Position, size & hyperlinking

Below is a set of minimum sizes and clear spacing for the RHS Recommended: AGM.

When using the mark it is important to ensure the text remains legible.

PRINT

ONLINE

Online the mark must always be in colour and hyperlinked to the RHS Award of Garden merit website; rhs.org.uk/AGMplants

TEXT ONLY

When the space for a mark is less than 12.5mm wide in print and 55pt wide on online, use the icon as per page 9 or the abbreviated copy as per page 10.

Use of the icon only

Where limited space is available the trophy icon can be used instead of the full RHS Recommended: AGM mark. Examples of this would be very small digital spaces and small plant label spaces.

Where possible the icon provided on this page should be used but where platforms only allow a certain form of iconography then please use whichever trophy icon is available.
