

# The International *Delphinium* Register Supplement 2000-2001

By Dr A. C. Leslie – International *Delphinium* Registrar

The following list contains the delphinium cultivar and cultivar-group names, which have been registered between 1<sup>st</sup> November 2000 and 31<sup>st</sup> October 2001. Raisers and introducers of new delphiniums are urged to ensure that the names of all their plants have been registered.

Registration forms can be obtained from the International *Delphinium* Registrar, Royal Horticultural Society's Garden, Wisley, Woking, Surrey GU23 6QB, by emailing [delphinium@rhs.org.uk](mailto:delphinium@rhs.org.uk) or from the RHS website at:

<https://www.rhs.org.uk/plants/plantsmanship/plant-registration/Delphinium-cultivar-registration>

There is no fee for registration or for the Registration Certificate (when this is requested).

In the list below R = raiser, H = hybridiser, G = person who grew the plant to its first flowering, S = selected by, N = person naming the plant, I = introducer, REG = registrant.

Colour codes such as '85D' or '95D' refer to the RHS Colour Chart (1966, reprinted 1986, 1995, 2001).

## 'Blondie' cv.

(Selected pink seedling (♀) × 'Our Deb') H (1996), G (1997), N (1999), I (2000): J. H. Barrington REG: 2001.

Stems medium (1.55m). Spikes 72cm, tapering at apex, with a few laterals of medium vigour. Fls fully double, 80mm wide, rich creamy yellow with no eye; spurs 21mm long; pedicels 83mm long.

'**Plagu Blue**' cv. ('Imp' (♀) × 'Moody Blue') H (1990) & G (1991): K. Kunishi N (1994) & I (1995): Japan Tobacco Inc. REG: K. Kunishi, 2001.

Stems short (1.48m). Lvs ciliate, dark green. Spikes 70cm, very lax, tapering slightly to apex, with 4 – 5 strong laterals. Fls single, 50mm wide, vivid purplish blue (99B), with a well-defined green spot near the tip on the outer surface; eye mainly vivid purplish blue (99B), with yellow hairs; spurs 13.8mm long; pedicels 83mm long. Belladonna. (Standard: colour print provided by registrant (WSY0030176)).

'**Plagu Light Purple**' cv. (Sport from 'Plagu Blue') First propagated (1995), N (1997) & I (1998): Japan Tobacco Inc. REG: K. Kunishi, 2001.

Stems medium (1.5m). Lvs ciliate, dark green. Spikes 68cm, tapering slightly to apex, very lax, with 4 – 5 strong laterals. Fls single, 50mm wide, vivid violet (89B), with a well-defined green spot near the tip on the outer surface; eye mainly vivid violet (89B), with some yellow hairs; spurs 15mm long; pedicels 90mm long. Belladonna. (Standard: colour print provided by registrant (WSY0030177)).

'**Royal Ascot**' cv. (Un-named pink seedling × un-named pink seedling hybrid). H: Dr S. Bassett, 1998 G (1989), N (1999) & REG (2001): L. J. P. Cain.

Stems medium (1.5m). Spikes c.1.0m, tapering to apex, with c.4 laterals. Fls stem-double, 75mm wide, pale pink, deepening to the outer edge; eye light brown. (Standard: colour print provided by registrant (WSY0029674)).

'**Walter Benjamin**' cv. (Parentage unknown). G (1996) & N: H. Wilkins I & REG: Woodfield Bros, 2001.

Stems medium (1.5m). Spikes c.1.0m, tapering to apex, with c.6 vigorous laterals. Fls semi-double, 70mm wide, mid blue, with a prominent mid blue and black eye; spurs 40mm long; pedicels 90mm long. (First published in Woodfield Bros catalogue, 2001)
