

## ABBREVIATIONS

ADS Data Bank	American Daffodil Society Data Bank, now succeeded by Daffseek.org. Where the ADS Data Bank is given as rationale for a date, the inference is that the information was drawn from journals, catalogues, correspondence and breeders' notes that its creator, Tom Throckmorton, made a point of collecting. Unfortunately for today's wish to have references for all data, Dr Throckmorton was a self-confessed "clean desk man", who tended to throw things away when he had dispensed with their usefulness
