyrone Gold’ [1] (1998)
‘Unique’ [4] (2002)
‘Vernal Prince’ [3] (2001)
‘Verona’ [3] (1993)
‘Wheal Coates’ [7] (2001)
‘Wimbledon County Girl’ [2] (2009)

CYCLAMINEUS DAFFODIL TRIAL 2025–2026

After trial the following cultivars were awarded the RHS Recommended: Award of Garden Merit.

The cultivar name is followed by the hardiness rating (round brackets), the year of award and the publication in which details first appeared [square brackets]:

'Carice'	RHS: (H6) 2026	[10 th]
'Cha-cha'	RHS: (H6) 2026	[Register 2008]
'Pre Party'	RHS: (H6) 2026	[13 th]
'Stella Corscadden'	RHS: (H6) 2026	[9 th]
'Pipit'	RHS: (H6) 2026	[Register 2008]

HORTICULTURAL CLASSIFICATION

Whether of wild or cultivated origin, once a selection has been distinguished by a cultivar name it should be assigned to Divisions 1–12. Daffodils distinguished solely by botanical name should be assigned to Division 13.

Notes

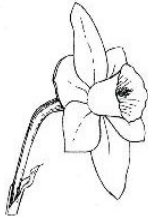

1. The characteristics for Divisions 5 to 10 are given for guidance only; they are not all necessarily expected to be present in every cultivar assigned to those divisions
2. Divisions 12 and 13 are not illustrated owing to the wide variation in shape and size between the flowers involved

DIVISION 1 - TRUMPET DAFFODIL CULTIVARS

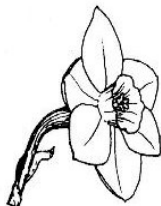

One flower to a stem; corona ("trumpet") as long as, or longer than the perianth segments ("petals")

DIVISION 2 - LARGE-CUPPED DAFFODIL CULTIVARS

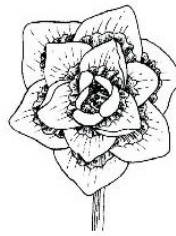

One flower to a stem; corona ("cup") more than one-third, but less than equal to the length of the perianth segments ("petals")

DIVISION 3 - SMALL-CUPPED DAFFODIL CULTIVARS

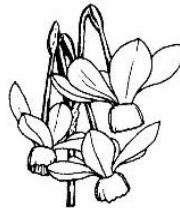

One flower to a stem; corona ("cup") not more than one-third the length of the perianth segments ("petals")

DIVISION 4 - DOUBLE DAFFODIL CULTIVARS

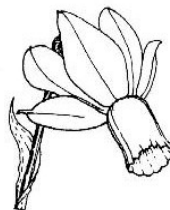

One or more flowers to a stem, with doubling of the perianth segments or the corona or both

DIVISION 5 - TRIANDRUS DAFFODIL CULTIVARS

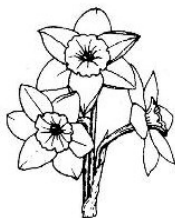

Characteristics of *N. triandrus* clearly evident: usually two or more pendent flowers to a stem; perianth segments reflexed

DIVISION 6 - CYCLAMINEUS DAFFODIL CULTIVARS

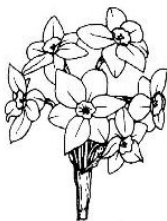

Characteristics of *N. cyclamineus* clearly evident: one flower to a stem; perianth segments significantly reflexed; flower at an acute angle to the stem, with a very short pedicel ("neck")

DIVISION 7 - JONQUILLA AND APODANTHUS DAFFODIL CULTIVARS

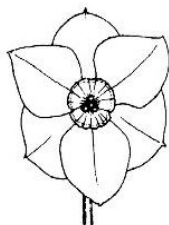

Characteristics of Sections Jonquilla or Apodanthi clearly evident: one to five (rarely eight) flowers to a stem; perianth segments spreading or reflexed; corona cup-shaped, funnel-shaped or flared, usually wider than long; flowers usually fragrant

DIVISION 8 - TAZETTA DAFFODIL CULTIVARS

Characteristics of Section Tazettae clearly evident: usually three to twenty flowers to a stout stem; perianth segments spreading not reflexed; flowers usually fragrant

DIVISION 9 - POETICUS DAFFODIL CULTIVARS

Characteristics of *N. poeticus* and related species clearly evident; perianth segments pure white; corona very short or disc-shaped, not more than one-fifth the length of the perianth segments; corona usually with a green and/or yellow centre and red rim, but sometimes wholly or partly of other colours; anthers usually set at two distinct levels; flowers fragrant

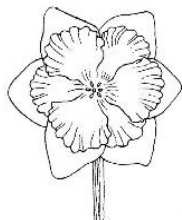

DIVISION 10 - BULBOCODIUM DAFFODIL CULTIVARS

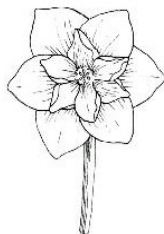

Characteristics of Section Bulbocodium clearly evident: usually one flower to a stem; perianth segments insignificant compared with the dominant corona; anthers dorsifixed (ie attached more or less centrally to the filament); filament and style usually curved

DIVISION 11 - SPLIT-CORONA DAFFODIL CULTIVARS

Corona split - usually for more than half its length

a) Collar Daffodils
Split-corona daffodils with the corona segments opposite the perianth segments; the corona segments usually in two whorls of three

b) Papillon Daffodils
Split-corona daffodils with the corona segments alternate to the perianth segments; the corona segments usually in a single whorl of six

DIVISION 12 - OTHER DAFFODIL CULTIVARS

Daffodil cultivars which do not fit the definition of any other division

DIVISION 13 - DAFFODILS DISTINGUISHED SOLELY BY BOTANICAL NAME
