

APPLICATION FOR REGISTRATION OF A CLEMATIS NAME

Registration should occur before a new name is published or disseminated in any other way. There is no charge for registration. This form, duly completed including the Personal Data Statement on page 3, should be returned to **Duncan Donald, RHS International Registrar, 16 Midtown of Inverasdale, Poolewe, Wester Ross, Scotland IV22 2LW, UK (or, via e-mail, to clematisregistrar@rhs.org.uk)**. Forms are also available online at www.rhs.org.uk/Plants/Plant-science/Plant-registration. If you wish to receive a free Certificate of Registration, please indicate this where requested below.

Names already listed in *The International Clematis Register & Checklist* or its *Supplements* must not be re-used and are not acceptable for registration. Names proposed should also be in accordance with the 9th edition (2016) of the *International Code of Nomenclature for Cultivated Plants*. Advice or details regarding these publications are available from the International Registrar.

Accepted registrations will eventually be published in the *Clematis Register* or its *Supplements*, but registrants should be aware that, until a name is published, it has no nomenclatural priority. Therefore, following registration, registrants may wish to ensure that the name (accompanied by a description) is published as soon as possible: if this is done, please inform the Registrar.

Proposed name (1st choice) (2nd choice)

Derivation: Hybrid → Seed parent (f)

→ Pollen parent (m)

Suggested Cultivar Group

Selection from (species)

Mutation or sport. Name of parent

Chance seedling

Hybridized/Selected by: Name Year

Address

First flowered by: Name Year

Address

Named by: Name Year

Address

Commercial introducer: Name Year

Address

Name and address of person/nursery/company registering name

As Registrant, I am willing for the above address details to be held in a database and, as appropriate, to be published in association with this registration (signed) Registration Certificate required Yes No

Has the name appeared in a **dated** publication, **with** a description? If so, give details of the **first** such publication (if possible, please send a copy)

Give derivation of name if not evident..... If name is not English, give translation..... Give name in original script if latter is not Roman

Give any trade designations ('commercial synonyms')

or trademarks associated with the name

Details of any awards

Details of any Plant Patent or Plant Breeders' Rights' cover

If possible, please supply a good colour photograph and a pressed specimen. These, with this form, will enable an accurate description to be drawn up and provide a definitive 'standard portfolio' for future reference. **The copyright of any images will remain with the registrant. If you are not the copyright holder or have further questions, please seek advice from the registrar.** Herbarium (pressed) specimen sent Yes No To follow Photo(s) sent Yes No Are you willing for these photos/specimens to be deposited in the RHS Herbarium at Wisley Garden for a standard portfolio for this cultivar? Yes No I confirm I am the copyright holder and agree to the ICRA for Clematis making use of these images for any scientific or educational purpose in relation to the registration and correct naming of plants, whether through electronic or printed media.

Signature: Date:

[PAGE 1]

DESCRIPTION: where possible, colour references should be given from the RHS Colour Chart (please indicate which edition was used: 1966, 1986, 1995, 2001, 2007 or 2015). Please tick or check the appropriate boxes. In some categories more than one box may be ticked e.g. flowers single and double. Please indicate whether measurements are metric (preferable) or imperial.

FLOWERS: Hermaphrodite (stamens and styles present in the same flower)
 Separate male and female flowers on the same plant Male and female flowers on separate plants
 Single Semi-double Double Diameter

Flat or flattish Urn-shaped (sepals apparently joined except at tips)
 Bell-shaped → indicate if broadly or narrowly so
 Upward- or outward-facing Nodding or drooping
 Borne singly If more than one, describe
 Scented → describe scent Not scented

SEPALs: Number Colour (describe outside if different from inside)
.....
Length Width (at widest point) Narrowly elliptic Elliptic Broadly elliptic
 Thick and fleshy Long-pointed Blunt Wavy-margined Tip recurved
 Overlapping Touching With gaps between
(other characteristics)

STAMINODES: Present → Length Colour Absent

STAMENS: Colour of filaments Colour of connectives (if different)

Colour of anthers..... FRUIT-HEADS: Persistent Not persistent

HABIT: Evergreen Semi-evergreen Deciduous Climber (vine) Non-climber → Herbaceous, or Woody
stem : Height Colour when young Colour when mature

LEAVES: Simple Dividedleaflets Leaves further divided

Leaf or leaflet margin: Entire Regularly toothed Irregularly toothed Crenate Wavy
 Other

Colour of mature leaves: Pale green Mid-green Dark green Grey-green Blue-green
 Other

Colour of young leaves: Green Brownish Purplish Reddish Other

FLOWERING TIME (months of year) (state if outdoors under glass)

flowers: Produced on current year's growth Produced on previous year's growth (old wood)

INDUMENTUM (downy hairs) present on Stem Underside of leaves Outside of sepals
 Inside of sepals Filaments Anthers Indumentum colour

HARDINESS (please specify classification used, e.g. USDA or RHS)

FURTHER DISTINGUISHING CHARACTERS (e.g. of buds, pollen, stigma or style; roots fleshy or fibrous; seed tail plumose or not)

FOR THE USE OF THE INTERNATIONAL REGISTRAR ONLY

What we do with your personal data (Personal Data Statement)

As defined by the UK Data Protection Act (1998), in completing and sending this form as an individual you are supplying the Royal Horticultural Society as International Cultivar Registration Authority (ICRA), which is a voluntary non-statutory organisation, with information that identifies you (“personal data”). This does not apply to registrations submitted in the name of an organisation, such as a commercial nursery.

To register your plant requires the ICRA to retain these personal data and in submitting this registration form you are agreeing to the storage of the data that relates to you. This information will be kept indefinitely and for the purpose detailed below. The ICRA undertakes to hold your personal data securely and not to make it available to anyone else during your lifetime, except where required for the purpose of cultivar registration.

Completion of the registration process requires the ICRA to publish information about newly registered plant names in print. The RHS ICRA's do this by means of a Register, or its supplements (usually produced annually) which are printed and distributed, as well as being made available online on the RHS website. These publications contain either just the name or the name and an abbreviated address of the registrant. When known, the abbreviated address will consist of just the home town, county/state and country.

Occasionally we share data on registered plant names with others involved with cultivar registration, including those outside the European Union. Should this occur we will try to ensure there is an adequate level of protection in such countries in relation to processing personal data.

Under the UK Data Protection Act you have the choice to opt out of your personal data being used by the ICRA. Please read the statements below and indicate your preference in each case.

I give permission for the RHS to (* Please delete as appropriate):

- Include my name in published outputs from the Register database, and make it available through the RHS (YES/NO*)
- Include my abbreviated address (as home town, county/state, country) in published outputs from the Register database, and make it available through the RHS website (YES/NO*)
- Share relevant personal data relating to this application with other organisations involved with cultivar registration (including those outside of the EU) (YES/NO*)

Signed: Date:

In addition this form may contain personal data about other people involved in the origin and development of the plant. Where possible, you should have obtained their permission to include their personal data if they are still living at the time of this application and these data are not already in the public domain.

Please indicate below whether you have obtained these people’s agreement for you to supply their personal data:

I confirm that the following individuals have agreed to me providing their details as listed in this registration application, as indicated below (* Please delete either element if appropriate)

..... (Name* + abbreviated address*)
