THE BOTANICAL TREEHOUSE

BY BLUE FOREST & RANDLE SIDDELEY LIMITED

RHS Chelsea Flower Show 2024 - Stand Number MA 333

We are delighted to once again be back on Main Avenue at the RHS Chelsea Flower Show, with a beautiful 2-storey garden treehouse, created in collaboration with renowned leading landscape architecture, construction and maintenance company, Randle Siddeley Limited; and expertly decorated by the talented Lucinda Sanford. This year we wanted to create something a little more grown-up, designed with the garden at the forefront. The use of edible plants and fragrant botanicals will complement the treehouse bar and entertainment deck perfectly.

Set against the backdrop of the prestigious RHS Chelsea Flower Show, the Botanical Treehouse will stand tall amongst the silver birch trees and lush natural garden landscape. The focal point of the structure will be the magnificent entertainment tower, offering guests a space to relax and enjoy the view across Main Avenue, whilst sipping on a botanical cocktail (or mocktail if you prefer) from the adjacent outdoor gin bar.

The Botanical Treehouse

May 2024

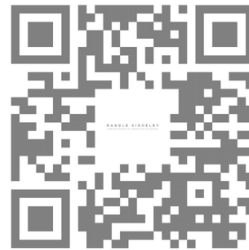

Another addition this year will be the whimsical downstairs kid's hangout, complete with swinging seats and bright interior, which will sit snugly underneath the entertainment tower, ensuring there will be plenty to feast your eyes on at the Botanical Treehouse on Main Avenue.

"We are thrilled to unveil the Botanical Treehouse at the RHS Chelsea Flower Show," said Andy Payne, Founder and MD of Blue Forest. "This project represents a true collaboration between nature and design, and we are delighted to once again be working with the prestigious Randle Siddeley to create something truly spectacular.

The Botanical Treehouse promises to be a highlight of this year's RHS Chelsea Flower Show, and we look forward to welcoming you to our stand.
